## Discussion

Kevin Smith, our new NC811 Liaison, presented the NC811 report. Locate requests for Harnett County were up 13.1% from last year and in Johnston County they were up 18.5%. Lillington had the most tickets in Harnett County and Clayton had the most in Johnston County. He also mentioned that about 64% of locate tickets were submitted via Remote Ticket Entry. Kevin discussed Emergency locates and explained that while the hope is for a speedy response, the responders by law still have the required 3 days to respond. April 22<sup>nd</sup> through April 28<sup>th</sup> is Locator Safety Awareness Week, please let the locators you come in contact with know how much you appreciate the difficult job they do. Kevin shared that Ingles is helping spread the 811 message through their circulars, stickers on plants, banners at their garden centers, the Ingles Table magazine and in store radio ads. NC811 has an opportunity for you to win prizes by going to [safedigging.me](http://safedigging.me) in the month of April and playing to win. Home Depot and Lowes are also spreading the 811 message by putting safe digging information on tree wraps. The full NC811 report is attached to these minutes.

It was asked if anyone had any issues contacting Aqua NC or having them locate lines, Ann with NC811 said that she can get us a local contact to call when needed. She also mentioned that if you go to the Damage Notification page on the NC811 app you can get contact information for members.

Andrew adjourned the meeting and thanked everyone in attendance.
