# Safety Tips for working outdoors this summer

## **DRINK UP**

Thirsty or not, drink plenty of water – a cup every 15 to 20 minutes. Avoid caffeine or alcohol which can dehydrate you.

## **ACCLIMATIZE**

It takes time to adjust to working in heat. Work with your supervisor to gradually increase your work load and heat exposure.

# Safety Tips for working outdoors this summer

## **COVER UP AND PROTECT**

Wear light, loose-fitting clothing, UV rated sunglasses, and a wide-brim hat. Apply sunscreen with a Sun Protection Factor (SPF) of at least 30 and UVA / UVB protection. Re-apply every 2 hours and after sweating.

## **SHIELD FROM SUN**

Set up shade structures or use umbrellas, buildings, or trees to shield you from the rays of the sun. You can get sunburn on a cloudy day.

# Safety Tips for working outdoors this summer

## TIME IT RIGHT

Try and avoid the sun and strenuous tasks between 11:00 a.m. and 4:00 p.m. when the sun's rays are strongest.

## COOL OFF

Take breaks to rest and cool off in the shade or in air-conditioned buildings or vehicles. Don't over-exert yourself.

# WHITE PAINT OR FLAGS ON A JOB SITE ELIMINATES GUESSWORK.

Sometimes it is difficult for excavators to relay the exact location of their dig sites to the one call center. Even clear and accurate information relayed in writing or verbally to one person may not be clear to another. With white lining, locators have excavation information on paper, and also have a clearly marked excavation area. White lining helps to avoid misinterpretation and allows for more accurate locates.
