

Virtual UCC Meetings

- Follow these video instructions to find your virtual meeting link and how to make the most of the meeting in the new MICROSOFT TEAMS platform.
<https://www.youtube.com/watch?v=GC5zGkdxqb0>
- In the chat section please type your name, company name & email.
- Participant feature – raise hand. The meeting facilitator will acknowledge you.
- Enter the meeting with your microphone on mute and unmute your mic when you need to speak.
- Every meeting will be recorded, and the video will be posted on the ncucc.org website. You can watch the meeting by using the video link provided on ncucc.org. Visit your county UCC page for a listing of past meeting videos.

SAFETY MOMENT

Share your safety stories from the past month with the committee. Could be from a damage that occurred or just a near miss.

March 2022

Cabarrus

Rowan

Stanly

UCC

- Excavation safety conference first week of March, Phoenix, AZ
- CGA conference first week of April, Anaheim, CA
- Remember: 811 is meant for work that will begin after the three full business day window!
- Updates are only to be used for work exceeding the 15 working days.
- Know the extent of each project BEFORE notifying to make sure you aren't requesting more scope than is necessary!

A person wearing a blue suit jacket and a light blue shirt is holding a white rectangular sign. The sign contains text in black font. The background is a plain, light color.

Workers' Day

JOINT SC/NC UTILITY COORDINATING COMMITTEE CONFERENCE 2022

LOCATION: Hyatt Regency, 220 North Main St, Greenville, SC

WHEN: Wednesday, May 4, 2022 – Friday, May 6, 2022

COST: \$125 **Locator Training:** FREE

CONFERENCE: The joint UCC conference draws attendees from both states, and typically draws 200-250 attendees from various public and private utilities and service providers. Locating, construction, safety, and design companies will be present. We will have presentations on Protection of Utilities, Work Zone Safety, Design/Build, and Damage Prevention. Vendors will exhibit their products and services and a locator training class will be offered.

00:00:00.000 --> 00:00:02.310

Leo Brooks (Gas Distribution - 5P)

We're having here. I think we've done pretty good with our.

00:00:03.040 --> 00:00:04.180

Leo Brooks (Gas Distribution - 5P)

Virtual meetings.

00:00:05.580 --> 00:00:08.280

Leo Brooks (Gas Distribution - 5P)

But we'll we'll be able to start back up.

00:00:09.590 --> 00:00:14.430

Leo Brooks (Gas Distribution - 5P)

And and Tammy, you could check the date, but if I'm not mistaken, that would be April 14th.

00:00:15.350 --> 00:00:25.990

Leo Brooks (Gas Distribution - 5P)

Uh, March, April so April 14th at 10:00 AM and you know, hopefully you can send that out to everybody.

So we will go ahead and do that here at our office.

00:00:15.560 --> 00:00:16.040

Tami Groves

Yes, Sir.

00:00:26.700 --> 00:00:35.010

Leo Brooks (Gas Distribution - 5P)

I'm not sure if we've got anybody from Piedmont known. I've not been able to get in contact with anybody, so I was hoping on this meeting, maybe Yum.

00:00:35.740 --> 00:00:59.020

Leo Brooks (Gas Distribution - 5P)

Marshel might be owned, but if he's not on here then I'll try to get ahold of somebody so we could probably go back to two, alternating between here and Salisbury at the Piedmont Natural Gas Office. If they're not opening back up, then we'll just post it here and until they're ready to do that so well.

00:00:58.290 --> 00:01:00.590

Tami Groves

Marshel and I were in contact yesterday.

00:01:00.810 --> 00:01:03.560

Leo Brooks (Gas Distribution - 5P)

OK. All right. Are they back on the table, the meeting?

00:01:03.290 --> 00:01:04.900

Tami Groves

He's he's going to find out.

00:01:05.210 --> 00:01:08.840

Leo Brooks (Gas Distribution - 5P)

OK. Yeah. Uh, I was kind of surprised we.

00:01:10.610 --> 00:01:31.620

Leo Brooks (Gas Distribution - 5P)

You know all the restrictions we've had, it just kind of dropped off all the sudden. They let us know and they were pretty much following along with with what the the government said. So we actually stopped wearing masks and we we had a meeting yesterday morning where we had the Vice president of our company come up nicely. First meeting we've had and.

00:01:32.300 --> 00:01:35.280

Leo Brooks (Gas Distribution - 5P)

Probably close to two years. So we're all in there.

00:01:36.130 --> 00:01:44.910

Leo Brooks (Gas Distribution - 5P)

It covers not over. We were spreading it around pretty good, so we were all close together. We had biscuits and everything. So we will go ahead and plan on doing that for next month.

00:01:46.880 --> 00:01:47.490

Leo Brooks (Gas Distribution - 5P)

So.

00:01:48.540 --> 00:01:59.440

Leo Brooks (Gas Distribution - 5P)

Did you start? You started recording him? Yeah. OK, yeah. Alright. So at this time we will go ahead and turn it over to you so you can do your presentation.

