Safety Tips for working outdoors this summer

DRINK UP

Thirsty or not, drink plenty of water – a cup every 15 to 20 minutes. Avoid caffeine or alcohol which can dehydrate you.

ACCLIMATIZE

It takes time to adjust to working in heat. Work with your supervisor to gradually increase your work load and heat exposure.

Safety Tips for working outdoors this summer

COVER UP AND PROTECT

Wear light, loose-fitting clothing, UV rated sunglasses, and a wide-brim hat. Apply sunscreen with a Sun Protection Factor (SPF) of at least 30 and UVA / UVB protection. Re-apply every 2 hours and after sweating.

SHIELD FROM SUN

Set up shade structures or use umbrellas, buildings, or trees to shield you from the rays of the sun. You can get sunburn on a cloudy day.

Safety Tips for working outdoors this summer

TIME IT RIGHT

Try and avoid the sun and strenuous tasks between 11:00 a.m. and 4:00 p.m. when the sun's rays are strongest.

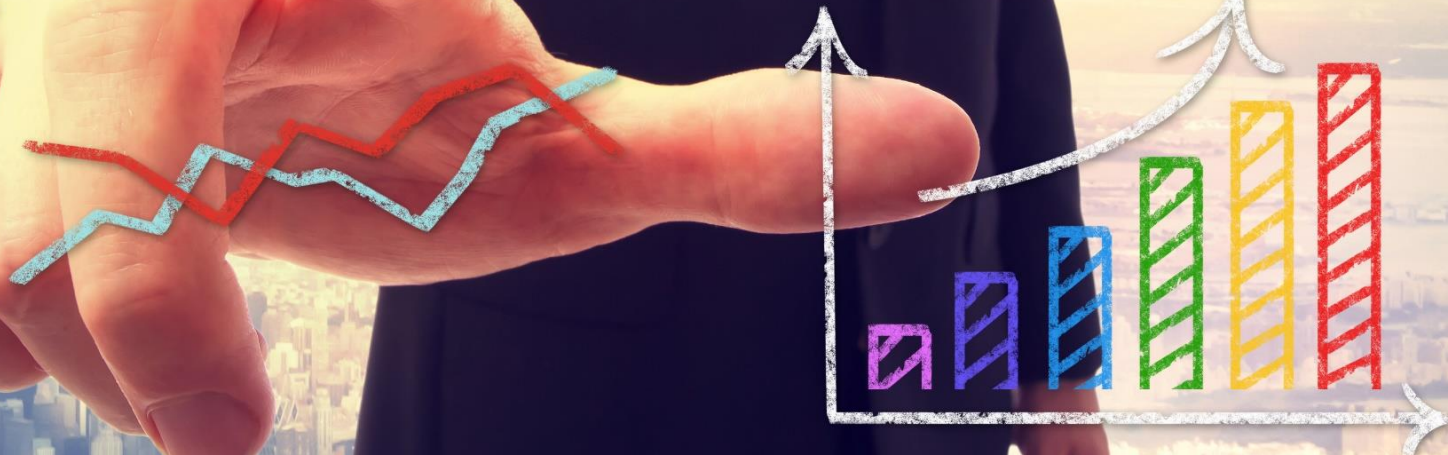

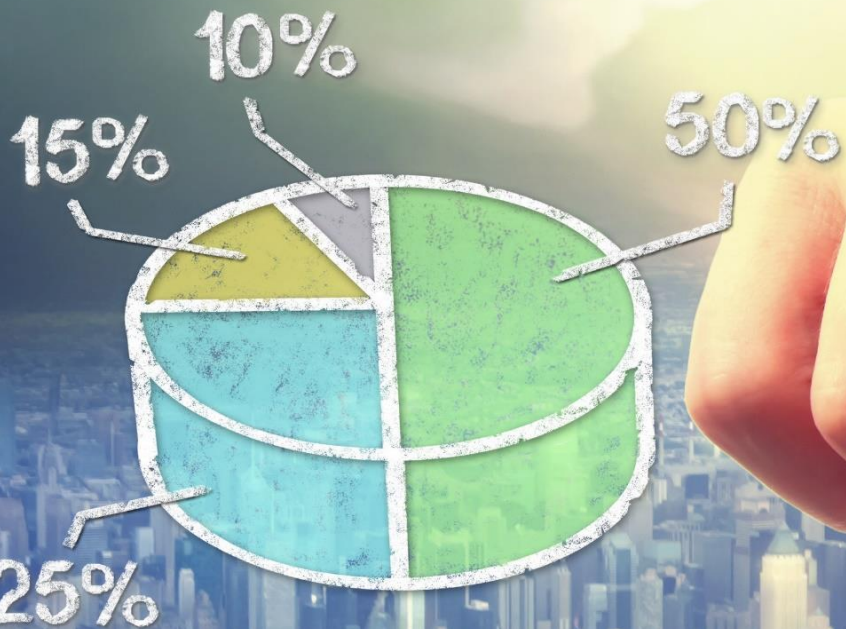

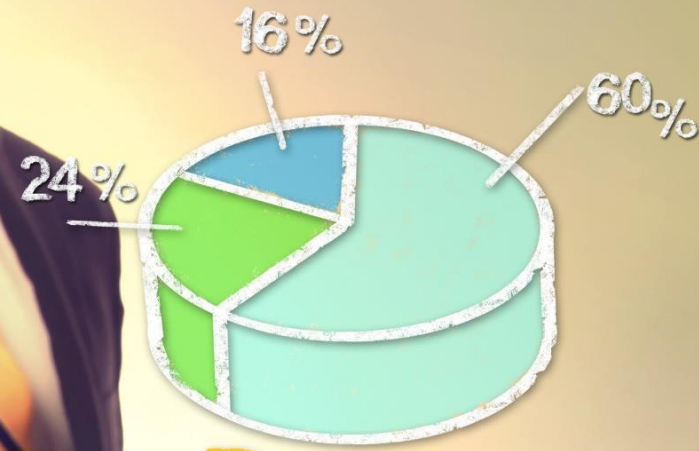

COOL OFF

Take breaks to rest and cool off in the shade or in air-conditioned buildings or vehicles. Don't over-exert yourself.

Brian Morehouse of NC811 UCC made the presentation of data for the month of May 2018. The stats for the month of May are shown in the presentation. Overall, Burke and Caldwell Counties shown that a lot of work is going on in these two counties. **The entire presentation was sent to you last week. Or you can find it by visiting the NC811 website at - <http://www.nc811.org/>**

The month of June is “National Safety Month”. Brian brought out the importance’s of working safely during the summer months. Especially in the heat and sun. He pointed out that those working outside needs to stay hydrated and use sun screen to protect oneself from the sun and heat related injuries.

