

Virtual UCC Meetings

1. Follow these video instructions to find your virtual meeting link and how to make the most of the meeting in the new MICROSOFT TEAMS platform.
<https://www.youtube.com/watch?v=GC5zGkdxqb0>
2. In the chat section please type your name, company name & email.
3. Participant feature - raise hand. The meeting facilitator will acknowledge you.
4. Enter the meeting with your microphone on mute and unmute your mic when you need to speak.
5. Every meeting will be recorded, and the video will be posted on the ncucc.org website. You can watch the meeting by using the video link provided on ncucc.org. Visit your county UCC page for a listing of past meeting videos.

2022

— HAPPY NEW YEAR —

January 2022

UNION UCC

- Welcome to 2022! We finished 2021 about 8.5% up over 2020...
- Fasten your seatbelts because we expect a busy time
- We are gearing up for the expected spring rush with new CSRs being trained
- Welcome your new NC 811 representative to the Underground Damage Prevention Review Board:
Ann Rushing

A person wearing a blue suit jacket and a light blue shirt is holding a white rectangular sign. The sign contains text in dark blue font. The background of the slide is a light gray grid pattern.

JOINT SC/NC UTILITY COORDINATING COMMITTEE CONFERENCE 2022

LOCATION: Hyatt Regency, 220 North Main St, Greenville, SC

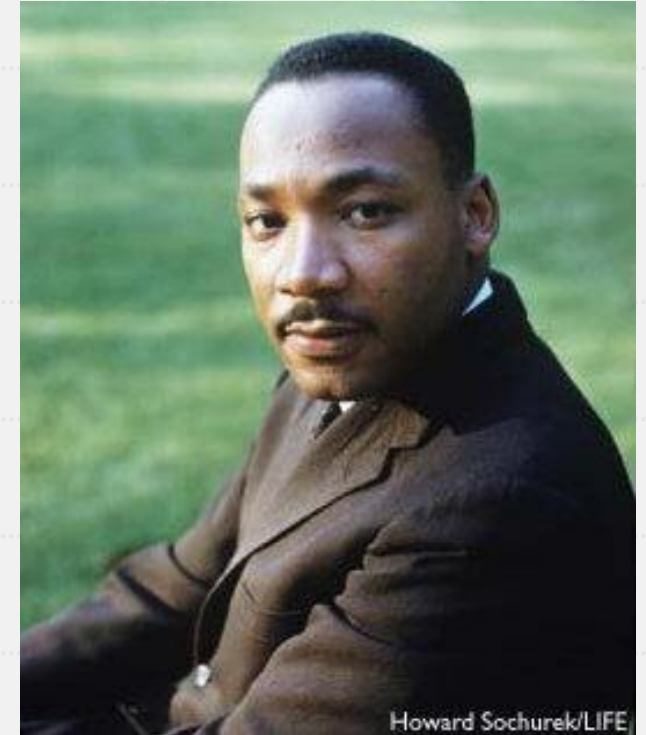

WHEN: Wednesday, May 4, 2022 - Friday, May 6, 2022

CONFERENCE: The joint UCC conference draws attendees from both states, and typically draws 200-250 attendees from various public and private utilities and service providers. Locating, construction, safety, and design companies will be present. We will have presentations on Protection of Utilities, Work Zone Safety, Design/Build, and Damage Prevention. Vendors will exhibit their products and services and a locator training class will be offered.

00:00:00.000 --> 00:00:01.180

Flowers, Michelle
For meeting minutes.

00:00:01.200 --> 00:00:04.890

Tami Stout
Yeah heck yeah. Thank you for the reminder. I appreciate that.

00:00:05.360 --> 00:00:06.120

Flowers, Michelle
Yes, ma'am.

00:00:05.760 --> 00:00:16.850

Tami Stout
How are are being recorded? You can hit that little dismiss and that'll just take that little blurb off your screen new year, not new me. No, I appreciate that.

00:00:19.710 --> 00:00:30.370

Tami Stout
Ticket data this is just for the month of December. New tickets for Union County 27.

00:00:31.650 --> 00:00:34.140

Tami Stout
Yeah, I'm having a problem today.

00:00:34.750 --> 00:00:43.290

Tami Stout
2797 that's a 4% increase over 2020.

