# NC811 Open House – Jan. 2019

A sunset over a mountain range with the year 2018 overlaid in large white text.

2018

what a great year!

A man in a dark suit and red tie is pointing his right index finger towards a blue hexagon. The background is a dark blue grid of hexagons, some containing icons: a hierarchy chart, a pie chart, a person silhouette, a globe, a bar chart with an upward arrow, a clock, and a presentation board. The text 'business analytics' is written in white inside the blue hexagon.

**87-122 (c) (2) Confirm through positive response prior to excavation that all operators have responded & that all facilities that may be affected by the proposed excavation have been marked.**

### Member Response Codes

- 10 No conflict, utility is outside of stated work area
- 20 Marked
- 30 Not complete
- 32 Locate Not Complete, additional communication with the excavator required. Unable to contact the excavator.
- 40 Could not gain access to property, locator will contact excavator
- 50 Critical facility not marked, The utility owner or their designated representative have contacted the excavator and have agreed to a period that an owner representative must be present during excavation to identify the unmarked facility and/or monitor the excavation
- 55 Critical facility marked. The utility owner or their designated representative have contacted the excavator and have agreed that an owner representative must be present during excavation
- 60 Locator and excavator agreed and documented marking schedule
- 70 Excavator completed work prior to due date
- 80 Member's Master Contractor is responsible for locating facilities
- 90 SURVEY DESIGN REQUEST - Facility Has been Marked in the Field
- 92 SURVEY DESIGN REQUEST -No Facilities in the Area
- 94 SURVEY DESIGN REQUEST - Facility Records Provided
- 98 SURVEY DESIGN REQUEST - Access to Facility Records Provided
- 100 Location request denied due to Homeland Security Concern. Member utility operator needs to confirm legitimacy of the proposed excavation and may need additional information.
- 110 Subaqueous Facilities Present. Member utility owner will locate facilities within 10 full working days.
- 888 Extraordinary Circumstances Exist. Member utility owner unable to complete location request until (Date / Time).
- 999 Member has not responded by the required time

# Destroyed Marks & 3 Hour Tickets

## **DESTROYED MARKS**

If locate marks have been destroyed, the excavator must contact NC811 to issue a Destroyed Marks ticket requesting a remark of the area from the original ticket. A 3 Hour Ticket should not be used in case of destroyed marks.

## **3 HOUR TICKET**

If an operator fails to respond to the positive response system, the excavator may proceed if there are no visible indications of a facility at the proposed excavation or demolition area, such as a pole, marker, pedestal, meter, or valve. However, if the excavator is aware of or observes indications of an unmarked facility at the proposed excavation or demolition area, the excavator shall not begin excavation or demolition until an additional call is made to the Notification Center detailing the facility and an arrangement is made for the facility to be marked by the operator within three hours from the time the additional call is received by the Notification Center.

# Bad Weather Driving Tips

- Inspect their vehicles before departing. Check tires, lights, turn signals, wipers, windows, defroster, mirrors and loads. Report defects to the mechanic and have them repaired before you go on the road.
- Keep windows and lights clean and clear of dirt, snow, and ice.
- Use wipers, defrosters, and headlights to improve your visibility day or night. Headlights also help other drivers see you.
- Avoid distractions, such as cell phones or radios.
- Watch out for puddles and icy patches that could cause hydroplaning or skids.
- Do not attempt to drive through deep puddles. You could get stuck or wet the brakes.
- Avoid quick or sudden stops or turns.
- Increase your stopping distance.
- Wear your seat belt at all times and require passengers to do the same. There is no time for mistakes during bad weather. Bad weather affects all drivers. You must stay alert. Watch out for the other drivers, too. Drive defensively!

on [www.ncucc.org](http://www.ncucc.org)

Use the UCC Issues form to voice your concerns  
to both local and state level UCC meetings in North Carolina.  
Available on both the NCUCC website and the NC811 app.

**February 12, 2019**

Lee County UCC Meeting  
800 N. Horner Blvd., Sanford, NC

**Meeting Time:** The meeting was called to order by the chairman, Michael Lamping, at 8:31 a.m.

**Total Members Present:** There were twelve members present.

Meeting started with introductions and conversation was moved to new projects.

**New Projects:**

Lee Parris with NCDOT, stated that the town of Sanford is in the process of replacing a main water line from Hawkins road to the industrial park. This will be a two-year project for completion. There is a bridge replacement on St. Andrew's Church road and NC Forty-Two.

Sarah Thompson, with Dominion Energy, stated they have several small projects in lee county and also installing a new main line from Valley road to Rockwood road.

Michael Lamping, with the city of Sanford, stated there are currently a total of seven new apartment complexes, in various stages of development within Lee county The town is also in the process of refurbishing the Kiwanis park. Plan is to add new amenities and to give it a new look and feel.

**Recent Damages:**

Tony Armen, with Dixie Pipeline, stated that this was not a damage, but wanted to share this with the group. Recently, a contractor, whom was not listed on the original locate ticket, was working as a subcontractor for a general contractor on a project near one of their transmission lines. They found out, day's later that the subcontractor, had performed their scope of work near their transmission line, without letting anyone know at Dixie Pipeline. The original ticket had expired from the general contractor and the sub never requested an update or a new locate ticket. Conversation then turned to what NC811 recommends for the practice of having sub's work on original locate ticket. Kevin Smith, with NC811, read directly from the excavation guide, in what is recommended from NC811.

**NC811 Presentation:**

Kevin Smith, with NC811, gave the monthly presentation and gave strong emphasis on the importance of having your ticket match the white lining and vice versa. He also covered some important features on the NC811 app and spent considerable time on the subject of calling in the correct locate request.

**General Discussion:**

Michael Lamping, brought up the recent damage which occurred in Mexico and that several people had been killed in the damage. Apparently, a group of individuals were attempting to steal natural gas from an illegal tap that they had put in the system exploded.

Kevin Smith, discussed the fatal accident that occurred in Raleigh a couple weeks' prior, involving an inadequate use or no use of shoring while excavating.

**Meeting concluded after the general discussion. (above)**
