LSAW
Locator Safety Awareness Week

Locator Safety Awareness Week April 22 – April 27

Established in 2014 by Infrastructure Resources and endorsed by Nulca, LSAW addresses the need to keep our locators safe on the job. Take the opportunity during this week to acknowledge the locators you work with and let them know how much you appreciate the difficult, challenging, and sometimes dangerous work they do protecting our underground utilities.

#LSAW

April is also Distracted Driving Awareness Month

Every seven seconds someone is injured in a car crash and every 15 minutes someone is killed in one. Employers absorb costs associated with these crashes whether they occur on or off the job. Workplace policies and employee education can help protect your employees, your organization and your community.

Old Business- NONE

New Business- Encourage all to spread the word to help make our UCC grow and keep getting the word out to the community helping us educate those around us.

MSD- Work is busy, no large project to speak of at this time, May ,they see more projects released

PSNC- Staying busy with maint work and locates are up. Crews are staying busy

Asheville Water- New line being installed off of Buncombe, general maintenance work being done. Have noticed that locates have been up. They are having a problem with the locates they call in being located in a timely manner. Asked for Brian Morehouse to reach out to USIC and see what can be done. Seems they are having to call in (3) hour locates on ever job. Are not getting any response back on locates and etc..

AT&T- 4 G Light Gig is winding down, see work going on but they see this job coming to an end by the end of June 2019. Have large projects in the forecast and will have more information on that at the May meeting.