00:00:44.110 --> 00:01:14.460

Tami Stout
A total tickets for Union County for the month of December, 4800, and 83823 1/2 percent increase and a good chunk of those were coming from updates updates. Total tickets include retransmits and updates, so updates were up 66.3%. Average locates per day for Union County or 230.

00:01:14.580 --> 00:01:28.790

Tami Stout
Three and I accidentally deleted the slide off. That tells us, but I believe Union County had about 66,000 locate requests for 2021.

00:01:30.840 --> 00:01:32.250

Tami Stout
Ticket distribution.

00:01:33.710 --> 00:02:03.670

Tami Stout
This just kind of gives you an idea of where those tickets are spread out over the county and believe it or not, Waxhaw and Indian Trail or doing their best to catch up to Monroe. Monroe's in there was 16129

Indian Trail, 956 Waxhaw 1026. But you can see Marshville, Wingate, Weddington, Wesley Chapel, Stallings, all of those folks truly that work really is spread out.

00:02:03.970 --> 00:02:17.150

Tami Stout

Over the kaliny I took a number of tickets out anything under 10 and pull those off the screen, but that that work truly is spread out over Union County.

00:02:18.760 --> 00:02:46.450

Tami Stout

Calendar of events. The North Carolina 811 fourth Quarter Board meeting will be a hybrid meeting Friday, January 21st, 8:30 to 10:30. Please contact Tonya at our office for any information. If you don't get her information and decide that you would like to attend, please let me know and I'll gladly get you in touch with her. But it's tonya@nc811.org

00:02:48.110 --> 00:03:07.670

Tami Stout

the next underground damage Prevention Review Board meeting is Tuesday, January the 18th. They will be having a hybrid meeting that will begin at 10:00 AM. Go out to the underground damage Prevention Review Board site. They are listed on your page. [UDPR b.nc.gov](http://UDPR.b.nc.gov).

00:03:09.470 --> 00:03:14.020

Tami Stout

The next state UCC meeting. This is the change.

00:03:15.120 --> 00:03:47.330

Tami Stout

This had been scheduled as a hybrid meeting. It has gone back to a full teams meeting, so if you were planning to go to Greensboro next Tuesday, please make sure that you update your calendar and you don't drive up to Greensboro. This is a full teams meeting. I know it and event reminder went out yesterday and there will be another one that will go out tomorrow with a copy of the agenda. But again, I can't stress that enough.

00:03:47.380 --> 00:03:51.950

Tami Stout

Make sure that you are not driving to Greensboro. This will be a teams meeting.

00:03:53.050 --> 00:04:23.780

Tami Stout

And that's next Tuesday the 11th at 10:00 AM. The next locate Resolution Partnership Committee meeting February the 16th. Again, a teams meeting from 11:00 to 1:00. If you go out to our calendar page. North Carolina, NCucc.org, there will be a link there. If you also check on our event page, there's a link there and you can access those from either the website or from your app.

00:04:25.180 --> 00:04:38.270

Tami Stout

The North and South Carolina joint UCC conference so typically North Carolina and South Carolina get together and have a joint UCC conference every year.

00:04:39.980 --> 00:04:44.900

Tami Stout

Obviously, because of COVID, we've not been able to do that for the last couple years.

00:04:45.820 --> 00:05:16.190

Tami Stout

It looks like they are still planning to do this in person this year, and that will be at the Hyatt Regency in Greenville, SC and that will be Wednesday, may the 4th through Friday, may the 6th, that joint UCC conference gets folks from both States and usually there's anywhere from 200 to 250 attendees that come from various public and private utilities service providers.

00:05:16.990 --> 00:05:47.490

Tami Stout

Locating construction, safety and design companies or present and there will be presentation on protection of utilities, work zone, safety, design, build and damage prevention. And then there are vendors. Vendors will come and it exhibit their products and services and there will be a locator training class offered. So if you want to go out and register for that we will have a link on the UCC website. There will probably also be one on the.

00:05:47.540 --> 00:05:55.190

Tami Stout

North Carolina 811 website, but again, that joint UCC conference will be in Greenville, SC this year.

