

2022

— HAPPY NEW YEAR —

January 2022
State UCC

- Welcome to 2022! We finished 2021 about 8.5% up over 2020...
- Fasten your seatbelts because we expect a busy time
- We are gearing up for the expected spring rush with new CSRs being trained
- Welcome your new NC 811 representative to the Underground Damage Prevention Review Board:
Ann Rushing

A person wearing a blue suit jacket and a light blue shirt is holding a white rectangular sign. The sign contains text in dark blue font. The background of the slide is a light gray grid pattern.

JOINT SC/NC UTILITY COORDINATING COMMITTEE CONFERENCE 2022

LOCATION: Hyatt Regency, 220 North Main St, Greenville, SC

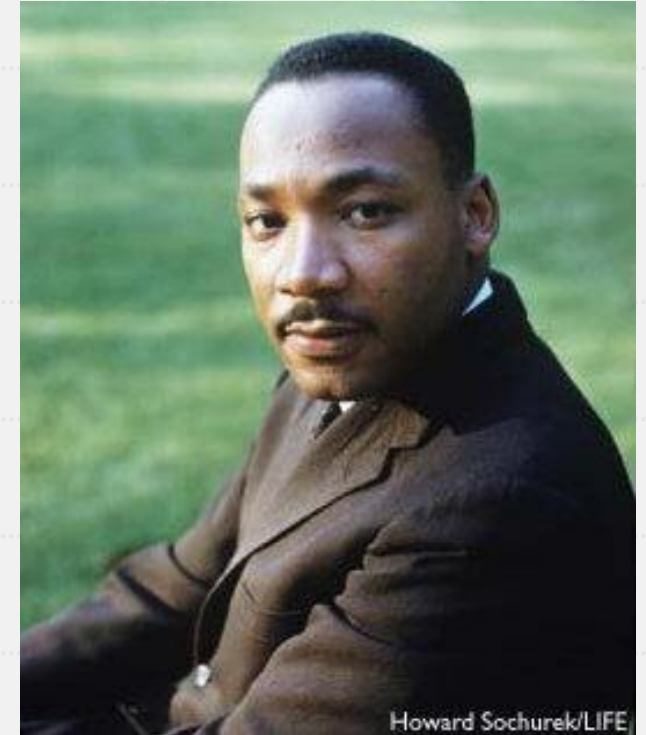

WHEN: Wednesday, May 4, 2022 - Friday, May 6, 2022

CONFERENCE: The joint UCC conference draws attendees from both states, and typically draws 200-250 attendees from various public and private utilities and service providers. Locating, construction, safety, and design companies will be present. We will have presentations on Protection of Utilities, Work Zone Safety, Design/Build, and Damage Prevention. Vendors will exhibit their products and services and a locator training class will be offered.

00:00:00.000 --> 00:00:02.570

Ann Rushing

Alright, can everyone see the screen?

00:00:04.750 --> 00:00:05.320

Calabrese, Joel Thomas

Yes.

00:00:06.020 --> 00:00:21.340

Ann Rushing

Perfect thank you. Alright, so welcome. I guess to our hybrid meeting today, but I think it's more of a virtual meeting with with Roger and I here at Piedmont Natural Gas. It's beautiful day.

00:00:21.390 --> 00:00:32.150

Ann Rushing

OK, so thanks for attending. Just want to remind you to please place your information in that area so that we can have a record of your attendance.

00:00:33.990 --> 00:00:34.930

Ann Rushing

See if I can.

00:00:36.030 --> 00:00:37.750

Ann Rushing

Get the advance or going.

00:00:40.450 --> 00:01:10.620

Ann Rushing

I think I can get it. There we go alright, so happy New year everyone here we are in January and we are almost to February. I don't know about you guys but we're doing a lot of planning. We've got a lot of new events that we're going to be participating in this year and just a lot of exciting things that are coming up. So once again, happy New Year and welcome to 2022. So we finished 2021 at 8 point.

00:01:10.670 --> 00:01:34.600

Ann Rushing

5% up compared to 2020, and so as we kind of get into the numbers, I'll talk a little bit more about you know how things are looking so far in January. Secondly, fasten your seatbelts because we expect the busy year as as Tami always likes to say. We don't have to tell you that you're busy. You already know.

00:01:35.350 --> 00:02:05.330

Ann Rushing

So for that we are gearing up with expected spring rush. We've got some new SSRS that are being trained right now and I would. I would ask if you know of anyone that is bilingual. We are certainly looking for some additional bilingual CSR's are Spanish volume has absolutely picked up over the last couple years and so we really want to make sure that we are ramped up to handle that that.

00:02:05.390 --> 00:02:27.580

Ann Rushing

Amount of volume. So once again please share the word and then the last bullet is to let you all know that I am your new NC 811 representative to the underground damage Prevention Review Board we had. We did have a meeting last week and I'll share a little bit more about that on into the presentation.

00:02:28.900 --> 00:02:59.450

Ann Rushing

Alright, so let's jump into the data as you see here, where we ended up for 2021. In December we had a total of 100 sixty 3104 tickets. That was a 4.27% increase compared to the 2020 year to date. 2,332,400 and 58 tickets. That is a 8.6% increase. You know we had a.

00:02:59.550 --> 00:03:23.030

Ann Rushing

Projected what we thought maybe 10% but we were right there on the cusp of that, so it was definitely a busy year. We ended up 1.4% above last year on transmissions and then for year to date we rounded that out at 6.3%. So almost 13 million transmissions. We were very very close.

00:03:24.210 --> 00:03:44.950

Ann Rushing

I'm sure if you would take a calculator and you'd multiply that transmission by just say \$20 and that's extremely low, you would see there is a lot of money that is being spent on transmission, so that's why we find it so important for you guys to manage your tickets, and that's going to be.

00:03:45.640 --> 00:03:53.400

Ann Rushing

You know at extremely high focus area this year is on project management and trying to make sure that those tickets are managed.

00:03:54.920 --> 00:03:58.220

Ann Rushing

Alright, so let's look at Mecklenburg forward December.

00:03:58.830 --> 00:04:16.140

Ann Rushing

Uh, we ended up with 24,570 tickets for the month compared to 26,000 the year before, and you see the the new work was actually down when you average it out. It's about 11170 locates per day.

00:04:16.820 --> 00:04:25.280

Ann Rushing

That's a lot of locates for all of those locators to handle. That's a lot of volume. You'll see the three hours up, so once those.

00:04:26.850 --> 00:04:41.080

Ann Rushing

You know, if they're not getting response, then we'll see the three hour tickets go up, and of course the update tickets. So once again it was nice to see some of the the new ticket volume coming down and our goal this year moving forward is to decrease that as well.