Brian pointed out that if anyone is having a problem with any location activity, all you need to do is email or call him with the “Ticket Number” and he can research what happened and get useful information back, so you can deal with the problem.

In responses to a question concerning damages in our area, Brian stated that the damages associated with locates and diggings is coming down, currently “it is not bad at all”.

Eric Prince of Tracer Electronics LLC made a presentation of the type of GPS and underground location equipment that his company sells. The type of equipment includes: GPS locator equipment, video cameras, underground x-ray equipment, and leak detection equipment. His company provides service, repairs, training, and sales. He can be reached at the following:

Round-table Discussion Time:

Daniel Breland and Richard Deal – USIC: Still staying busy. However, have been able to catch up on tickets. They currently have 150 locators in the Winston Salem District. They are still hiring and have training classes each month.

David Perkins - Brentwood Water: Have been selling a lot of new taps. Doing a lot of maintenance. We are running behind on installations of taps because of several water line leaks.

David Wortman – Town of Rhodhiss: Their water and sewer installation grant is running behind. They have hit a lot of rock which has cause delays in the project. The project stands at about 50% complete. The installation deadline for completion in the end of July 2018.

Our next meeting will be held again on Tuesday, July 10, 2018 at 12:00 noon at the Timberwood Restaurant in Morganton. Hope to see you next month!!