00:05:57.430 --> 00:06:26.660

Tami Stout

Upcoming holidays just as a reminder, Martin Luther King Junior birthday is Monday January 17th now for North Carolina 811. This is an observed holiday. We are open to accept locate, request but an observed holiday is excluded from that three day working notice. Just, you know, keep that information in mind. Just like a a regular holiday and weekends of.

00:06:27.430 --> 00:06:28.380

Tami Stout

Excluded.

00:06:29.520 --> 00:06:46.660

Tami Stout

For information or North Carolina 811 in UCC events, visit the calendar section of nc811.org or the NC 811 app. Your education team. I'm not going to go through everybody you've seen us one or 10,000 times here recently.

00:06:47.910 --> 00:07:17.380

Tami Stout

That's our our team. Bunch of good folks there and appreciate your time and attention. There will be a PDF copy of this presentation at ncucc.org and a video copy of this presentation on the UCC website. It's usually up within just a couple of weeks. With that I am going to stop presenting and turn this back over to our esteemed leader, Mr.

00:07:17.430 --> 00:07:20.060

Tami Stout

Marshel herring with Piedmont Natural Gas.

00:07:22.630 --> 00:07:23.310

Herring, Marshel B

Thank you, Tami.

00:07:23.800 --> 00:07:25.740

Tami Stout

No thank you Sir, I appreciate it.

00:07:26.510 --> 00:07:27.250

Herring, Marshel B

Oh no problem.

00:07:27.610 --> 00:07:34.790

Herring, Marshel B

Uhm, if everybody would put your information in the chat section makes Louise over Tami and everything like yet on roster.

00:07:36.110 --> 00:07:40.660

Herring, Marshel B

Uhm, bike, any projects coming up that we need to know about?

00:07:43.470 --> 00:08:09.200

Tami Stout

Hey I will throw out there Marshel thank you for saying that. I know that the city had let us know about several projects that were coming in and we're in the process of putting in some some water lines, some infrastructure out there for subdivisions and they were nice enough to share that information with us.

00:08:09.810 --> 00:08:24.280

Tami Stout

I've reached out to the builders and the developers over the holiday and just reminded them that we were here as a resource and that you know I'd be glad to to get them any information or any kind of.

00:08:25.710 --> 00:08:40.060

Tami Stout

Color code cards, excavation guides, anything that they might need out to them, but I appreciate them sharing that information 'cause that's that's a lot of construction that's coming up in the in the next several years.

00:08:43.490 --> 00:08:49.190

Herring, Marshel B

Yeah, I know we've got a we're gonna be decommission at 2 lines and adding a new line in there to replace him.

00:08:50.080 --> 00:08:54.630

Herring, Marshel B

Yeah, that's gonna be starting in the spring time like it. So we got a little bit of time there, but.

00:08:55.990 --> 00:08:57.730

Herring, Marshel B

That's gonna be going up through.

00:08:59.720 --> 00:09:02.080

Herring, Marshel B

Union Ville area and stuff like that so.

00:09:05.040 --> 00:09:08.220

Herring, Marshel B

The biggest thing we got going on besides all the services we're putting in.

00:09:10.670 --> 00:09:21.000

Tami Stout

I know Josh is companies going to be hitting Union County hard and heavy very very soon. We're actually going to meet up.

00:09:22.260 --> 00:09:47.160

Tami Stout

Next week or the week after get together and actually do kind of a little meet and greet. I appreciate TDs being so you know, so forward thinking and and prepared to get everybody together and say, hey, this is who we are and this is what we're we're going to be doing. So TDS Telecom is coming. Josh, you wanna throw in a little blurb about what you got coming up?

00:09:47.840 --> 00:09:55.500

Worrell, Josh

Yeah thanks Tami. So Yep, I'll be in town next week with a group of our network services team. We plan on meeting with you guys. The city of Monroe.

00:09:56.020 --> 00:10:25.980

Worrell, Josh

Uh Indian trail Waxhaw. I believe we're still trying to get ahold of Stallings, but we'll do a little about hour long meeting with each of those communities and answer any questions they may have, and then we'll come. I think right now I'm targeting the week of March 1st to come back out with a team for kickoff meetings with each of the communities and dive deeper into working towards construction start, probably or doing the kickoffs in March, probably.

00:10:26.020 --> 00:10:26.650

Worrell, Josh

April or May.