00:04:42.720 --> 00:04:46.270

Ann Rushing

Year to date wow, lots of tickets here.

00:04:46.920 --> 00:04:55.970

Ann Rushing

300 Fifty 6906 tickets compared to 340 four 1119 the year before.

00:04:56.020 --> 00:05:13.210

Ann Rushing

Or all together it was up 3.7% overall and then once again. Our goal is this year is to reduce those three hour and update tickets. Average locates per day, 1411 lots and lots of locates.

00:05:14.600 --> 00:05:37.430

Ann Rushing

So when we look at the distribution, as always, the majority of the work is in Charlotte. We do have projects going on over in Huntersville with a a great deal of tickets as well as Matthews, Mint Hill, Pineville, Davidson, and Cornelius OH. Lots of work continuing on and look forward to hearing your updates on some of your projects.

00:05:39.770 --> 00:06:10.490

Ann Rushing

Let's look at some of the events that are coming up. We have the next underground review board will be April 19th. Our goal is to steal, try and host that as a hybrid meeting at our Event Center in Greensboro. But just to kind of give you an update. I think there was around 16 cases that we did here other day and so the process is getting a little better. We've now working with a matrix to kind of.

00:06:10.540 --> 00:06:40.050

Ann Rushing

Review the cases in regards to circumstances, culpability, history, and then once we kind of determined, does that, or is that applicable? Then it helps us to determine the type of penalty that will be placed with that violation, so that process worked out well. Just want to encourage folks. If you are placing those complaints, please tell your story. I've said that multiple times this week.

00:06:40.610 --> 00:07:09.790

Ann Rushing

Provide good photos not only of the damage area but also of the area around it. You know we need more documentation to help us to make really good decisions, and then for those violators, tell your story as well. Respond back to the complaint so we encourage you all to, you know, provide as best information it does make it easier for the board to review those cases, so that was a little update there.

00:07:10.500 --> 00:07:32.480

Ann Rushing

The next meeting is March the 16th. We did also meet up last week and I think our you know our focus is going to be on project management will continue working with those reports for the update 6. You know, excessive updates. We encourage you to continue that.

00:07:33.370 --> 00:07:49.200

Ann Rushing

March owned with that issue there. That's not going to stop, so we know that. And then we just really want to focus on. You know, having more project management, more team meetings, you know, NC 811 is here to be a conduit for you.

00:07:50.420 --> 00:08:10.850

Ann Rushing

Are NC 811 board meeting? We did have our fourth quarter meeting last Friday that went well. Lots of updates from from the year and our next meeting will be April 22nd. Currently. Right now we're looking for that meeting to be hosted in Asheville and so we hope that you know, hopefully by then.

00:08:12.280 --> 00:08:29.590

Ann Rushing

You know the conditions for kovid for weather will all be ideal. So April 22nd put that on your calendar if you're interested in attendance, Stephanie will be your contact prior to the meetings she does send out a teams link if you want to join virtual.

00:08:30.890 --> 00:08:41.620

Ann Rushing

Alright, and so our state UCC meeting March the 8th will be our next one. We did host another one or a, uh, a January meeting couple weeks ago.

00:08:42.400 --> 00:09:13.540

Ann Rushing

Unfortunately, we weren't able to meet hybrid. We did meet virtually, gave lots of updates you know from around the state. So just want to encourage you to attend that and then just as a reminder, we do have a button out on our NCUCC website that's going to give you the information about the joint South Carolina North Carolina UCC conference currently. Right now, all we have is this information. They have not opened up the registration, but I would encourage you.

00:09:13.950 --> 00:09:44.630

Ann Rushing

Contact the hotel. Go ahead and get your reservation there at the Hyatt Regency, and I know that there will be golf on Wednesday so they do have rooms for Tuesday night and then the event will start Wednesday after the golf tournament and as you see here, I want to encourage the folks that needs some locator training that will be offered and that's always A plus at, you know, just a great cost. So at this time.

00:09:44.680 --> 00:10:08.850

Ann Rushing

I do not have an actual cost for the registration, but as always it is extremely low, so go ahead, get your reservations and we hope to see you in May. Parrish and I will be there and will be bringing our newest addition to our team and that will be our mini excavator fund dig trailer we have.

00:10:08.910 --> 00:10:09.300

Ann Rushing
Come.

00:10:10.300 --> 00:10:22.750

Ann Rushing
Had a company that's building the trailer for us and we will be using that for events and so we encourage you if you have something going on let us know. Will bring it out. It's a mini excavator on a trailer.

00:10:23.890 --> 00:10:48.990

Ann Rushing
There's a ball pit and the kids can get on it, you know, begin to to see what it's like to be in the construction field and you adults you can play on it too as well, so we're excited to have that new new team player within our group, so we should be very busy for 2022. Alright, so with that I'm going to turn it back over to Roger and let him roll with updates.

00:10:53.430 --> 00:10:54.300

Ann Rushing
Thank you Ann.

00:10:56.490 --> 00:10:59.930

Ann Rushing
Can we go back to the numbers for December?

00:11:00.530 --> 00:11:01.140

Ann Rushing
Please.

00:11:07.000 --> 00:11:07.930

Ann Rushing
There we go.

00:11:09.100 --> 00:11:11.860

Ann Rushing
Is animal saying you know these numbers are?

00:11:13.340 --> 00:11:25.980

Ann Rushing
Looking good, the three hour you know I always harp on that every month and I'm, I know everybody is tired of hearing it but just talking with one of our superintendents this morning.

00:11:26.630 --> 00:11:32.760

Ann Rushing
I, I think some of the contributing factors on these three hour tickets is that.

00:11:33.550 --> 00:11:51.990

Ann Rushing
The locates are not being done in a timely matter we had, or he had two that he was specifically telling

me about that was already a week and a half in was still a zero response from the biggest majority of the facility owners having it located.

00:11:53.340 --> 00:12:14.490

Ann Rushing

With that, you send a crew out, you know after you're 72 hours and they checked that positive response and there's no response, then you know our guys are doing 3 hour tickets and and I'm sure other contractors are. As long as the as far as the contractors for the facility owners also.

00:12:16.490 --> 00:12:21.970

Ann Rushing

And I'm sure the locating companies is just like everybody else is on here. You can't find any help.

00:12:23.340 --> 00:12:35.730

Ann Rushing

Uh, you know our company. We interviewed three people last week, offered them jobs, one showed up for the job, so you know, that is across the board.

00:12:37.300 --> 00:12:42.080

Ann Rushing

But if we could eliminate tickets that we don't need.

00:12:42.800 --> 00:12:49.940

Ann Rushing

You know, as far as the updates and everything, hopefully that could benefit the locators to get.

00:12:51.180 --> 00:12:54.420

Ann Rushing

These new tickets, located in a timely manner.