00:01:50.580 --> 00:01:52.060

Tami Groves

I started uh recording. Yes, Sir.

00:01:58.380 --> 00:01:58.710

Tami Groves

OK.

00:01:59.930 --> 00:02:04.980

Tami Groves

Alright, I appreciate it. Appreciate everybody being here and everybody trying to be here.

00:02:06.730 --> 00:02:12.650

Tami Groves

Technology is wonderful when it works side. I don't know what the the issue is this morning.

00:02:13.180 --> 00:02:13.810

Tami Groves

Uhm.

00:02:14.820 --> 00:02:36.400

Tami Groves

I'm not gonna go through all the virtual UCC stuff. If you're here. You've already figured that out. What I will ask is that if you don't mind, please type your name. The company that you're with and any contact information that you would like to share in the little chat box, it looks like a little cartoon.

00:02:36.450 --> 00:02:48.240

Tami Groves

Uh, a bubble up there. That way we can use this as a roster and then if anyone needs to get in touch with you, they can reach out to you directly.

00:02:49.040 --> 00:02:56.290

Tami Groves

I'm gonna stop for just a moment and see if anyone has a safety share they would like to bring up.

00:03:01.520 --> 00:03:18.600

Tami Groves

If no one has anything they want to throw right out, I'm just gonna remind you. You know, if you are on the road to police, please pay attention to your surroundings yesterday with the the rain out there.

00:03:18.650 --> 00:03:49.350

Tami Groves

Or some people were making some unsafe movements. Thank you, Jimmy. I see that. Good morning, Diana. People were making unsafe movements following too closely. Just, you know, not being aware of their surroundings. I know there's Smith driving school and I I was really excited to be able to participate in that 'cause. Yes, I am that nerd. And I I learned a few things and then I learned that.

00:03:49.400 --> 00:03:58.770

Tami Groves

I was actually doing a few things right that I didn't even know I was doing right, so just just please pay attention to your surroundings.

00:04:02.740 --> 00:04:07.700

Tami Groves

It is March, you y'all we already 10 days into March.

00:04:07.750 --> 00:04:19.060

Tami Groves

Works every time you turn around it. It's it's April. It's all just. It's September or so, you know, enjoy the ride. And did you have something you wanted to share?

00:04:19.960 --> 00:04:21.200

Tami Groves

OK, just making sure.

00:04:20.190 --> 00:04:20.510

Ann Rushing

Net.

00:04:21.630 --> 00:04:22.150

Ann Rushing
Do you get?

00:04:21.980 --> 00:04:36.890

Tami Groves

A message from Louis Panzer, our 811 executive director. He and Brian Morehouse and and participated in the excavation safety conference the first week of March. They were out in Phoenix.

00:04:37.460 --> 00:04:44.310

Tami Groves

Uhm, I will skip past that for right now and ask you if you wanna share anything just shortly.

00:04:45.610 --> 00:05:14.870

Tami Groves

SGA conference is the first week of April in Anaheim, CA. SGA is the common ground alliance, a reminder that 811 is meant for work that begins after that three full day business window. So if you're calling, make sure that you wait those three full business days, give your utility company time to get marks on the ground so you can work safely.

00:05:16.020 --> 00:05:46.100

Tami Groves

Updates are used for work that is continuing past 15 working days, so you know we've been talking about this with the LRPC, the Locate Resolution Partnership Committee over the last couple years. But you know you don't want to update work where the the works been completed or you haven't even started the work you're waiting on material. You know if that if that material is 3 months from being here, you don't want to.

00:05:46.150 --> 00:06:17.860

Tami Groves

Update those tickets. Those updates cost your utility companies money, and in the end, as end consumers, they end up calling, costing all of us money and know the extent of the project before you call 811 to make sure that you aren't requesting more scope than is necessary. I know a lot of times folks like to use Google Earth. They go out and they say OK, this is the area. This is probably where we're going to be. And let me just request this entire property.

00:06:18.370 --> 00:06:28.300

Tami Groves

When in fact they may only need a small section of that property. Again, you know you're you're tying up the utility locator.

00:06:29.030 --> 00:06:46.300

Tami Groves

For an hours worth of work when it could be done in 15 or 20 minutes and they could be onto a project, the next project which could be your project instead, they're out there marking property that isn't even going to be excavated.

00:06:46.980 --> 00:06:52.140

Tami Groves

So please know the scope of that work before you request that locate.

00:06:54.840 --> 00:07:01.500

Tami Groves

Data and highlights, locate requests and transmissions. Tickets for the month of February.

00:07:02.820 --> 00:07:08.660

Tami Groves

And again, this is one of those things that I'm surprised every time but increases, but it happens.

00:07:09.940 --> 00:07:24.680

Tami Groves

New tickets for the month of February. I'm sorry. Tickets for the month of February 100 and 84,426, a nine and a half percent increase.

00:07:25.830 --> 00:07:41.550

Tami Groves

Transmissions for the month of February 1,000,000 fourteen, 1343 a 5.6% increase in transmissions and for those of you that may be new to the call.

