WHITE PAINT OR FLAGS ON A JOB SITE ELIMINATES GUESSWORK.

Sometimes it is difficult for excavators to relay the exact location of their dig sites to the one call center. Even clear and accurate information relayed in writing or verbally to one person may not be clear to another. With white lining, locators have excavation information on paper, and also have a clearly marked excavation area. White lining helps to avoid misinterpretation and allows for more accurate locates.

Use the UCC Issues form to voice your concerns to both local and state level UCC meetings in North Carolina. Available on both the NCUCC website and the NC811 app.

Richmond County UCC Meeting
May 2018

Meeting opened at 10:03 by Randy Webb.

Level one safety given by Randy Webb.

Safety minute given by Tim Nickens.

NC811 presentation given by Tami Stout.

Discussed issues with Storage Company who did not want to allow locator on premises. There was a gas line on the property. Locator found a way to get line marked, but it was an issue. Philip spoke about a line cut after area marked. The excavator was near a large, marked facility, but did not spot prior to excavation.

Project in Troy should be completed between August and October. The Richmond County portion is complete.

PNG-River Road/East End project. Carolina Avenue-NCDOT is putting drain boxes near the railroad. Green Street relocation and widening project is upcoming. Has not started yet.

Cablehound-No work in the area right now.

Please send the active shooter presentation from the NC/SC Joint UCC Conference to Randy.

Next meeting July 19, 2018.

Rachinonk Co LLC 5-17-18