00:12:55.250 --> 00:12:59.020

Ann Rushing

I don't know. Also we run into an issue just this week.

00:13:01.660 --> 00:13:03.060

Ann Rushing

Locator meet us.

00:13:04.970 --> 00:13:07.180

Ann Rushing

Forward different utilities.

00:13:08.080 --> 00:13:10.670

Ann Rushing

Uh, I met with him Monday.

00:13:11.410 --> 00:13:23.260

Ann Rushing

And at first he was telling me that that it wasn't on his maps. He goes back and looks comes back with his head down and says actually they were on the maps. They come off of a poll.

00:13:24.080 --> 00:13:31.150

Ann Rushing

Uh, about a half a block down from from where we were working. I don't know if the maps are not.

00:13:34.860 --> 00:13:41.810

Ann Rushing

Being designated out on them properly, or if he just failed to see it.

00:13:43.190 --> 00:13:46.110

Ann Rushing

But I've spent the last two days out on a project.

00:13:46.870 --> 00:13:50.610

Ann Rushing

With the locators and the facility owners over what was hit.

00:13:52.860 --> 00:14:01.980

Ann Rushing

So for the facility owners, I would ask that you please make sure that your maps are updated and hopefully that they can see on.

00:14:03.050 --> 00:14:06.940

Ann Rushing

Uh, these locators can see. I'm on the maps when they're looking at it.

00:14:07.560 --> 00:14:11.290

Ann Rushing

I do have a question and it's may be directed to.

00:14:12.010 --> 00:14:19.480

Ann Rushing

811 but it may also be for facility owners, something I was thinking about coming here is like private line locators.

00:14:20.660 --> 00:14:27.770

Ann Rushing

If we call for a private locator to come out, do they? Or do they not have access to maps?

00:14:28.630 --> 00:14:29.210

Ann Rushing

They do not.

00:14:30.530 --> 00:14:33.940

Ann Rushing

My question on that is why?

00:14:34.580 --> 00:14:38.270

Ann Rushing

I I'm and that's something I guess we'll have to check into.

00:14:38.890 --> 00:14:43.980

Ann Rushing

Uh, because when I look at that as they're, they're trying to go off of.

00:14:44.640 --> 00:14:53.530

Ann Rushing

The locate marks aspire to make sure they're ride or or any indicator, but if they could get access to maps from facility owners.

00:14:57.150 --> 00:15:08.170

Ann Rushing

Wow, that's that's a question you know that I've not actually been asked, but let's let's kind of think through it. I mean, so the private line locators or coming out and they're using.

00:15:08.680 --> 00:15:25.750

Ann Rushing

Uhm, other resources to locate and so obviously you know them not being a locate company that works for that member. They're not going to have access to those maps because that is proprietary information, but.

00:15:27.590 --> 00:15:38.470

Ann Rushing

It's it seems like it's a logical thing, but unfortunately you know they're using other pieces of resources, other equipment.

00:15:39.240 --> 00:15:58.590

Ann Rushing

GPR's you know all sorts of stuff to locate those private lines. And of course, think about two those private lines. They they don't have tracer wire so you know obviously they're not mapped anyway. So yeah, I mean, obviously they're they're not mapped so they don't have access to maps.

00:15:59.700 --> 00:16:00.370

Ann Rushing

That kind of.

00:16:02.560 --> 00:16:16.210

Ann Rushing

Sounds like some futuristic thinking and could they get access, but then again all they're doing is locating private lines and they're they're not mapped anyway, so they're having to use their other resources to find it.

00:16:18.680 --> 00:16:20.650

Ann Rushing

Some of it too is our.

00:16:22.240 --> 00:16:24.670

Ann Rushing
Design tickets since.

00:16:25.710 --> 00:16:43.380

Ann Rushing
Uh Charlotte Water is going to design builds on a lot of their projects. Will do these tickets. Then we'll hire are soft dig company to come in to get shots on stuff that's been located. But then they'll also find things that weren't.

00:16:44.180 --> 00:16:47.080

Ann Rushing
Located that, would, you know, would be another reason.

00:16:47.670 --> 00:16:48.240

Ann Rushing
Uh.

00:16:50.750 --> 00:16:55.340

Ann Rushing
Wondering why or if they could get access to maps to be able to see?

00:16:56.900 --> 00:17:01.310

Ann Rushing
Just trying to, that's my low damage prevention part right there.

00:17:04.070 --> 00:17:09.070

Ann Rushing
But with that you know is always the numbers.

00:17:10.050 --> 00:17:14.570

Ann Rushing
We all know we're all busy. That's that's just part of it and.

00:17:15.850 --> 00:17:25.640

Ann Rushing
As long as we keep working together I I think we'll get a good resolution to everything. But that's that's the key part is working together.

00:17:26.580 --> 00:17:30.820

Ann Rushing
With that, does anybody have any questions on the numbers or anything?

00:17:38.060 --> 00:17:39.480

Ann Rushing
Give you the participant list.

00:17:41.290 --> 00:17:48.320

Teasley, Tristan

Do you think the this is Tristan? Do you think that the downturn in December was just because primarily the holidays?

00:17:49.180 --> 00:17:49.480

Ann Rushing

True.

00:17:49.530 --> 00:18:03.740

Ann Rushing

To be honest, that's what we are figuring home because with the the meeting last week that Ann was stolen by the Locate Resolution Partnership Committee, we were looking at some numbers and we were thinking man something is not right.

00:18:04.300 --> 00:18:11.790

Ann Rushing

Uh, due to due to the fact that the numbers that we were looking at was drastically lower.

00:18:12.670 --> 00:18:14.100

Ann Rushing

Then the previous meeting.

00:18:14.880 --> 00:18:27.300

Ann Rushing

And so we went back. Look, I say we 811 went back through looking at those reports again. And actually the numbers were right. And and that's what we're.

00:18:28.130 --> 00:18:48.980

Ann Rushing

Contribute and yes I and says that's a good thing that they were lower, but we do believe that that the contributing factor on that was being December getting close to Christmas. I know that our company closes the doors for two weeks in December for the Christmas break in the New Year's break.

00:18:49.740 --> 00:18:50.460

Ann Rushing

Uhm?

00:18:49.830 --> 00:18:56.770

Cort Bennett (Guest)

Look, look looking at the weather and the work days are only about 8 or 9 workdays really. In the month of December.

00:18:55.970 --> 00:18:56.320

Marc Worth (Services - 6)

Yep.

00:18:57.970 --> 00:19:02.140

Cort Bennett (Guest)

Maybe 11, but it it. That was probably the root cause.

00:18:59.570 --> 00:19:00.180

Marc Worth (Services - 6)

Yeah, the.