00:07:42.730 --> 00:07:47.980

Tami Groves

A ticket or locate request is what you're entering or what you're calling in.

00:07:48.760 --> 00:08:19.230

Tami Groves

I'm putting in a fence at 123 Main St A transmission is how many utilities are notified about everyone locate request that comes in. For example, in the area where I'm putting this fence, there might be water, sewer, gas, fiber and electric. So those five utilities would be notified about that one ticket. That's the difference between the two year to date, January and February locate.

00:08:19.520 --> 00:08:37.830

Tami Groves

Quests 353 thousand I'm sorry I got a little block covering up here. I'm sorry. 300. Fifty 8344. That's an 8% increase year to date and transmissions were up at 1.9.

00:08:39.190 --> 00:08:44.510

Tami Groves

Four point 7% increase in transmissions year to date as well.

00:08:45.300 --> 00:08:53.150

Tami Groves

Ticket volume for Cabarrus County. New tickets for the month 3456.

00:08:53.740 --> 00:09:14.470

Tami Groves

A 44.2% increase in new tickets. Total tickets were up as well, 17 1/2% total tickets were at 4964. Total tickets include retransmits and updates.

00:09:15.950 --> 00:09:28.830

Tami Groves

For Rowan County, new tickets were up 6% at 1291. Total tickets were up 2.6% at 1800 and 45.

00:09:30.450 --> 00:09:41.860

Tami Groves

And for Stanley County, for the month of February, new tickets were up five point 3% at 618. Total tickets were up.

00:09:42.460 --> 00:09:46.790

Tami Groves

Six point 1% at 1065.

00:09:48.260 --> 00:10:03.920

Tami Groves

Let's talk about year to date for Cabarrus County year to date, new tickets are up. 37.4% total tickets are up just over 18% for Cabarrus County.

00:10:06.290 --> 00:10:10.690

Tami Groves

For Rowan, new tickets are up two point 3%.

00:10:11.330 --> 00:10:21.480

Tami Groves

At 28. Excuse me 2484 and total tickets are up 8.3% thirty 610.

00:10:23.140 --> 00:10:30.830

Tami Groves

And last but not least, Stanley County, new tickets were up 6.6 percent 12149.

00:10:31.570 --> 00:10:51.580

Tami Groves

Total tickets up 17 percent 2224, and I think that Miss Rushing can probably attest that a large part of that is going to be road construction. I know there's a lot of road work going on out in Stanley County.

00:10:53.270 --> 00:11:00.920

Tami Groves

You can see that in those update tickets, just under 48% at 47.4%.

00:11:03.640 --> 00:11:33.800

Tami Groves

Ticket distribution for Cabarrus County. Of those 4700 tickets. Plus I'm sure that no one surprised to hear that a chunk of that is going to be in Concord itself 3127 and then Harrisburg and Kannapolis was 622 and 721 respectively. I did leave in Cox Mill flow store, Georgesville and even North Concord.

00:11:34.460 --> 00:11:36.940

Tami Groves

You can see those folks had one each.

00:11:38.130 --> 00:11:51.960

Tami Groves

For Rowan County, the big guys were Salisbury, miss. Miss Vicki got him busy up that way. 861 of those 1700 plus China Grove and Kannapolis.

00:11:52.700 --> 00:11:55.600

Tami Groves

All the way down to Pittsburgh and Yadkin.

00:11:56.600 --> 00:12:07.190

Tami Groves

And for Stanley County, again of those 1100 plus Albemarle 561 Locust, Norwood, Oakboro and Stanfield.

00:12:07.980 --> 00:12:14.180

Tami Groves

That's where the big chunks Aqua Dale, big lick, Masenheimer Red Cross with two.

00:12:17.150 --> 00:12:18.800

Tami Groves

Calendar of events.

00:12:19.620 --> 00:12:49.870

Tami Groves

Folks, I am so glad to see the ladies in here that are in here. It is women in construction week or WIC week, March 6th through the 12th. The focus of WIC week is to highlight women as a very important part of the construction industry. It provides an opportunity for Wiccan NAWIC thousands of members across the country to raise awareness of the opportunities available.

00:12:50.310 --> 00:13:06.580

Tami Groves

For women in the construction industry and to emphasize how important that growing role is. So I I think I told you last month, but the national NAWIC conference was held in Concord last year.

00:13:07.670 --> 00:13:37.290

Tami Groves

There were women from Guam, from the Hawaii, California, Texas, New Hampshire, all over the United States in Concord last year to meet for the National conference. There's ladies that are involved in the chapter that I'm in in Charlotte, that our project manager, Electrical inspectors, CEO CFO's, you know.

00:13:37.340 --> 00:13:57.950

Tami Groves

Women are all over the construction industry and a an important part of that. So ladies, this week we

celebrate you, and if you're not involved in NAWIC, I would encourage you to be involved. Guys, you can have the other 51 weeks a year. This one week is for the ladies.

00:14:00.190 --> 00:14:01.880

Tami Groves

April is national.

00:14:00.890 --> 00:14:02.330

Vickie Eddleman, City of Salisbury, NC (Guest)

Hey, can I interrupt 2nd?

