Mary Ellen Fawcett-Town of Waynesville  
Richard Walsh-PSNC  
Josh Bowman-PSNC  
Michael Whiteside-Southern Cross  
Tami Stout-NC811

Meeting opened at 12:05 pm by Chair, Josh Bowman.

NC811 Presentation given by Tami Stout.

PSNC-Jones Cove project 1000' of 2" serving the new animal shelter.

Brandon-The update has been completed at Camp Branch.

Jeff-Water line projects keeping them busy.

Jesse-Called AnSCO. Not calling marking areas. Calling pole numbers, but not white lining, no ribbon, no flags. The locators have no clues where the poles are located. Just pole numbers but they don't have the area delineated to give them an idea where. If AnSCO can share their maps with the locators, it would let them know where the poles are located.

Erick-Town of Clude has a project coming up. TV'ed line to replace sewer line. Move forward in the next few months; Hyder Mountain Road to the lift station.

The new subdivision near the animal hospital has to have a manhole. The project will not be signed off on until a manhole is installed. There has been an intrusion in the service line in front of Haywood Appliance. Service line is busted, struck right at the gas line-possibly when bored through. PSNC gas line. The camera is working again-might be able to tv it.

David-Town of Waynesville-RFQ this summer. Pigeon to Shelter Branch will have to be lowered. Significant project. Will want to use some DOT \$ to help with project. Realign the curve near main street. DOT has a lot of work to do.