00:19:03.000 --> 00:19:12.720

Marc Worth (Services - 6)

This is Mark with Dominion Energy, and we saw at the number I had expected to see for December given December 2020. So it didn't surprise me.

00:19:14.010 --> 00:19:17.030

Ann Rushing

Mark, do Saiyans numbers were low also I'm sorry.

00:19:16.830 --> 00:19:21.690

Marc Worth (Services - 6)

Our numbers were down just like every December is down, so it.

00:19:22.340 --> 00:19:27.020

Marc Worth (Services - 6)

The numbers that we had in December did not surprise me. That's what I was expecting to see.

00:19:31.950 --> 00:19:38.890

Marc Worth (Services - 6)

So just normal, just that normal lower number in December and little bit and a little bit higher in January. That's just the way things rock.

00:19:39.320 --> 00:19:54.820

Ann Rushing

Yeah, I'm OK. So before I came this morning I pulled some numbers just kind of see where we were at and overall for the state up to through yesterday we had 100 thirty 7659 tickets.

00:19:55.740 --> 00:20:25.310

Ann Rushing

When we when I looked at the volume from 2021 for the entire month was 100 sixty 3565 and then the year before 170,000. So we'll kind of see where where we land, but Mecklenburg come already. We're already seeing 20,653 tickets here in Mecklenburg, so it's you know January is certainly extremely busy.

00:20:25.670 --> 00:20:34.420

Ann Rushing

And we still got, you know, a few more days to finalize this month. And of course it is a long month, so that's a good thing and.

00:20:35.900 --> 00:20:42.240

Ann Rushing

But certainly you know, once again we want to try to reduce those updates in three hours as much as possible.

00:20:49.520 --> 00:21:16.450

Ann Rushing

Hopefully though, there's just not a monthly trend there that we see. Hopefully everything will start going down, but again, everybody is busy and you know, being off and all of that coming back after a new year. It does take a little bit of time to get back in the swing of things, but I'm like animal saying I do believe these numbers are going to pick back up with everybody coming back into work.

00:21:17.050 --> 00:21:19.980

Ann Rushing

If the weather clear up almost, that'll make a difference.

00:21:20.180 --> 00:21:20.470

Ann Rushing

Move.

00:21:21.840 --> 00:21:26.990

Ann Rushing

So probably by April, March, April, I think we're gonna be running wide open.

00:21:27.730 --> 00:21:28.250

Ann Rushing

Uhm?

00:21:29.450 --> 00:21:32.350

Ann Rushing

Which is good for everybody, especially the economy.

00:21:34.640 --> 00:21:36.950

Ann Rushing

Anybody else having questions on that?

00:21:38.550 --> 00:21:38.970

Ann Rushing

Yeah.

00:21:41.110 --> 00:21:42.580

Ann Rushing

And what we can do is.

00:21:43.210 --> 00:21:50.630

Ann Rushing

Ann's got the list up of everybody that's on there and I'll just go down. And if you're with facility owner.

00:21:52.650 --> 00:22:04.790

Ann Rushing

Carl's funny you got your hand up because you just popped up as the number one guy anyway, so if they nobody told you that you number one man, especially on this list but go ahead Carl.

00:22:09.050 --> 00:22:10.640

Ann Rushing

You're on mute your own meat.

00:22:13.460 --> 00:22:20.290

Wilson, Carl

Alright thanks yeah, sometimes sometimes people signal me with the wrong number one finger if you know what I mean, but I'm.

00:22:20.900 --> 00:22:21.880

Wilson, Carl

But I'll leave that alone.

00:22:22.970 --> 00:22:26.660

Wilson, Carl

But I get that quite often but.

00:22:27.590 --> 00:22:55.350

Wilson, Carl

I do want to just toss one thing out. I mean you did bring up a a point there about, you know design, build projects. But I also wanna just mention that other city of Charlotte departments are starting to work with design, build progressive design, build works so their request may come in just just for the owners of utilities and locate companies that are on the on the call. The request may be a little different like Roger was saying.

00:22:56.700 --> 00:23:25.210

Wilson, Carl

Like General Services, I think they've they've or C dot one of them and twisted and you know or rat y'all can correct me from wrong. Whoever is on the call, but I think there's a, uh, some Rd projects that are being built, designed, build as well as our cystid apartment, the stormwater services they've got a few two that they're putting out so so just a heads up. Y'all may see some things different. Not sure how we're going to, you know. Address all of it but I just want to put it on folks radar.

00:23:26.990 --> 00:23:55.140

Ann Rushing

You're right on that too Carl. You know some of these design builds. The multi departments are coming together on one almost under one contract to eliminate a street bend torn up to three four different times because either you're laying a storm drain in and after that's completed you coming in and water and sewers going in. Then after that streetscapes is coming in.

00:23:55.670 --> 00:24:00.040

Ann Rushing

Uh, so I do feel that it is a good thing to.

00:24:01.360 --> 00:24:09.080

Ann Rushing

Charlottes departments are working together and trying to put everything under one umbrella and getting everything done at one time.

00:24:10.720 --> 00:24:13.580

Ann Rushing

Specially for taxpayers, and you know.

00:24:16.200 --> 00:24:17.430

Ann Rushing
But thank you with that.

00:24:18.770 --> 00:24:19.910

Ann Rushing
Next is.

00:24:20.930 --> 00:24:22.210

Ann Rushing
Marseille Lavery.

00:24:24.950 --> 00:24:25.380

Avery, Maricel
Murphy

00:24:26.390 --> 00:24:29.240

Avery, Maricel
oh, uh, did I have my hand up?

00:24:31.310 --> 00:24:47.840

Teasley, Tristan
No, no, he's just going through. So this is Tristan, some mayor mayor cell is our new one of our new project managers project engineers on our storm design team. So it's just kind of introduction to her. She can tell you a little bit, but we're just going through the list saying anybody has anything I believe, is that right, Roger?

00:24:33.500 --> 00:24:33.860

Avery, Maricel
Oh

00:24:34.420 --> 00:24:34.990

Ann Rushing
I can't.

00:24:40.620 --> 00:24:41.100

Ann Rushing
OK.

00:24:48.140 --> 00:24:58.850

Ann Rushing
Yeah, exactly Tristan, I just I see a list of names and I just always start at the top and go down and hopefully I don't miss anybody in at the end. If I do we always ask that.

00:25:00.310 --> 00:25:03.470

Ann Rushing
So this is your first meeting welcome.

00:25:04.120 --> 00:25:22.790

Ann Rushing

Uh, I hate 10 years, not more people here, especially for your first meeting, but this is a great committee. We all work together. We don't point fingers at anyone if there's an issue we try to work through it, whether it be during the meeting after the meeting.

