Tami Stout
Catherine Crigler
Paul Carrico
Chris Russ
Shawn Baumgardner
Tom Kraft
Tim Yarbrow
Johnny Brock
Andre Leigh
Patrick DeChristo

Caught up new attendees.

Brief discussion about the white lining video-Shawn did a testimonial to go with the video. Patrick asked if there would be any negative impact from the video. We discussed adequate description vs white lining.

The video also gives an opportunity to discuss downtime-better tickets with better information gives you a better & faster locate-Shawn

Chris-discussed 3 hour notices/and make sure to do due diligence-check positive response.

RTE-Ideal tickets/excavator using drop down boxes-might not be options in drop down box but the ticket does not change. Comments do not supersede the locate instructions.

Can the white lining video be sent to Meck & Wake groups prior to release? Both groups would like to review. Will the attorney review prior to release? No-this is not a law. This is just for people to review and possibly use to help with white lining.

Mowing ticket discussion-about whether or not mowing tickets would not be used in the future. There is no digging-no excavation so mowing tickets are still up in the air.

Roger spoke briefly about updates/retransmissions. They do not close out tickets until the punch list is done.

Brief discussion about companies that go thru mergers & acquisitions and don't change/update their company information.

Next meeting July 26th at Sanders Utility.