00:10:26.700 --> 00:10:49.630

Worrell, Josh

Hey, by the time that the contractors mobilized, but yeah, we're we're excited. This added territory

program has been the the growth engine of our of our company and we've been looking for opportunities in and around Charlotte to expand ever since. Acquiring continuum up in Morrisville a couple years ago. So it should. It should be fun and we look forward to working with everyone.

00:10:54.830 --> 00:10:56.240

Worrell, Josh

Anybody have any questions that?

00:10:57.070 --> 00:10:57.730

Worrell, Josh

I can answer.

00:10:59.770 --> 00:11:06.360

Flowers, Michelle

So are you a dedicated damage prevention liaison? Josh is. Is that kind of what it what is your role?

00:11:06.860 --> 00:11:36.880

Worrell, Josh

Yeah, so my title is manager of business development, but I'm kind of a liaison for municipal leaders, so once leadership, our leadership determines what communities are going to qualify for out of territory program I make contact or reach out to those municipal leaders. City administrator, city managers introduce them to TDs, our history, what we're planning for, their community, the impacts, good and bad. And then I work as a feedback loop for the city throughout the build process so.

00:11:37.200 --> 00:11:53.400

Worrell, Josh

If they need to get in touch with someone at TDs or not true, they need to talk to they can go through me or if they have an escalation issue that they need to bring up, they can. They can go through me and then I'm the guy. They they drag in front of City Council when when someone needs to be yelled at.

00:11:54.300 --> 00:12:23.760

Flowers, Michelle

I gotcha, yeah. Well, you know, it's always impressive when you have a an excavator in a UCC meeting where they know statistics and data about their particular company. With installation and construction of their utility. So that's why I thought I would ask because there's some companies are bringing on dedicated damage prevention specialist. You know, I've seen it mainly in our gas industry, but I'm I'm seeing that trickle into fiber companies and power companies and utilities across the board.

00:12:24.140 --> 00:12:26.080

Flowers, Michelle

So I just thought I'd ask the question.

00:12:26.480 --> 00:12:42.670

Worrell, Josh

Yeah, so what's interesting about my role is obviously morphed over the last five years since we've been doing this since 2017 and I've had to become fairly knowledgeable about our construction process to be able to defend TDs and defend our contractors. But the way we.

00:12:43.430 --> 00:12:46.850

Worrell, Josh

These projects are full turnkey.

00:12:46.900 --> 00:13:17.470

Worrell, Josh

Be what we call turnkey so we rely on our contractors for all engineering and all construction and they essentially turnover addresses TDs. Now we are involved heavily in that process looking at their engineering spec to make sure it's exactly the network we want to be built and giving them feedback. But they're essentially building this, turning it back over to us and we are operating it and we use a interesting what we call CPS, a model, but it's cost per service address and our contractors.

00:13:17.540 --> 00:13:26.920

Worrell, Josh

Actually don't get paid until they turn addresses over to us as serviceable and so they take a lot of upfront risk which we view as a way to.

00:13:27.610 --> 00:13:38.840

Worrell, Josh

Make sure they have quality construction, right? Because they're they're holding a lot of cost, but they don't get paid till they turn over their addresses and everything is restored and so we don't have.

00:13:38.890 --> 00:13:50.710

Worrell, Josh

Of I'd say we've we've gotten better contractors or contractors, and you'll have Subs that are good and Subs that are bad and they kick him off jobs. It just it just varies. And it usually comes down to the local management team.

00:13:52.280 --> 00:14:21.020

Worrell, Josh

But it's I I when I first started these pitches, I used to come into communities and tell them, you know how great competition and choices and how fiber is going to future proof their community and that would be the end of the the pitch. And now there's a second part to that, where, how, how complex, building these networks aren't, how disruptive it is to communities, and the utility strikes and residents don't distinguish between us digging in a public utility easement or street right of way. They don't distinguish that between their yard.

00:14:21.070 --> 00:14:26.220

Worrell, Josh

Right, all they see is that we're we're in their yard and they want to know. So we have a fairly robust.