00:25:23.130 --> 00:25:33.710

Ann Rushing

Uh, Maegan phone calls or whatever. So with this group we always try to work together to resolve any issues that we have. So again, welcome.

00:25:34.720 --> 00:25:35.320

Ann Rushing

Uhm?

00:25:35.880 --> 00:25:43.670

Avery, Maricel

yeah, thanks. Thanks for letting me join this meeting and why skins and everybody involved in 811 and how you guys work, so that's helpful.

00:25:45.610 --> 00:25:46.150

Ann Rushing

Thank you.

00:25:48.240 --> 00:25:49.220

Ann Rushing

Bobby Turner

00:25:49.800 --> 00:25:51.290

Ann Rushing

you're next on the list.

00:25:52.550 --> 00:25:56.040

Bobby Turner

Well, good day Roger and I'm I'm all good.

00:25:56.840 --> 00:25:57.280

Bobby Turner

Thank you.

00:26:00.010 --> 00:26:00.520

Ann Rushing

Right?

00:26:01.980 --> 00:26:06.520

Ann Rushing

Man, we got something in this kitchen making some weird noises. I don't know if y'all hear it or not so.

00:26:08.440 --> 00:26:11.400

Ann Rushing

Bill gives me the thumbs up that were OK, so.

00:26:13.160 --> 00:26:17.170

Ann Rushing

But both pre she ate that buddy? How about it? Joel what you got?

00:26:20.270 --> 00:26:32.630

Calabrese, Joel Thomas

Well, I have in Jim. You can correct me if I'm wrong on these numbers, but I show there was some damages and December. No surprise there is. Every month there's some damages.

00:26:33.670 --> 00:26:37.550

Calabrese, Joel Thomas

I show 81 damages were done in in the Mecklenburg County.

00:26:38.300 --> 00:26:40.490

Calabrese, Joel Thomas

Uh, and uh?

00:26:42.000 --> 00:26:44.730

Calabrese, Joel Thomas

74 of those were attributed to contractors.

00:26:45.550 --> 00:26:46.940

Calabrese, Joel Thomas

And of that.

00:26:49.220 --> 00:27:00.290

Calabrese, Joel Thomas

Nine of them were due to no notification and 13 were locator errors, so there were two state reportable damages as well.

00:27:01.000 --> 00:27:03.980

Calabrese, Joel Thomas

Just so the ground that off a little bit.

00:27:04.740 --> 00:27:07.730

Calabrese, Joel Thomas

So that's that's what I have to report for Mecklenburg County.

00:27:09.010 --> 00:27:14.740

Ann Rushing

Which is funny. You mentioned Jim Joel because Jim's the next one on the list, so he can.

00:27:15.750 --> 00:27:20.880

Ann Rushing

I had told her whatever on that one. So Jim, you wanna chime in.

00:27:21.680 --> 00:27:41.450

Collins, Jim

Sure, yeah, I'll come. Just add a little bit to what Joe had mentioned. We're talking about ticket volume. I was dropped a little bit in December. Not a whole lot in November we had twenty 3844 tickets and in December we had 22,024 tickets about 1800 ticket drop in December, so not too bad.

00:27:42.020 --> 00:27:46.240

Collins, Jim

Uhm or damages were down from November to December, so that was good.

00:27:47.820 --> 00:27:48.680

Collins, Jim

That's all I really have.

00:27:50.520 --> 00:27:51.580

Ann Rushing

Thank you all for that.

00:27:51.890 --> 00:27:52.210

Collins, Jim

Yep.

00:27:53.660 --> 00:27:54.170

Ann Rushing

Court.

00:27:56.650 --> 00:28:02.440

Cort Bennett (Guest)

Yep, everything right here, Roger, without ES is good and like I said, we're just busy. Busy and.

00:28:03.270 --> 00:28:04.110

Cort Bennett (Guest)

Everything is good.

00:28:04.950 --> 00:28:05.840

Ann Rushing

Alright, thank you.

00:28:05.440 --> 00:28:05.820

Cort Bennett (Guest)

Thank you.

00:28:09.470 --> 00:28:17.960

Ann Rushing

Hey court, do you want to maybe elaborate on your location here in Charlotte? Is it up and running yet?

00:28:18.390 --> 00:28:20.830

Cort Bennett (Guest)

You know it's been up and running since April May.

00:28:18.620 --> 00:28:19.480

Ann Rushing
Or at two years?

00:28:21.130 --> 00:28:28.760

Ann Rushing
OK alright I just wanna make sure everybody was aware that that ITS does have a location here in Charlotte.

00:28:21.450 --> 00:28:22.460

Cort Bennett (Guest)
Like last year.

00:28:29.460 --> 00:28:51.330

Cort Bennett (Guest)
We do, and we've been. We've been doing work in Charlotte since April May and I think we probably run around three 400 tickets a month as all were have averaging so the locate volumes. Not that heavy, smaller operation, but I think the guys are doing real good job managing the tickets. I haven't heard any complaints, but any feedback? I'd love to receive it.

00:28:52.020 --> 00:28:57.370

Cort Bennett (Guest)
If we're in, you know, do anything that we could improve or help with, but everything's cool well.

00:28:58.260 --> 00:28:59.500

Cort Bennett (Guest)
Thank you, Mr Roger.

00:29:00.370 --> 00:29:01.180

Ann Rushing
Thank you court.

00:29:02.120 --> 00:29:03.140

Ann Rushing
David Smith

00:29:05.840 --> 00:29:08.310

David Smith
I don't have anything today, everything is good.

00:29:09.140 --> 00:29:11.540

Ann Rushing
good man, that's always good to hear.

00:29:12.780 --> 00:29:13.810

Ann Rushing
David talbert.

00:29:17.580 --> 00:29:22.770

David Talbert

Hey man, what's going on? Sorry, cutting here late, but I gotta call every Wednesday at 10:00 o'clock.

00:29:25.060 --> 00:29:27.410

David Talbert

Oh man, oh.

00:29:28.070 --> 00:29:36.910

David Talbert

No sorta get here late. Oh also, I'm really working up on myself is what we call Project Atlas own little thing by on here knows.

00:29:37.550 --> 00:29:40.870

David Talbert

Anything about Project Atlas is with the NCDOT.

00:29:41.970 --> 00:29:46.850

David Talbert

And I am task with a basically getting.

00:29:47.710 --> 00:29:51.530

David Talbert

Records so they can lay in a overlay in certain corridors.

00:29:52.600 --> 00:29:58.970

David Talbert

Throughout the state, and one of those here in Mecklenburg is the I-77 corridor.

00:30:00.280 --> 00:30:10.660

David Talbert

And what they do is they take environmental historical. They just start putting all these layers in. So just to kind of give you an update of it too.