00:14:03.030 --> 00:14:04.510

Tami Groves

Yes, ma'am. Please.

00:14:05.030 --> 00:14:14.280

Vickie Eddleman, City of Salisbury, NC (Guest)

If you want to add the city of Salisbury, did a uh women in construction social media plug to you? But if you wanna see something that's a little bit funny.

00:14:14.950 --> 00:14:25.140

Vickie Eddleman, City of Salisbury, NC (Guest)

Uh, my family has a farm that they're doing a page 4 on Facebook called feed them cows again, feed them cows.

00:14:25.990 --> 00:14:31.270

Vickie Eddleman, City of Salisbury, NC (Guest)

Go look on it because it's got a women in construction post from the heifers.

00:14:32.130 --> 00:14:36.650

Tami Groves

Oh, awesome. Thanks, Vicki. Appreciate that. That's cool.

00:14:37.600 --> 00:14:38.910

Tami Groves

I'll go check that one out.

00:14:40.490 --> 00:15:01.760

Tami Groves

April is national safe digging month. It rolls around this time every year in SDM. If you're going to use any social media posts, please use #nsdm national safe Digging Month. We've got a lot of events and interviews already on the books. I know Parrish.

00:15:01.830 --> 00:15:10.580

Tami Groves

Uhm. Safety Sam and I are going to go to see the Charlotte Checkers safety. Sam is gonna ride the Zamboni.

00:15:11.960 --> 00:15:31.540

Tami Groves

So you know there's there's a lot of good events. There's just one. But please, April national safe Digging Month, there's a tool kit on our website. Go out to [nc811.org/national safe digging month](http://nc811.org/national-safe-digging-month). So if you do any kind of social media Please remember to tag national safe digging month.

00:15:34.570 --> 00:15:38.320

Tami Groves

To be North Carolina 811 treasure hunt.

00:15:39.020 --> 00:15:54.580

Tami Groves

If you have not already taken part in this, shame on you. I am not eligible for this 811 treasure hunt that has a prize of \$811.00.

00:15:55.810 --> 00:16:22.700

Tami Groves

Although it would be fantastic to have for a little vacation money, but from now until April the 29th enter for your chance to win \$811.00. There are some videos and some questions, some rather short videos, 15 minutes of your time as well worth \$811.00 for a little vacation cash or some.

00:16:22.760 --> 00:16:37.860

Tami Groves

Groceries or just a trip to the gas pumps. So [NC 811.org/treasure Hunt](http://NC811.org/treasure-hunt), please go out and check that out and enter. Refer your chance to win.

00:16:38.550 --> 00:16:40.500

Tami Groves

The call 811.

00:16:41.130 --> 00:16:53.750

Tami Groves

Before you dig 250 is April the 8th that will start at 7:30. That'll be at Speedway Rd in Ridgeway, VA, for those of you that are racing enthusiasts.

00:16:55.040 --> 00:17:11.630

Tami Groves

Erase call 81 before you dig 250 that's powered by [call 811.com](http://call811.com), so please consider making this trip. Enjoying that race. Anything you wanna throw out for that one. And I know Brian is not here to to plug.

00:17:11.040 --> 00:17:21.010

Ann Rushing

Yeah, sure. So everybody knows that this is Martinsville Speedway. This is a national consortium of.

00:17:21.110 --> 00:17:54.830

Ann Rushing

Come a call centers and stakeholders. So we're doing a full takeover on that Friday, April the 8th. But we will also be out the whole weekend, April 7th, 8th and 9th and will be sharing the 811 message. There

will be, you know, lots of information out there. We've got folks coming in from around the nation to help us support it and I will be in touch. We will be able to receive some tickets, some will be grandstand and we may have a few VIP tickets.

00:17:55.690 --> 00:18:11.920

Ann Rushing

So in the upcoming weeks, as soon as I get that information will let you guys know if we have some tickets available. If you're interested in going on that Friday night. So alright, we look forward to having you out if if all goes well. Thanks.

00:18:11.700 --> 00:18:13.230

Tami Groves

Thank you, ma'am. Appreciate that.

00:18:15.920 --> 00:18:43.960

Tami Groves

March 18th. If you didn't know, is natural gas utility workers day. So we want to recognize those folks among us that work in natural gas and say thanks, thanks for what you do to keep everybody safe and warm and showered and dishes washed and safe and safe and safe. All those funds, safe things. But thank you for real. We appreciate you.

00:18:45.250 --> 00:18:53.000

Tami Groves

On May the 4th through May the 6th, if you have not already signed up and are interested the joint.

00:18:54.380 --> 00:18:55.120

Tami Groves

Excuse me.

00:18:55.890 --> 00:19:00.490

Tami Groves

Joint North Carolina, South Carolina Utility Coordinating Committee conference.

00:19:01.480 --> 00:19:27.620

Tami Groves

Will be in Greenville, SC, North and South Carolina tradeoff years back and forth this year is South Carolina's turn, so Wednesday the 4th through Friday, May 6. The cost of registration is \$125.00 that is a bargain and there is locator training available for free.

