

GREENVILLE UTILITIES COMMISSION

Gas Department Work Progress

~~March~~ 2017

April

<u>NAME</u>	<u>WORK TO BE DONE</u>	<u>DURATION</u>
Mobley's Bridge Road	Install 4" PE Gas Main	4 Days
Sullivan Drive – Upgrade	Install 6" PE Gas Main	4 Days
Publix – Greenville Blvd	Install 2" PE Gas Main	3 Days
Brandy Creek South – Phase 2 (Greenville)	Install 2" PE Gas Main	5 Days
Greenville Housing Authority	Remove Master Meters	6 Days
Twin Creeks Subdivision Phase 2	Install 2" PE Gas Main	3 Days
Langston West Section 7	Install 2" PE Gas Main	4 Days
Charleston Village Section 7	Install 2" PE Gas Main	3 Days

CONTRACTOR PROJECTS

Thomas Langston Road (Improvements)	Install 8" PE Gas Main	15 Days
Southwest Bypass	Relocate existing facilities	40 Days

ON HOLD PROJECTS

E Wright Rd. – (Greenville) Phase 2	OB Replacement Project	10 Days
Colonial Heights – (Greenville) Phase 3	OB Replacement Project	20 Days
6" Service Tap Replacement Project	Replace Leaking Taps	365 Days
About System	Replace White Bottom Valves	Until Complete

COORDINATION MEETING NOTES PUBLIC WORKS DEPARTMENT

May 9, 2017

Projects Under Construction

1. Intersection Pedestrian Improvements – Lynn Raynor
 - a. 15 intersections around Greenville - complete
 - b. NCDOT handling ped signal improvements
2. 2016 Bond Street Repairs, Phase 1 (Arlington from Heart to Memorial)
 - a. complete
3. King George Bridge Replacement – Lynn Raynor
 - a. Complete
4. 2016 Bond Street Repairs, Phase 2 (Arlington from Red Banks to Firetower) – Lynn Raynor
 - a. ST Wooten Corp.
 - b. Final surface paving begins tonight

Projects Recently Advertised

1. 2017 Street Resurfacing Contract – Craig Midgett (will be CEI)
 - a. Awarded by Council to Rose Brothers Paving
 - b. NTP – late May/early June

Projects in Design/Upcoming Projects

1. South Tar River Greenway Phase 3 – First Street Place to Moye Blvd – Lynn Raynor
 - a. Still working through issues with CSXT
 - b. Tentative Construction advertisement June
2. Safe Routes to School-Craig Midgett
 - a. Currently working on easement acquisition
3. W. 5th Street Gateway – Lynn Raynor
 - a. Currently working on easement acquisition
 - b. Construction depends upon completion of acquisition
4. 2017 Street Resurfacing Phase 2
 - a. Tentative late summer award
 - b. September NTP?
5. Arlington Bond Project Phase 3
 - a. Hooker to Red Banks, Full Depth Reclamation?

In North Carolina there are several types of tickets. Let's explain each ticket in-depth.

NORMAL

A normal ticket is done when any excavation is planned. This is the standard type of ticket used for excavators digging on a jobsite. The excavator shall give a 3 working day notice. ***All location requests are accepted Monday through Friday from 7am to 7pm. Outside these hours and on holidays only emergency locates are accepted by calling 811 directly. You can also use Remote Ticket Entry to enter a normal locate request. RTE is available online and can be used any hour of the day, any day of the week, including weekends and holidays. A normal ticket should only be used when actual digging will take place. If you are not digging, a design/survey ticket should be requested.

EMERGENCY

An emergency locate is done when the caller states that they have an emergency. The Customer Service Representative will not ask if the locate is an emergency and cannot determine whether a true emergency exists; the caller must use the word, "emergency" when requesting the locate. Emergency is defined in the law as an event involving a clear and imminent danger to life, health, or property, the interruption of essential utility services, or the blockage of transportation facilities, including highways, railways, waterways, or airways that require immediate action. Callers should not request an emergency just because a job is behind schedule or someone forgot to call it in. Emergency locates are accepted 24 hours a day 7 days a week and can only be requested by calling 811 directly.

RETRANSMIT

A retransmitted ticket is an existing ticket that can be sent back out to one or all of the members on the ticket within the 15 working day life of the ticket. The caller may request additional members to be added to the ticket, add more directions, or contact numbers, or state that lines have not been marked correctly. *If the members are added to the request, the added member still has three full working days to mark their underground facilities.

UPDATE

An update ticket extends the original ticket when the work will go beyond the 15 working days. No changes can be made to the ticket and it cannot be updated until the 12th working day.

DAMAGE

The Underground Utility Safety and Damage Prevention Act requires that any excavator performing an excavation or demolition that results in any damage to a facility shall immediately upon discovery of the damage notify North Carolina 811 and the facility operator, if known, and provide the location and nature of the damage. In turn, NC811 will create a Report of Damage ticket and send it to any affected utility immediately. A Report of Damage is not a locate ticket and cannot be used to get lines located. Also, a Report of Damage does not relieve the excavator from any responsibility regarding the damages.

DESTROYED MARKS

If locate marks have been destroyed, the excavator must contact NC811 to issue a Destroyed Marks ticket requesting a remark of the area from the original ticket. A Destroyed Marks ticket does not extend the life of ticket; it will expire the same day as the original locate request. A 3 Hour Ticket should not be used in case of destroyed marks.

DESIGN/SURVEY

A design or survey ticket is created by request from companies or individuals responsible for designing underground facilities or those who require a general description and location of existing underground facilities in an area. Since there will be no digging and, therefore, no risk to the underground utilities; the member utilities or their contract locators have 10 full working days to respond to a design/survey ticket instead of the usual 3 full working days.

3 HOUR TICKET

If an operator fails to respond to the positive response system, the excavator may proceed if there are no visible indications of a facility at the proposed excavation or demolition area, such as a pole, marker, pedestal, meter, or valve. However, if the excavator is aware of or observes indications of an unmarked facility at the proposed excavation or demolition area, the excavator shall not begin excavation or demolition until an additional call is made to the Notification Center detailing the facility and an arrangement is made for the facility to be marked by the operator within three hours from the time the additional call is received by the Notification Center. A 3 Hour Ticket should not be used in the case of destroyed marks.

A photograph of a construction site. In the foreground, a worker in a white hard hat, a high-visibility yellow vest over an orange shirt, and khaki pants is seen from behind, looking towards a black metal fence. A large orange pipe is being moved or positioned behind the fence. In the background, another worker in a white hard hat and a high-visibility yellow vest over a blue shirt is standing near a pile of dirt. Two orange and white traffic cones are visible on the ground. The scene is outdoors with trees in the background.

NC811, April 2017: 528 Damage Events in 49 Counties

Read all about it!

Did you know that NC811 has a news blog? Every time we publish a press release a copy is posted here for all to see. So next time you are in the app, take a second to see what's happening at NC811.

Help us celebrate the excitement of Lowe's commitment to keeping communities safe. Over 1.5 million tree wraps are showing up in Lowe's garden centers across the nation with a reminder to Call or Click 811 Before You Dig.

Snap your best selfie with a Lowe's tree wrap and you could be the winner of a **\$100 Lowe's gift card** each month from May til September 2017. 4 random winners will be selected each month.

How to enter

1. Visit a local Lowe's Garden Center nearest you.
2. Snap a selfie with the "811" Call or Click Before You Dig logo on the tree wrap.
3. Post the photo on Facebook or Twitter and use the hashtag #811Lowes. Also, be sure to note what state you are from in your post.