00:30:12.460 --> 00:30:22.330

David Talbert

It's in more of their planning stage. I mean, let's just take a a post office. They know post office is out there and then that's a long time to get right away. Or if they know.

00:30:23.060 --> 00:30:23.380

David Talbert

Or

00:30:24.020 --> 00:30:51.750

David Talbert

course I know everybody on here is in utilities. I came from 20 years or utilities and he's like no, they did not avoid meeting. Went straight to me, but that's what they're trying to aim to go to is trying to avoid utilities in the longevity of the project and keep the price down not only for the NCDOT, but 40 utility themselves. That's nutshell and that's what I got going on. And that is throughout the whole state so.

00:30:52.970 --> 00:30:53.620

David Talbert
Little busy.

00:30:56.030 --> 00:30:57.190

Ann Rushing
Alright, thank you David.

00:30:57.460 --> 00:30:58.530

David Talbert
Yes Sir, thank you.

00:30:59.100 --> 00:31:05.650

Ann Rushing
Carl, is that what she was referencing? I I caught your little note when it came up on top of the screen there.

00:31:07.000 --> 00:31:18.950

Wilson, Carl
I think it it was well they I forgot to to mention and I I can't I I'm I myself was going in and out with and so I didn't know she had mentioned that NCDOT was.

00:31:19.560 --> 00:31:36.230

Wilson, Carl
Gonna issue there first update to the utility coordination for a corridor manual that they just published last year. They're going to issue that this coming on, you know, sometime here in the first quarter, but so I think I think that's right. Along the same lines.

00:31:38.880 --> 00:31:43.550

Ann Rushing
OK, thank you. Yeah she's sitting there saying no. She didn't mention that and we appreciate that.

00:31:44.680 --> 00:31:46.530

Ann Rushing
Uh, letisha.

00:31:53.660 --> 00:31:54.590

Harvey, Letitia
Hi everyone.

00:31:57.110 --> 00:32:01.090

Harvey, Letitia
I don't have anything for right now. I share horror, has everything for today.

00:32:05.010 --> 00:32:09.200

Ann Rushing
OK, sorry Latisha I couldn't hear you us feedback on that, but thank you.

00:32:10.420 --> 00:32:15.240

Ann Rushing

We'll come back to bread. I say he had to get up for a phone call. Sure, Hera.

00:32:17.750 --> 00:32:19.090

Ann Rushing

Or by Charlotte Water.

00:32:23.530 --> 00:32:24.170

Lee, Shuhurah

There's always.

00:32:24.750 --> 00:32:27.320

Lee, Shuhurah

OK, good morning. How you doing today?

00:32:25.490 --> 00:32:26.110

Ann Rushing

Now young.

00:32:27.830 --> 00:32:29.090

Ann Rushing

Good how you doing?

00:32:29.590 --> 00:32:36.300

Lee, Shuhurah

I'm doing 50, so we're reporting on damages and everything in anything I need to talk about.

00:32:32.820 --> 00:32:33.080

Ann Rushing

Here.

00:32:37.570 --> 00:32:42.840

Ann Rushing

And you tell us, this is your you. You own the front. Now you got the floor.

00:32:43.570 --> 00:32:51.980

Lee, Shuhurah

Yes, well I want to first welcome Leticia. She's here with me. She is our new admin. Well, she's been since November.

00:32:52.310 --> 00:33:10.610

Lee, Shuhurah

Uhm, uhm, with our department locate department. So she assists us with logging our damages and things like that. So this is her first meeting. I just want her to come and see what's going on and learn a little bit more about damages.

00:33:10.960 --> 00:33:15.710

Lee, Shuhurah

Uhm in and uh 811 how you all everyone works together.

00:33:17.320 --> 00:33:22.270

Lee, Shuhurah

We are actually in the process of hiring a couple more locators right now, UM.

00:33:23.350 --> 00:33:53.420

Lee, Shuhurah

Also, I just want to go over damages real quick, but before that I did want to touch on the same thing you said earlier. We may have more 3 hour locate tickets because we've been having a problem with getting our tickets located right now so we have been calling in those three hours. But we have also once we call it three hour and waited a couple days we will. We have had a good relationship with Daniel Robinett with Dom USIC.

00:33:49.390 --> 00:33:49.710

Ann Rushing

Yeah.

00:33:53.720 --> 00:34:04.030

Lee, Shuhurah

So that's been a plus that we're able to get in contact with him, but we have seen the, UM, we've had seen an issue with not getting some tickets located lately.

00:34:04.700 --> 00:34:08.830

Lee, Shuhurah

Uh, we are damages for the month we had.

00:34:09.760 --> 00:34:16.860

Lee, Shuhurah

12 in in my area I don't know if Tracy's on here or not. Yeah, in my area we had 12.

00:34:18.020 --> 00:34:27.060

Lee, Shuhurah

Water service is damaged. One was abandoned line 4 water mains, 8 sewer laterals, one sewer main.

00:34:27.120 --> 00:34:29.490

Lee, Shuhurah

I mean 1 meter box was.

00:34:30.560 --> 00:34:58.730

Lee, Shuhurah

Run over and I think we're seeing an uptick in that from some of our large meters and small meters when people are driving off the road and want to park, that's something we'll probably ask you all to just kind of be conscious of that, because sometimes it's just the meter box itself, but sometimes the pressure of those heavy tires, or those boring machines can actually cause damage. The meter box and also cause leaks there.

00:34:59.680 --> 00:35:00.160

Lee, Shuhurah
Come.

00:35:00.920 --> 00:35:02.010

Lee, Shuhurah
On our end.

00:35:02.690 --> 00:35:12.720

Lee, Shuhurah
We hit 2 Duke Energy lines. They were not marked properly. UM, a Duke Energy street light. One gas line, but it was not. The marks were off.

00:35:13.830 --> 00:35:24.190

Lee, Shuhurah
2-3 AT&T lines. Two were Miss Mart, 2 Spectrum Lines, one was miss Marc, One Windstream, and one was not known.

00:35:25.420 --> 00:35:33.010

Lee, Shuhurah
We are still seeing at times that the name of the company is not being put on the ground.

00:35:34.030 --> 00:35:39.370

Lee, Shuhurah
And that does really, really help us because sometimes you know it's a black line.

00:35:40.200 --> 00:35:42.460

Lee, Shuhurah
You know, and it it's a little harder.

00:35:43.510 --> 00:36:04.990

Lee, Shuhurah
For people to identify those, sometimes you know it may be after hours or something like that. We're not able to go by there, so it's it's going to be hard and specially say like if it's a orange conduit. A lot of people are using orange conduit, so if it's no eight and T or Time Warner, anything like that on the line, it does make it harder for us to identify it. Unless somebody has an outage.

00:36:06.100 --> 00:36:08.290

Lee, Shuhurah
But that's all I have for today. Thank you.