00:19:28.620 --> 00:19:58.520

Tami Groves

That's FREE. The joint UCC conference typically gets folks from both North and South Carolina and usually has anywhere from 200 plus attendees from various public and private utilities, service providers locating construction, safety and design companies. There will be presentations about protection of utilities, work zone safety, design build and of course damage prevention.

00:19:59.020 --> 00:20:07.630

Tami Groves

Vendors will exhibit products and services, and again a locator training class will be offered. How much is that free?

00:20:07.680 --> 00:20:22.950

Tami Groves

We go out to ncucc.org and look for that joint, NC SC UCC website. Again, this is a fantastic opportunity. I was able to attend a couple years ago.

00:20:23.000 --> 00:20:23.200

Tami Groves

So.

00:20:24.390 --> 00:20:27.420

Tami Groves

We set up right next to South Carolina.

00:20:28.100 --> 00:20:58.010

Tami Groves

Come I I spoke to a gentleman Tuesday who works in both States and I was actually able to offer him and excavation guide from North Carolina and South Carolina because we're so close to the line. North Carolina and South Carolina carry some of each other's materials and it just so happened that I had a South Carolina excavation guide in my vehicle that I was able to offer him so.

00:20:58.370 --> 00:21:02.100

Tami Groves

Again, please consider checking out that conference.

00:21:03.200 --> 00:21:08.880

Tami Groves

The first quarter 811 board meeting is Friday, April 22nd. Yes ma'am.

00:21:07.220 --> 00:21:07.610

Ann Rushing

80.

00:21:07.660 --> 00:21:17.500

Ann Rushing

Any Tami cannot inject one second, you'll go back to that slide. I don't know if you guys were on the state UCC meeting on Tuesday, but.

00:21:09.780 --> 00:21:10.520

Tami Groves

Yes, please.

00:21:12.520 --> 00:21:12.950

Tami Groves

Uh-huh.

00:21:17.910 --> 00:21:48.610

Ann Rushing

Uhm, I spoke with South Carolina with their planning group, and there is going to be an OSHA 10 class and that will be free. Also will be a certification for that. Both the locator and the OSHA. Both of those are going to be like 2 day classes. So if you are planning on taking advantage of that, you'll need to come in and be there by Wednesday. 'cause. That's when those training classes will kick up. But as you see here.

00:21:48.660 --> 00:22:05.760

Ann Rushing

We do not have the OSHA training on that and we'll kind of get that updated, but there they will be offering an OSHA 10 class. So if you need that, and I mean great opportunity to get it for free and come and then of course golf will be on.

00:22:05.890 --> 00:22:20.370

Ann Rushing

Come Wednesday morning as well. So they, you know, the at my last conversation there were like 10 rooms left in that block. So if you haven't made your reservation, please give you know, the Hyatt called to try to get that scheduled.

00:22:21.730 --> 00:22:37.430

Ann Rushing

They may not have any, and the blood there may still be, you know, hotel rooms available, but that is a graduation weekend for college. So we want to make sure that we get you guys come, you know there to the conference for any of these activities. Thank you.

00:22:38.660 --> 00:22:40.160

Tami Groves

Thank you. Appreciate that.

00:22:40.610 --> 00:22:41.080

Ann Rushing

Sure.

00:22:41.930 --> 00:22:58.280

Tami Groves

The first quarter 811 board meeting is Friday, April 22nd. That's from 8:30 to 10:30. That'll be at the four points by Sheraton and Asheville. Please contact Stephanie at our office for details.

Stephanie@nc811.org.

00:22:59.290 --> 00:23:13.360

Tami Groves

The next North Carolina underground Damage Prevention Review Board meeting is Tuesday, April 19th. That will be a hybrid meeting that will be at the North Carolina 811 events dinner starting at 10:00 AM.

00:23:14.370 --> 00:23:23.890

Tami Groves

Visit that hashtag or excuse me, that website at the bottom, UDP or b.nc.gov anything you want to share on that one and.

00:23:24.780 --> 00:23:27.100

Ann Rushing

I'm sure I'll be glad to we.

00:23:27.170 --> 00:23:59.640

Ann Rushing

Uh-huh. Uh. Several of us met this morning to discuss the website, so we're trying to make sure we get some of the important information updated, but just want to remind you folks, if you are making complaints to the review board when when you make your complaint and the information is sent to the violator, you will also get a copy of that with the case number. So just be aware that when you're attending.

00:23:59.690 --> 00:24:29.960

Ann Rushing

You're meetings with us and we start talking about case number, you know 235. Then make sure that you know from your your complaint. You know what case number is attached to your complaint and that way you'll be able to easily know when it comes up. So you should be getting that information and then once there is a ruling made and it's sent over to the utilities Commission it's then given.

00:24:30.010 --> 00:25:00.040

Ann Rushing

A docket number. So those are two different numbers. There's a case number and then there will be a docket number. One of the things that we're looking at is to try and have a cross reference on the website, so that if you were to click on that case number, it will take you to the docket number. And so that's one of the items that I'm working on on that committee for the website. So just once again, tell your story. You know if you've got.