00:14:27.450 --> 00:14:46.480

Worrell, Josh

Communication process that we're sending out to residents prior to construction in their neighborhoods, and we kind of work synchronously. Neighborhood by neighborhood and turn up portions of the community as we go so that the whole community is not impacted at at one time. So you'll see pockets of upset people kind as we're working our way through.

00:14:48.050 --> 00:14:53.900

Worrell, Josh

So yeah, I mean it's it's a very complex business. It's been interesting to see the program develop over the last five years.

00:14:55.150 --> 00:15:25.140

Flowers, Michelle

Well, the only thing that I could add to what seems to be a pretty good processes that maybe your contractors could go through the free pipes, plus training that NC 811 offers there. So that's the only thing that I can think of that that may assist with making your program better. I know that that train I went through it myself just to see what it was like and and I even learn something and I've been in construction for 20 years so that was that was interesting to.

00:15:25.340 --> 00:15:28.960

Flowers, Michelle

To pick up that one tidbit. But sometimes that's the one thing you need.

00:15:30.130 --> 00:15:44.660

Worrell, Josh

Yep, that's that is good. These these contractors have fairly robust safety program, so the the contractors that will be building in Union County is going to be a quanta telecom and Youngs. So I'm not sure if you know either of them, but they're fairly large.

00:15:45.800 --> 00:15:53.650

Worrell, Josh

Construction companies. They do all kinds of different info. Well, they pretty much quantum pretty much does every type of infrastructure that you would put under the ground.

00:15:54.240 --> 00:15:58.690

Worrell, Josh

Uhm, power water, fiber or they do it all.

00:15:59.950 --> 00:16:01.040

Flowers, Michelle

Well, that's pretty awesome.

00:16:01.800 --> 00:16:04.640

Flowers, Michelle

Tami, I stole your plug there on your pipes plus training.

00:16:06.210 --> 00:16:24.400

Tami Stout

I'm glad you did throat throw it out there. I I did the plug for the the app which by the way is a free download for Apple and Android users 'cause I know everybody wants one more Apple in their phone and Josh Josh if this is too personal don't answer. Are you married?

00:16:19.800 --> 00:16:20.620

Flowers, Michelle

That's right.

00:16:24.980 --> 00:16:25.520

Worrell, Josh

I am.

00:16:25.810 --> 00:16:30.880

Tami Stout

Well, I figured when you said that you got up in front of City Council, let them yell at you. You must be married.

00:16:33.760 --> 00:16:39.870

Worrell, Josh

Yeah, sometimes you have to put on a bulletproof vest and you know go take your licks every once in a while we.

00:16:39.240 --> 00:16:40.120

Tami Stout

Understand.

00:16:40.540 --> 00:16:46.900

Worrell, Josh

We've gotten better you the first. Well, I had a community really upset at us. It was one of the first ones we did and.

00:16:47.670 --> 00:16:56.200

Worrell, Josh

Usually we try to follow the existing infrastructure of our community meeting. If your telecommunications have pedestals in your backyard, we would try to follow the same.

00:16:57.100 --> 00:17:27.450

Worrell, Josh

Path and place a a pedestal, and in this particular community they had prescriptive rights, so the the plats, the way they were written, they named the utility provider, so it just wasn't open to utility providers. So we we didn't have access back there, and then we went through a whole program of trying to obtain easements, but that that doesn't work. If you have 12 homes under oh, guaranteed one of them in between or not, giving you an easement, and then you can't utilize it, and so because of that we had to utilize the street right of way. So we're essentially in people.

00:17:27.600 --> 00:17:28.110

Worrell, Josh

Front yards

00:17:28.700 --> 00:17:48.100

Worrell, Josh

and we just started putting pedestals on peoples front yards right because that's the access points we

use. Well, you can imagine like someone not having a small pet in their front yard today and then tomorrow they they do. We had like a mini revolt in that in that community and so I had to go in front of Council and.

00:17:48.740 --> 00:18:09.490

Worrell, Josh

Apologize and and figure out a solution so we end up switching the whole program. We use hand holes when we're digging in peoples front yards now so they're flush mount. You can mow over in their green and less you walk upright on him. You won't even know they're there, so we've gotten pretty good reaction from that from communities, but the first few that we started putting pedestals and it was it was kind of a wild ride.

00:18:13.530 --> 00:18:16.590

Tami Stout

Yeah, that's a beat down of epic proportion, I'm sure.

