Other Topics of Discussion...

- ❖ Chairman Ralph Murphy discussed a few strange but funny locate requests.
- ❖ He also stated that cable companies are having trouble getting information from the technicians when a bore is needed.
- ❖ There was an issue with a local sign contractor (for NCDOT) that is not pre-marking sites where the locates are needed. NCDOT representative Darren Howell was on hand to discuss this issue. He said that if you get locate requests from this sign company, please email NCDOT and they will try to get out to the site and pre-mark the areas 500 ft at the beginning and end of the project and all the side roads approximately 500 ft from the main line. This is just for the work zone construction signs.
- ❖ Fiber optic cables are being installed at all of the Onslow County schools. The sites will be white lined.
- ❖ A lengthy discussion was held concerning off-site sewer lines. It was determined the Home Owner's Associations may need to become members of NC811.

****Local Utility Updates****
