87-122 (c) (2) Confirm through positive response prior to excavation that all operators have responded & that all facilities that may be affected by the proposed excavation have been marked.

Member Response Codes

- 10 No conflict, utility is outside of stated work area
- 20 Marked
- 30 Not complete
- 32 Locate Not Complete, additional communication with the excavator required. Unable to contact the excavator.
- 40 Could not gain access to property, locator will contact excavator
- 50 Critical facility not marked, The utility owner or their designated representative have contacted the excavator and have agreed to a period that an owner representative must be present during excavation to identify the unmarked facility and/or monitor the excavation
- 55 Critical facility marked. The utility owner or their designated representative have contacted the excavator and have agreed that an owner representative must be present during excavation
- 60 Locator and excavator agreed and documented marking schedule
- 70 Excavator completed work prior to due date
- 80 Member's Master Contractor is responsible for locating facilities
- 90 SURVEY DESIGN REQUEST - Facility Has been Marked in the Field
- 92 SURVEY DESIGN REQUEST -No Facilities in the Area
- 94 SURVEY DESIGN REQUEST - Facility Records Provided
- 98 SURVEY DESIGN REQUEST - Access to Facility Records Provided
- 100 Location request denied due to Homeland Security Concern. Member utility operator needs to confirm legitimacy of the proposed excavation and may need additional information.
- 110 Subaqueous Facilities Present. Member utility owner will locate facilities within 10 full working days.
- 888 Extraordinary Circumstances Exist. Member utility owner unable to complete location request until (Date / Time).
- 999 Member has not responded by the required time

Destroyed Marks & 3 Hour Tickets

DESTROYED MARKS

If locate marks have been destroyed, the excavator must contact NC811 to issue a Destroyed Marks ticket requesting a remark of the area from the original ticket. A 3 Hour Ticket should not be used in case of destroyed marks.

3 HOUR TICKET

If an operator fails to respond to the positive response system, the excavator may proceed if there are no visible indications of a facility at the proposed excavation or demolition area, such as a pole, marker, pedestal, meter, or valve. However, if the excavator is aware of or observes indications of an unmarked facility at the proposed excavation or demolition area, the excavator shall not begin excavation or demolition until an additional call is made to the Notification Center detailing the facility and an arrangement is made for the facility to be marked by the operator within three hours from the time the additional call is received by the Notification Center.

Bad Weather Driving Tips

- Inspect their vehicles before departing. Check tires, lights, turn signals, wipers, windows, defroster, mirrors and loads. Report defects to the mechanic and have them repaired before you go on the road.
- Keep windows and lights clean and clear of dirt, snow, and ice.
- Use wipers, defrosters, and headlights to improve your visibility day or night. Headlights also help other drivers see you.
- Avoid distractions, such as cell phones or radios.
- Watch out for puddles and icy patches that could cause hydroplaning or skids.
- Do not attempt to drive through deep puddles. You could get stuck or wet the brakes.
- Avoid quick or sudden stops or turns.
- Increase your stopping distance.
- Wear your seat belt at all times and require passengers to do the same. There is no time for mistakes during bad weather. Bad weather affects all drivers. You must stay alert. Watch out for the other drivers, too. Drive defensively!

Iredell UCC
February 2019

Meeting opened at 9:06 am by Chair, James McHouell.

The Town of Mooresville, Iredell Water, West Iredell Water, and James McHouell are not receiving invitations.

The Damage Prevention Breakfast has been scheduled for the month of April. Meeting will be held at the Golden Corral in Mooresville on April 4. Golden Corral will open for us at 6:30 for set up. Brief presentation to be given by NC811 and by USIC.

PSNC-

DOT projects in Mooresville/Cornelius subdivisions. Rocky River and Cottle Creek, Meadows at Cottle Creek. West McClelland is approximately 50% complete with new 8" plastic line. Waterlyn is a new subdivision. Teeter Road will be running 3600' of 2" line. 3000' of 2" will be going to eleven lots in Palisades at Beaten Path. Several encroachments have been sent to NCDOT.

Williams-

Business as usual. Northcross to Westmorland Road will be moving some line due to roundabouts.

USIC-

Tremendous amount of work. Please be sure to call in tickets when you are ready to begin your project. Calling them in weeks or months prior means multiple trips for your locators and could keep them from being able to get to jobs that are actually ready to begin. Make sure that when you enter/call in a ticket that you have good contact information for the field personnel. USIC will no longer be doing locates for Century Link.

One Call Concepts-

Brian is visiting the area. Business as usual. If he can be of assistance, please let him know.

NCDOT-

Lot of work ongoing. Having a few issues with the MCI/Verizon work. No traffic controls, no signs about machinery on the highway (US 21) and some incorrect drawings.

Next meeting at the Town of Troutman, March 7.
