Howard gave reminder that private utilities after the meter in most cases, the utility company own the utility up to the meter but after the meter the utility would be privately owned. Remember water meters are normally near the street.

Discussed the difference between a three hour ticket and a regular ticket. A three hour ticket should be called in if you see evidence of unmarked utilities in your work area.

Discussed the new GIS system NC state is trying to put together for utilities in their right of way- we should hear more about this in the near future.