00:25:01.020 --> 00:25:12.960

Ann Rushing

Locate tickets. If you've got damaged tickets reported damages anything to make your case, please make sure that you present that with your complaint.

00:25:13.790 --> 00:25:15.520

Ann Rushing

And that's all I have. Thanks.

00:25:16.000 --> 00:25:17.850

Tami Groves

Thank you, Madam. Appreciate that.

00:25:22.650 --> 00:25:36.620

Tami Groves

The next state UCC meeting. Alright, so you already know that there is a joint conference in May. I'm going to go and say that the actual next meeting will be in July. Is that correct?

00:25:39.340 --> 00:25:39.810

Tami Groves

And.

00:25:41.960 --> 00:25:50.200

Ann Rushing

So we'll have a quick meeting obviously through the state meeting, but that would just be for the board. So yes, that would be that would be correct July.

00:25:47.520 --> 00:25:47.990

Tami Groves

Right.

00:25:50.590 --> 00:25:57.750

Tami Groves

Thank you. I appreciate that. So, folks, again, that next state UCC meeting will be in July.

00:25:52.320 --> 00:25:52.660

Ann Rushing

Thanks.

00:26:00.400 --> 00:26:31.180

Tami Groves

The next locate partnership at locate Resolution Partnership Committee meeting is March 17th. That will be a hybrid meeting at the Event Center from 11 to one. As I spoke up a little bit earlier, update tickets is one of the things that we've really pushed hard over the last couple years, making sure that that you're not updating tickets were the works been completed or the work hasn't even started yet. You know you're waiting for materials.

00:26:32.140 --> 00:26:34.250

Tami Groves

So we're kind of we're not.

00:26:35.370 --> 00:27:05.370

Tami Groves

Leaving update tickets, but we are gonna start focusing pushing a little bit of that focus towards project coordination, make sure that you're reaching out to, you know, the other utility companies, the the locating community, you know, different folks in the area and making sure that you coordinate those projects to hopefully cut down on some of those miscommunications and maybe updated tickets that don't need to be updated. So.

00:27:05.430 --> 00:27:12.980

Tami Groves

Really pushing that communication, that's where it's so important that we talked to each other so.

00:27:13.730 --> 00:27:15.790

Tami Groves

Project coordination.

00:27:16.880 --> 00:27:47.370

Tami Groves

For information on North Carolina, 811 and UCC events, please visit the calendar section of nc811.org or the NC 811 app. I know everyone's excited to have one more app on their phone that they can't find, but that 811 app is a free download for Apple and Android users and for those of you that are out in the field as often as you are in the office or maybe even more, that's a great tool.

00:27:47.420 --> 00:28:17.380

Tami Groves

To be able to use pretty much anything you can do from your laptop or tablet, you can do with that app out in the field. That's your education team and rushing most of you met and she's our education manager Howard Corey's in the eastern part of the state. Brian Morehouse is in the West and Parrish Reddick is in the Piedmont region. Steve Moore is our media relations specialist. Appreciate your time and attention. There will be a PDF copy of this.

00:28:17.430 --> 00:28:39.220

Tami Groves

Presentation@ncucc.org as well as the video from this meeting, we'll use that as our minutes and we will have a roster. With that being said, I'm going to stop presenting and running my mouth and turn this over to Leo and Josh.

00:28:41.270 --> 00:28:42.150

Tami Groves

Alright, gentlemen.

00:28:43.030 --> 00:28:43.930

Tami Groves

It's all you.

00:28:44.980 --> 00:28:50.150

Leo Brooks (Gas Distribution - 5P)

Well, thank you, Tami. Thank you for I can start running my mouth now. You know that I love that.

00:28:51.790 --> 00:28:54.970

Leo Brooks (Gas Distribution - 5P)

So we'll take this time now we're going down the list.

00:28:55.030 --> 00:29:13.910

Leo Brooks (Gas Distribution - 5P)

Uh, for anybody, there's at least one or two people on the the meeting that one of my invited myself, somebody I deal with on a daily basis. So I gave him a little bit more time to to get to talk to me. So what we do at this time, we give everybody a chance to.

00:29:14.540 --> 00:29:22.530

Leo Brooks (Gas Distribution - 5P)

You know, introduce themselves, talk about anything that's going on with them. Any questions? Concerns. There's no wrong thing to talk about so.

00:29:23.680 --> 00:29:28.290

Leo Brooks (Gas Distribution - 5P)

Uhm, I'm just going to go down alphabetical order. Do you have anything else? And.

00:29:28.910 --> 00:29:31.940

Leo Brooks (Gas Distribution - 5P)

That you wanted to to do 'cause you're first on my list.

00:29:33.870 --> 00:30:03.580

Ann Rushing

No, I think Tami kind of covered for the most part. Just wanna remind everybody, April safe digging is coming up. Let me show you one item. So if I can get it pulled up, I'm not sure if you guys can see this, but this is a new mini excavator that we have had built for us. And you know there's a few more modifications, but what this is, it is a trailer, it has a a track hoe on it, the the boom.