00:36:09.280 --> 00:36:10.290

Ann Rushing
No, thank you.

00:36:09.770 --> 00:36:23.840

Teasley, Tristan
I I got a I got a quick question for sure here you know you were mentioning the damages and on what type of facility you mentioned. Sanitary sewer laterals services those do not get marked though correct?

00:36:26.640 --> 00:36:51.030

Lee, Shuhurah

If it is a four sewer main force, like a low pressure sewer, lateral UM and if it's a newer lateral but some of these actually have cleanouts, they've had visible cleanouts. One I went to the other day, it was a manhole in the street in front of it, and I popped the lid and.

00:36:39.200 --> 00:36:39.530

Teasley, Tristan

No.

00:36:43.650 --> 00:36:43.990

Teasley, Tristan

Yep.

00:36:51.150 --> 00:37:11.610

Lee, Shuhurah

Uh, laterals coming straight into to the manhole so some of them we don't. I would say we don't mark them the same way we Marc quarter. They may just put a green dot on the manhole but they're not may not necessarily marked them out the same way they Marc quarter, because of course most of them don't have tracing wires unless they were just.

00:37:01.100 --> 00:37:01.440

Teasley, Tristan

OK.

00:37:11.230 --> 00:37:11.450

Teasley, Tristan

No.

00:37:12.710 --> 00:37:15.050

Lee, Shuhurah

Installed in the last four 5-6 years.

00:37:15.620 --> 00:37:16.480

Teasley, Tristan

OK, thank you.

00:37:16.930 --> 00:37:17.260

Lee, Shuhurah

Uh-huh

00:37:18.740 --> 00:37:27.660

Ann Rushing

Thank you Brad. I'm going to roll back to you. I know Chad to get up and take a phone call skipped over you, but I want to go back to you. Have anything from C dot?

00:37:28.480 --> 00:37:30.430

Kilgo, Bret

As far as just locate tickets and stuff.

00:37:30.960 --> 00:37:35.910

Ann Rushing

Any any new projects, anything you won't bring up going on with C Dot it's fine.

00:37:33.620 --> 00:37:33.890

Kilgo, Bret

Uh.

00:37:35.460 --> 00:37:43.020

Kilgo, Bret

I can tell you about a whole bunch of new projects. Come I'll give you some. I'll give you 2 major ones coming to the Uptown area, so.

00:37:44.300 --> 00:37:58.260

Kilgo, Bret

The library redevelopment project, which is basically trying to college between 6th and 8th St. Both of those blocks will be redeveloped here, probably starting.

00:37:58.990 --> 00:38:07.700

Kilgo, Bret

Within the next two months, would demo of the library. We've got 330 story buildings going in commercial.

00:38:08.420 --> 00:38:10.300

Kilgo, Bret

Mixed use hotel.

00:38:11.420 --> 00:38:15.760

Kilgo, Bret

7th St between college and try and will probably be closed for.

00:38:16.560 --> 00:38:18.990

Kilgo, Bret

I few years during this development.

00:38:19.910 --> 00:38:23.380

Kilgo, Bret

And then the other huge development we got in the Uptown area.

00:38:24.060 --> 00:38:46.500

Kilgo, Bret

They, midnight diner, Uptown cabaret, Tryon St Connector or college trial St Connector. That street is going away. That whole development there. That whole block is getting redeveloped and then directly across the street or across South Tryon St where the Enterprise building our rental car company is that whole partial. There is getting redeveloped with.

00:38:47.200 --> 00:38:51.660

Kilgo, Bret

The 30 plus story, hotel and commercial and mixed use.

00:38:52.380 --> 00:38:56.850

Kilgo, Bret

Uhm, development, so we've got and then Southland. If you've been in South then there's.

00:38:57.600 --> 00:39:01.420

Kilgo, Bret

Probably four or five new developments down in the South in the area, so it's just.

00:39:02.460 --> 00:39:03.930

Kilgo, Bret

As you know, it's busy.

00:39:04.180 --> 00:39:18.610

Kilgo, Bret

Uhm, we've got some big utility duct banks going in for Duke Energy in the future and Uptown on. They don't have some major impacts to some of the road as well, so there's a lot going on. But that's all I have as far as projects.

00:39:20.240 --> 00:39:21.120

Ann Rushing

Questions for him.

00:39:22.300 --> 00:39:26.060

Ann Rushing

Yeah, sounds like you might be just a little bit busy in the near future.

00:39:26.580 --> 00:39:27.060

Ann Rushing

Uh.

00:39:26.940 --> 00:39:27.990

Kilgo, Bret

Just just a little.

00:39:28.190 --> 00:39:29.020

Ann Rushing

Just a little.

00:39:29.620 --> 00:39:29.940

Kilgo, Bret

Yeah.

00:39:30.640 --> 00:39:38.100

Ann Rushing

I tell you what, though, they're they're putting apartments, condos, hotels on any corner that they can put him on.

00:39:38.660 --> 00:39:39.370

Kilgo, Bret
Yes they are.

00:39:38.910 --> 00:39:39.410

Ann Rushing
Uh.

00:39:42.450 --> 00:39:44.620

Ann Rushing
Moving on down ronya.

00:39:45.770 --> 00:39:47.130

Ann Rushing
You got anything to add?

00:40:00.330 --> 00:40:03.490

Ann Rushing
Ronya you Ralph mute, but we're not hearing anything.

00:40:12.520 --> 00:40:14.330

Ann Rushing
Will circle back to you.

00:40:14.380 --> 00:40:14.750

Ann Rushing
Do you?

00:40:18.030 --> 00:40:19.590

Ann Rushing
Or you can just chime in.

00:40:21.240 --> 00:40:24.200

Ann Rushing
Tristan, now back down to you. You got anything else?

00:40:25.780 --> 00:40:28.170

Teasley, Tristan
No, I'm think I'm pretty good for right now.

00:40:35.190 --> 00:40:35.640

Ann Rushing
Sorry.

00:40:37.590 --> 00:40:43.640

Ann Rushing
And just took the list. Now we're back at it. William Dickson, you got anything?

00:40:45.520 --> 00:40:45.860

Ann Rushing
Look

00:40:45.610 --> 00:40:46.960

William Dixon
all good Roger pressure.

00:40:47.730 --> 00:40:48.720

Ann Rushing
alright, thank you.

00:40:50.540 --> 00:40:54.130

Ann Rushing
Carl let circled back around to you. You have anything else?

00:40:58.560 --> 00:41:00.290

Wilson, Carl
Roger, nothing I could think of.

00:41:03.790 --> 00:41:04.320

Ann Rushing
OK.

00:41:04.440 --> 00:41:04.860

Wilson, Carl
Now.