00:18:18.180 --> 00:18:30.500

Tami Stout

Thank you Sir. Appreciate it. Thanks for the the update and and I look forward to seeing you next week and getting together with some of these folks doing a little meet and greet.

00:18:31.880 --> 00:18:33.210

Worrell, Josh

I look forward to it. Thank you.

00:18:33.500 --> 00:18:34.100

Tami Stout

Yes, Sir.

00:18:37.310 --> 00:18:39.470

Herring, Marshel B

Alright, anybody else got anything going on?

00:18:42.880 --> 00:18:51.430

Tami Stout

Musmus idiom. Monroe peeps. I know sometimes they have problems with the the microphone. Anything you guys want to share?

00:18:59.900 --> 00:19:02.680

Tami Stout

Alright, Mr Marshel they they may be typing.

00:19:04.030 --> 00:19:04.700

Herring, Marshel B

Alright.

00:19:05.550 --> 00:19:09.010

Herring, Marshel B

Well, I don't have anything else to do this month here, but, uh.

00:19:10.170 --> 00:19:12.930

Herring, Marshel B

And our next meeting will be, let's see.

00:19:14.970 --> 00:19:16.060

Herring, Marshel B

The owner pulled up here.

00:19:17.100 --> 00:19:24.650

Tami Stout

Anybody have any damages to report? Although I know that will be the second marshel February the 2nd.

00:19:25.160 --> 00:19:25.570

Herring, Marshel B

OK.

00:19:26.340 --> 00:19:29.670

Tami Stout

Any damages you guys want to throw out there?

00:19:31.600 --> 00:19:37.690

Herring, Marshel B

I'm not sure right now. I'm waiting on her email back about their damages and when I get it, I'll send it to you and Mary there.

00:19:38.070 --> 00:19:38.850

Tami Stout

Thank you Sir.

00:19:39.690 --> 00:19:47.570

Tami Stout

Yeah, I really do appreciate it for a a meeting that would kinda came together at the last minute. I really do appreciate you being here.

00:19:49.320 --> 00:19:52.460

Tami Stout

It's it's a great way to start off the new year.

00:19:52.510 --> 00:20:02.180

Tami Stout

Here you know, I'm glad to see smiling faces and say you know what we made it through 2021. Let's get through 2022.

00:20:04.830 --> 00:20:06.110

Herring, Marshel B

I agree with you on that.

00:20:07.350 --> 00:20:30.310

Tami Stout

And if you have any, if anybody has any murkome n ditions, please send them to me about where we could get together for breakfast. Josh at I think we talked about it that we used to do breakfasts until COVID shut us down and I know several people have been. Like I said earlier, cut loose to be able to get back in person so.

00:20:30.370 --> 00:20:53.790

Tami Stout

So if we can find a place that'll that'll hold everybody, typically you had anywhere between 20 and 40 people show up, and that was a that was great to get everybody out to get together and and and just kind of share information. But if we as soon as we can find some place to to accommodate us, we'll try to get back in person.

00:20:58.210 --> 00:20:58.770

Worrell, Josh

Good deal.

00:21:00.760 --> 00:21:02.650

Tami Stout

I'ma leave it at that Marshel issuers.

00:21:03.120 --> 00:21:07.350

Herring, Marshel B

All right, nobody else is get anything will meet again on February 2nd and.

00:21:07.970 --> 00:21:13.350

Herring, Marshel B

Hopefully find a place we can do this and meet again there and see each other face to face.

00:21:15.050 --> 00:21:17.580

Herring, Marshel B

Yeah, let me go in in the meeting there.

00:21:18.590 --> 00:21:21.000

Tami Stout

Thanks everybody or really appreciate y'all.

00:21:21.880 --> 00:21:23.750

Herring, Marshel B

Everything looks like be safe out there.

00:21:21.920 --> 00:21:22.580

Flowers, Michelle

Thank you.

00:21:23.930 --> 00:21:24.520

Nick (Monroe Fire Dept.) (Guest)

Have a good one.

00:21:25.280 --> 00:21:26.530

Herring, Marshel B

You have a good one safe.

00:21:25.430 --> 00:21:25.840

Worrell, Josh

Thank you.
