

Wake County Utility Coordinating Meeting

PSNC Energy-South Raleigh Office

Located at 4211 Global Street, Raleigh, North Carolina 27610

September 26, 2017

Meeting Time:

The Wake County Utility Coordinating Meeting was called to order by Mazetta Wynn at 11:01 am.

Total Members Present

There was a total of **42** members present at the September Wake County Utility Coordinating Meeting according to the sign in sheet. **Members have been asked to please sign in so that an accurate count of attendees for each meeting can be documented.**

Welcome of Members and Guest:

Mazetta Wynn with PSNC Energy welcomed everyone to the **9th** UCC meeting of the year. Housekeeping rules given for newcomers. Bathrooms are located out the double doors and straight down the hallway to the left. In case of a fire emergency, everyone should exit out through the double doors turn right into the hall way exiting out the door and walk towards the street and wait at the PSNC Logo sign at the front of the entrance.

Special Thank You:

Lunch was provided for this meeting by Ryan Hussey with Lumos Communications. Thank you again Lumos Communications for providing lunch for us during this meeting!!! Blessing of the food was provided by Mazetta Wynn. Lunch which began at 11:02 am.

Introduction of the Members and Guest:

Mazetta Wynn with PSNC Energy welcomed everyone to today's meeting again and a formal introduction of the guests and members from left to right announcing their name along with the company they are affiliated with.

Safety Moment:

Two occupied, transit vans with 20 day tags, caught fire, due to the exhaust system blowing down. It seems that a transit van put out a whole lot of heat causing the exhaust pipe to catch fire at the bumper. This is the second situation, like this in 45 days. Everyone is okay including the driver.

Second Safety Moment:

Two months ago a contractor stepped on a hole and had to have surgery on 70% of his muscle. Watch out for the holes in the sod.

Third Safety Moment:

Mazetta Wynn with PSNC Energy spoke about storms. We are in our severe storms and hurricane season and just be prepared and make sure you have your check list. There could be loss of electricity, falling trees, flooding, and severe flooding in the road.

Approval of Minutes:

First Approval: Sandra Johnson with PSNC Energy

2nd the Motion: Mark Slentz with City of Raleigh

Old Business:

Sandra Johnson with PSNC Energy advised that the contractor breakfast is coming up on Tuesday, October 24, 2017 at North Carolina State University Club at 7:00 am. Sandra advised that she have spoken with Cassidy Parks with NC State University Club and have confirmed that we will have the buffet breakfast just like what we had last year. Sandra distributed a copy of 2016's agenda to give everyone a general idea of the agenda for 2017. Our speaker will be Dennis Parnell, Executive Director of the North Carolina Safety Conference. Jeff Bartley with NC811 is the individual who help to put this event together. So far the companies who are on board to help sponsor this breakfast as we can't do it without their support are as following: Dixie Pipeline, Town of Wake Forest, Precision Networks, Inc., ABE Utilities Incorporated, North Carolina 811, Lambert Cable, USIC, Duke Energy, Nash Hardy Landscaping, PSNC Energy. I also had a telephone call from Tina Brody from Spectrum. She hasn't gotten back to me yet, but will confirm if TimeWarner Cable will be a sponsor. At this time we do not have any door prizes, but I think it would be better if we could help to contribute to the breakfast before we have the door prizes if that works for everyone. If you need a federal identification number Sandra have obtained one many years ago when we had our checking account so if anyone need a federal identification number for their bookkeeping records, please let her know. Again, our Contractor Breakfast will be held at North Carolina State University Club at 4200 Hillsborough Street, Raleigh, NC 27606 on Tuesday, October 24, 2017 at 7:00 am. We will have a very short presentation and will be on our way. Someone will be there to take credit card payments at the conference per Cassidy Parks if needed. Please consider door prizes and donations as well for this event. Thank you everyone for your continued support!

New Business/Concerns:

No New Business at this time.

Contractors/Locators Concerns:

Member spoke about receiving an email from Louis Panzer with NC811 reference to filling out a survey about our Utility Coordinating Meeting. Comment thoughts was that we have a great group and a lot of participation as a group and people feel comfortable being here. The concern that we have is the lack of participation from our contractors. There are a huge amount of franchise owners that have contractors and listening to Tony at the last meeting about the large percentage of contractors not calling in locate tickets. So somewhere there is a huge disconnect and we don't have the answer for it. We just hope that the members of this group will have some ideas of reaching out to our contractors to get more involved. It doesn't appear that we are reaching out to these contractors to get them involved and to get them to come to our meetings. That was my comments to the survey. We just didn't have a good answer as to the best way to achieve this problem.

Facility owners talk to your contractors and invite them to our local UCC meeting. If there are contractors out there then talk to them and invite them to our meeting. Spectrum require their contractors or those that work underneath them are required to be at the UCC meeting and we are required to report all of our locate and ticket numbers. That's one way to do it as to make it mandatory for them. There were approximately five or six contractors from Spectrum present at our meeting today.

Sandra Johnson with PSNC talked about what happened in her neighborhood. We had a home that was sold very small two street subdivision that she live on and the person who bought the home is doing a total renovation and he had hired someone with heavy equipment to come in and remove most of the trees and she was talking about backhoe, etc. It was very huge equipment and they have not called in the first locate request at all. They cut the power cable according to the neighbor. They haven't contacted Duke Energy to put it back. Evidently someone put that cable back together as they do have power. She drove by there Saturday morning and took pictures of the equipment and address and sent it to Donna Zuniga with Duke Energy. She was out of town, but she answered my telephone call and I sent her the pictures. The owner have said to everyone that he don't need all these permits and that he is too far back and no one is going to know what he is doing. Anyone with the City of Raleigh who have any idea about inspections or whatever that address is 4821 Leven Lane, Raleigh, North Carolina.

Charter: Business as usual. Just continue to put everything back together.

Mr. Levine with Spirit Communications advised that Spirit is moving around. There are some issue with permits, but coming along well. We should be done in Wake County going to Durham County, Orange County, and Forsyth County next in line.

****The best way to change contact under damages is to call Member Services at 336-855-5760 and Push #9 and you will get Tonia and she will be able to assist you.****

City of Raleigh-Everything is working. It's very busy and everyone is doing a lot. Just be cautious getting in the roadway. Make sure your maintenance signs are set up. We are starting

to get a number of complaints and just trying to keep everyone safe. That's our main concern. We want you to be safe when you are doing it. Just take that extra time and be safe. It's not just us forcing anything, but just looking for traffic control.

PSNC Energy- Cort Bennett advised that all is good. There are leak survey going on and more leak repairs. Other than that all is good.

Robert Yu with USIC advised that October is the biggest month of the year. Everything is more the same at this time.

NC811 Presentation:

- Jeff Bartley presented the NC811 report for the month of September 2017. The NC811 Center received locate request totaling **178,099** in 2017. The total locate request in **2016** was **196,915**. This was a decrease of **-9.6%**. Transmission Locate request was **1,076,866** in 2016. Current Locate request in Transmission was **1,000,845** in 2017. This was a decrease of **-7.1%**. The total number of State wide tickets for 2017 was **1,307,783** which was **-0.8%** over 2016. Total year to date of transmission tickets are **7,410,337** which is a total increase **-6.2%** over 2016.
- There was a total ticket volume of **196,387** for Wake County in 2017. The average locate per day was **1,169** base on 168 work days.
- The total county ticket distribution in Wake County was **26,701**.

THOUGHTS...

We want you to get the most out of your time at this UCC meeting. We would also like to have more utilities, government agencies and contactors attend UCC meetings.

Please take this brief survey and tell us your ideas on how we can better accomplish this goal.