00:30:03.630 --> 00:30:33.540

Ann Rushing

We'll move back and forth. The bucket works and and it's kind of hard to tell, but there's a bunch of balls down in there, so that's involved yet. So we would love to bring that to your your next event or outing. It will hold up to about £270. You know, obviously it's more designed for kids, but certainly we want to encourage you folks if you're interested in getting on our calendar, please do because we've already had one issue where.

00:30:34.160 --> 00:31:01.220

Ann Rushing

We've been fighting three of us, been fighting over the use of it for one day, so we are working on some potential sponsorship from one of our Members. And so we're we're excited about that. You know, getting this thing out on the road and it will be pulled by our little Tucson. So you may see us up and down the road with it, but just want to let you know we're going to have this in our fleet of educational opportunities and that's all I have. Thanks.

00:31:02.730 --> 00:31:03.290

Leo Brooks (Gas Distribution - 5P)

Alright.

00:31:04.340 --> 00:31:08.250

Leo Brooks (Gas Distribution - 5P)

Uh, next sunglasses. Jonathan Elzy, we still with his job.

00:31:09.950 --> 00:31:11.820

Elzy, Jonathan

Nope, I'm not with you anymore.

00:31:12.690 --> 00:31:13.050

Leo Brooks (Gas Distribution - 5P)

No.

00:31:14.170 --> 00:31:20.800

Elzy, Jonathan

I'm not gonna talk as long as I normally did, 'cause so many people in here. But I I I did want to add something to what Tami was talking about earlier.

00:31:21.390 --> 00:31:24.640

Elzy, Jonathan

With people calling in the tickets for more than what they need.

00:31:25.370 --> 00:31:54.320

Elzy, Jonathan

Uhm, Leo and Josh and other people can attest to the same thing. I'm getting ready. Say, you know, it's one thing if a homeowner called in a ticket says locate entire property 'cause, they're gonna do some landscaping or offense, ticket or whatever the case may be. We also get tickets that say something like NE Medical Center, locate entire property for planting trees. You know, they're gonna put 200 trees and 200 different locations or a single address ticket could be Concorde Mills mall.

00:31:54.930 --> 00:32:00.130

Elzy, Jonathan

You can't imagine how many utilities are out there, and technically, when I get a ticket for that.

00:32:00.860 --> 00:32:19.720

Elzy, Jonathan

If I'm the locator in that area, I'm responsible for anything gets cut on that entire property. If if I don't meet with the contractor and do everything I can to mark what they need at the right spot in the right place, there's lots of Gray areas in what we do out here, and sometimes it's hard to figure out what it is we need to do.

00:32:20.130 --> 00:32:44.620

Elzy, Jonathan

Uh, like if a fence company calls in offense ticket, I'm 99% sure they gonna just put a fence up. If a homeowner calls in offense ticket and says entire property, they might put a pool in, they might plant trees, they might put irrigation and they'll say why I sound needed. The whole property located. You see what I'm saying? So I just kind of want to reiterate what you were saying that, you know, calling what you need and only what you need.

00:32:47.880 --> 00:33:17.760

Leo Brooks (Gas Distribution - 5P)

Yeah. And I just had a we just had a conversation in our safety meeting 2 weeks ago where I brought that up with some of our other inspectors that are over our cruise. And I told him I said, you know, a lot of times people want to complain about their, they show up in their tickets aren't marked. But at the same time they're updating their tickets over and over again or not giving enough information. I said. So you're, you're, you're, you're hurting yourself because when you don't call him specifically what you need and you do random updates that aren't needed then.

00:32:48.640 --> 00:32:48.910

Ann Rushing
Uh.

00:33:17.880 --> 00:33:36.250

Leo Brooks (Gas Distribution - 5P)

It takes away from them and it's just a never ending cycle. So and so if you guys want to lines to be located and located correctly when you call them in then you know this same locator. There's doing your stuff for you is having to do stuff on the other side of town, so that's a good point John brought up.

00:33:39.040 --> 00:33:46.630

Ann Rushing

And into our add to that Leo. So John, if you are you know obviously you guys have that code 32.

00:33:48.260 --> 00:34:16.960

Ann Rushing

That is the only positive response code that will immediately go out within those first three days. So if you're saying additional communication is needed by the excavator, certainly utilize it. You get out there. It's very unclear postcode 32, they'll get the email immediately and then they you know, hopefully will respond back to you. I mean obviously that's one tool in your toolbox, but also.

00:34:17.020 --> 00:34:36.080

Ann Rushing

If we are seeing a pattern, certainly let Tammy know will reach out to him if it's if it's a contractor of one of our Members, then hey, if it's dominions will reach out to Leo and say, hey, you know, let's let's see what we can do to talk to these folks. So once again, it's all about just, you know, working together, but.

00:34:37.150 --> 00:34:39.900

Ann Rushing

I realized who has time to deal with all that.

