

JUNE is
NATIONAL
SAFETY MONTH

Durham County

Safety Tips for working outdoors this summer

DRINK UP

Thirsty or not, drink plenty of water – a cup every 15 to 20 minutes. Avoid caffeine or alcohol which can dehydrate you.

ACCLIMATIZE

It takes time to adjust to working in heat. Work with your supervisor to gradually increase your work load and heat exposure.

Safety Tips for working outdoors this summer

COVER UP AND PROTECT

Wear light, loose-fitting clothing, UV rated sunglasses, and a wide-brim hat. Apply sunscreen with a Sun Protection Factor (SPF) of at least 30 and UVA / UVB protection. Re-apply every 2 hours and after sweating.

SHIELD FROM SUN

Set up shade structures or use umbrellas, buildings, or trees to shield you from the rays of the sun. You can get sunburn on a cloudy day.

Safety Tips for working outdoors this summer

TIME IT RIGHT

Try and avoid the sun and strenuous tasks between 11:00 a.m. and 4:00 p.m. when the sun's rays are strongest.

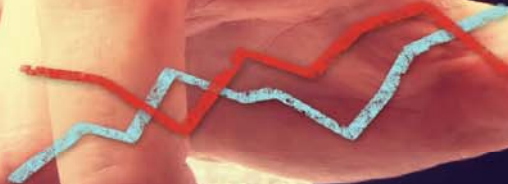

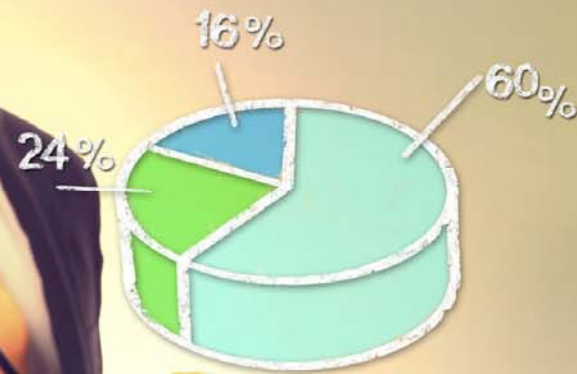

COOL OFF

Take breaks to rest and cool off in the shade or in air-conditioned buildings or vehicles. Don't over-exert yourself.

Durham UCC Meeting June 13, 2018

Jennifer Miller called the meeting to order at 11:00 a.m.

Introductions

Introducing the new supervisor in South Durham – Jeremy McFalls

New Business

- Doug Knight w/ PRG gave a safety moment on heat safety & climate. When you are working inside you aren't aware of how impactful it is to do extended work outside when you are not used to it. Doug told us of an incident where he had passed out from heat due to not being acclimated to the hot weather and doing work for extended periods of time outside.
- White lining in N.C. is it a law or a best practice? There are stipulations here in N.C. but in some states it is the law.
- We did an exercise on interpretation (how many f's do you see).
- 811 day is August 11.
- We see a lot of tickets called in that are not the person doing the work and that cannot answer questions that we may need to ask. We need good contact numbers & names.
- We viewed a video on White Lining.
- There was a question on what to do if a ticket says locate entire property but then, it says in comments locate the white lined area which do you follow? Which is correct?
- We discussed what contractors/companies are calling in the most locate tickets
- We talked about what transmissions means on the presentation (how many people it goes through to pass the ticket along).
- What do we do if a homeowner calls in a ticket for themselves & their shovel vs. the homeowner covering for a contractor vs. a contractor making the homeowner call in a locate ticket.
- Someone inquired about the recent large hit gas line and what the outcome was but it is still under investigation.
- Diversified/Spirit is getting ready to ramp up.
- Questions were asked about why Spirit needs to call in all the tickets they are doing even though they aren't starting the job for a long time. Locators have limited resources and time to locate areas not going to be worked and couldn't Spirit better calculate when a job was going to be worked?
- We were told to please contact Logan Puckett to setup a meet about it.

- A suggestion for USIC was brought up couldn't they have workers in one area and stay in that area so if you call about a ticket you have the right locator and don't have to call 4 other people to get questions answered?
- If they have a big job, the locators have to get moved to where the work is and may not be able to stay in one area.
- USIC has discussed the integration of systems with 811 system would help with the messages that populate on the tickets.
- One option discussed was couldn't Spirit look at spacing out tickets 3 days to 10 days is the minimum & max. requirement for due date on tickets and space out jobs so you don't give someone 10 miles of tickets to locate in a day.
- It takes communication and patience.

If you want to be a lunch sponsor please let Jennifer Miller know at 919-598-7447 or if you would like to lead the safety moment please let Jennifer know via phone or email is Jennifer.Miller@Scana.com

Next Meeting is August 8, 2018

Special Thanks to ITS for sponsoring lunch.