00:41:06.200 --> 00:41:12.130

Ann Rushing
Anything from the board side? I didn't ask you that earlier, and I apologize for that. I'm I'm sorry.

00:41:12.370 --> 00:41:20.920

Wilson, Carl
No, you're good, you're good and that the one about the utility coordinates shouldn't. Coordinating well corridor manual. I don't know why I have a hard time saying that.

00:41:23.020 --> 00:41:28.850

Wilson, Carl
It's, uh, that was from the board up. Byron mentioned that last week.

00:41:29.480 --> 00:41:37.440

Wilson, Carl
And then he did. He did say one more thing that I thought was interesting, but maybe folks already know all about this he mentioned about.

00:41:37.490 --> 00:41:37.980

Wilson, Carl
Uhm?

00:41:39.330 --> 00:41:52.780

Wilson, Carl

Integrated project delivery methods that NCDOT is going to start looking at doing that I don't know what that means. He didn't really describe it and maybe you caught more than I did, but I.

00:41:53.540 --> 00:41:55.110

Wilson, Carl

I I that's all I.

00:41:55.760 --> 00:41:59.380

Wilson, Carl

I got with that one. Maybe folks on the call already know about all that stuff.

00:42:01.320 --> 00:42:05.610

Ann Rushing

K Thank you again ronya yeah I got you now.

00:42:03.430 --> 00:42:04.100

Nabors, Ronya K

Logical.

00:42:04.440 --> 00:42:04.890

Nabors, Ronya K

Yeah.

00:42:06.130 --> 00:42:11.800

Nabors, Ronya K

Alright, I thought I had changed it from my headphones 'cause I could hear you all.

00:42:12.610 --> 00:42:15.560

Nabors, Ronya K

But I guess I had needed to go and put it on Mike too.

00:42:16.980 --> 00:42:21.130

Nabors, Ronya K

Anyway, I don't have anything, just wanted to say good morning everyone and.

00:42:22.260 --> 00:42:23.060

Nabors, Ronya K

Happy New year.

00:42:24.170 --> 00:42:25.020

Ann Rushing

Same to you.

00:42:26.630 --> 00:42:32.210

Ann Rushing

You haven't. I and I should have asked you this too, but you have anything from the state level UCC.

00:42:35.070 --> 00:42:36.780

Nabors, Ronya K
Not really, just uh.

00:42:37.930 --> 00:42:41.610

Nabors, Ronya K
The hotel is filling up so like Ann said earlier.

00:42:42.420 --> 00:42:49.850

Nabors, Ronya K
And the registration isn't there yet, but it's it's coming pretty pretty soon. It should be in their mid February.

00:42:50.710 --> 00:42:53.960

Nabors, Ronya K
But if you can go ahead and reserve your room.

00:42:57.370 --> 00:42:58.300

Ann Rushing
OK, thank you.

00:42:59.430 --> 00:43:00.850

Ann Rushing
Tami, I see the chirp.

00:43:01.770 --> 00:43:02.600

Ann Rushing
Own here.

00:43:04.850 --> 00:43:07.020

Ann Rushing
Oh, never mind, she's not. I was corrected.

00:43:08.600 --> 00:43:12.220

Ann Rushing
Parrish, I'm sorry you're here. You have anything.

00:43:13.590 --> 00:43:23.870

Parrish Reddick
Now just happy to be part of the meeting. Be at gatekeeper and welcome to the new participants. Hopefully it'll we'll see you in the future and this thing will continue to grow.

00:43:24.570 --> 00:43:24.950

Parrish Reddick
Thank you.

00:43:25.810 --> 00:43:35.980

Ann Rushing

No, thank you and we appreciate you helping out with this meeting. For those that don't know, Parrish is out of the Raleigh Durham area or what are y'all? Triad area.

00:43:37.390 --> 00:43:40.060

Ann Rushing

That is one good thing y'all know me I hate.

00:43:40.810 --> 00:43:45.260

Ann Rushing

Zoom meetings, team meetings and all that. I'd rather they'll be in person, but.

00:43:46.200 --> 00:44:00.420

Ann Rushing

With these, it's giving us the liaisons from other areas. The capabilities of being on our meetings and and to share information from other parts of the state also. So we do appreciate that.

00:44:01.380 --> 00:44:03.470

Ann Rushing

Did I forget anybody?

00:44:05.300 --> 00:44:08.610

Ann Rushing

Order them by have anything else to add.

00:44:14.840 --> 00:44:18.600

Ann Rushing

You know, I'm gonna say this is almost like a wedding speak now forever hold your peace.

00:44:18.660 --> 00:44:19.100

Ann Rushing

Nice.

00:44:19.790 --> 00:44:20.210

Ann Rushing

Ah.

00:44:22.050 --> 00:44:25.590

Ann Rushing

With that, I think our next meeting is here.

00:44:26.890 --> 00:44:30.160

Ann Rushing

I I got mine but now that don't mean nothing.

00:44:31.590 --> 00:44:32.340

Ann Rushing

Uh.

00:44:34.370 --> 00:44:36.330

Ann Rushing

If anybody gets it before I do.

00:44:38.130 --> 00:44:40.420

Ann Rushing

February 23rd

00:44:43.930 --> 00:44:49.300

Ann Rushing

and I think Tami said that it was here again. If I'm not mistaken.

00:44:50.060 --> 00:44:56.690

Ann Rushing

Uh, 10 AM. The invite obviously will go out as usual a week or two before.

00:44:58.030 --> 00:45:00.850

Ann Rushing

With that, if nobody else has anything.

00:45:01.900 --> 00:45:24.340

Ann Rushing

Mandan had a great big old room to ourself along with Bill, but we appreciate y'all being on here. Virtual stay safe out there. I would say stay busy but good Lord, we all know we're all busy on that right now.

And at anytime if y'all need anything from me, just reach out to me. I'll help you as much as possible.

00:45:25.050 --> 00:45:36.300

Ann Rushing

But other Nat thank you all again for being here and had good rest of the day and the rest of this month.

And oh, by the way, something I heard yesterday that a lot of people find.

00:45:37.200 --> 00:45:43.520

Ann Rushing

Exciting, I find depressing is yesterday I heard on radio so 11 months from Christmas again.

00:45:44.670 --> 00:45:47.840

Ann Rushing

So you got something to look forward to in 11 months.

00:45:47.960 --> 00:45:51.450

Ann Rushing

So other than that y'all have a good day and thank you all.

00:45:52.420 --> 00:45:56.250

Teasley, Tristan

Thanks, love Roger y'all have a good one. Bye bye everyone.

00:45:53.050 --> 00:45:54.550

Lee, Shuhurah

Thank you bye bye.

00:45:54.010 --> 00:45:54.580

Avery, Maricel

Thank you.
