In case of a fire emergency, everyone should exit out through the double doors turn right into the hallway exiting out the door and walk towards the street and wait at the PSNC Logo sign at the front of the entrance.

#### **Introduction of the Members and Guest:**

Mazetta Wynn welcomed everyone to today's meeting again and a formal introduction of the guests and members from left to right announcing their name along with the company they are affiliated with.

#### **Safety Moment:**

Mazetta Wynn reminded everyone of the safety moment from the last meeting that Donna Zuniga with Duke Energy advised when you have your headlights on the "Auto Setting". The auto function is when headlights will automatically come on when the sensor detects the level

of light or dark to make them come on. She have found with this auto function, the sensor will not make the lights come on when it is raining as it may not be dark enough to trigger them to come on. However, in North Carolina it is the law for headlights to be on when using the wipers. Therefore, when it is raining, you may have to manually turn on your headlights. Mazetta found out that her vehicle is the same way so she advise that she's turning her lights on when it's raining.