00:34:40.950 --> 00:34:56.820

Ann Rushing

We just want to, you know, get our work done and push forward. So what I'm hearing, what I will do specially next month as we create our presentation, try to focus around that issue and also remind everybody what we're also seeing is.

00:34:56.880 --> 00:35:14.100

Ann Rushing

Is based on surveys and different things. The excavator is truly not checking their positive response the way they should be. So we're gonna focus some more education around that and and see what we can do to help you with that issue. But unfortunately.

00:35:13.440 --> 00:35:14.530

Elzy, Jonathan

One additional thing.

00:35:15.330 --> 00:35:16.290

Elzy, Jonathan
One additional thing.

00:35:15.530 --> 00:35:15.960

Ann Rushing
Sure.

00:35:17.160 --> 00:35:19.870

Elzy, Jonathan
I cannot. I can't stress this enough.

00:35:20.640 --> 00:35:30.990

Elzy, Jonathan
I can't tell you how often the point of contact on these tickets doesn't know anything about the job. They don't have a clue what's going. You know, you call him a if you can get hold of him.

00:35:31.700 --> 00:35:43.500

Elzy, Jonathan
You know, if you actually talk to somebody there, like, I don't know why my names on this ticket, I don't have anything to do with the project, only know what's going on over there. So that's the other thing to push is we need to get the right point of contact on these tickets.

00:35:44.620 --> 00:36:08.170

Ann Rushing
So and just as a reminder, you know all the tickets you've got the caller and then you've got a field contact and if you're seeing a pattern, certainly you know, let Tami know and will reach out if they are putting in a remote ticket entry, how you're going to know that is on that ticket, it's gonna say web on the channel.

00:35:52.630 --> 00:35:52.970

Elzy, Jonathan
Yep.

00:36:07.530 --> 00:36:07.820

Elzy, Jonathan
Yep.

00:36:08.690 --> 00:36:23.660

Ann Rushing
If it says non non non and and I know you know these 'cause your locator but for all your other folks, if you're looking at a ticket that says 999 as the channel, that means they physically talked to a customer service representative but under the web tickets.

00:36:08.760 --> 00:36:09.080

Elzy, Jonathan
Yep.

00:36:23.910 --> 00:36:43.130

Ann Rushing

Uhm, you know they've been trained. They're putting in their tickets, but on the back end we are auditing. So that might be a ticket that, you know, never gets audited. It might, you know, 'cause the the audit rates a little over 40%. A lot of tickets and as the volume increases.

00:36:43.960 --> 00:37:07.760

Ann Rushing

The auditing, you know that doesn't change, it's just a lot of tickets and it may just not get caught. But if we see it and we see it's artei person, I'm gonna go back to Wendy's team and say, hey, will you reach out to these folks and start talking to him? So please communicate with us, let us know, will certainly jump on it for you so.

00:37:07.590 --> 00:37:08.080

Elzy, Jonathan

Thank you.

00:37:08.670 --> 00:37:09.450

Ann Rushing

You're welcome.

00:37:13.070 --> 00:37:14.010

Leo Brooks (Gas Distribution - 5P)

Yes. Thank you, Jim.

00:37:14.600 --> 00:37:17.050

Leo Brooks (Gas Distribution - 5P)

US Scott Faircloth still on.

00:37:19.690 --> 00:37:20.830

Leo Brooks (Gas Distribution - 5P)

Maybe up next?

00:37:22.640 --> 00:37:23.600

Tami Groves

I don't speak.

00:37:23.190 --> 00:37:23.670

Faircloth, Scott

Haley.

00:37:24.750 --> 00:37:25.420

Tami Groves

There he is.

00:37:25.060 --> 00:37:30.510

Faircloth, Scott

Exactly. Yeah. Yeah. If I'm still here. So I'm. I'm in the field, so hopefully I got good connection, but a.

00:37:26.270 --> 00:37:26.540

Leo Brooks (Gas Distribution - 5P)

Right.

00:37:31.290 --> 00:37:35.550

Faircloth, Scott

Yeah, I'm here. It's good to see you guys. Good to hear from you. Hopefully we can get back in person soon.

00:37:37.390 --> 00:37:53.280

Faircloth, Scott

As far as Piedmont, we don't really have too much out of the ordinary stuff going on. We're just we're seeing a uptick in some locates. Verizon Fiber is coming in, in our area, but it's more Union County right now. So it's keeping us pretty busy.

00:37:55.010 --> 00:38:19.630

Faircloth, Scott

Other than that though, you know we're not doing nothing too crazy. We are celebrating the national gas utility Worker Appreciation Day next week. So thanks for the shout out on that. Hopefully other companies are doing the same. So we're making that a big deal this year, especially as the COVID kind of makes its way out and took mask with it and everybody is smiling and seeing faces again, so.

00:38:20.290 --> 00:38:25.780

Faircloth, Scott

But yeah, other than that, we're just we're just rocking and rolling and hopefully we see everybody soon.

00:38:28.310 --> 00:38:37.580

Ann Rushing

Hey, Scott, are you guys gonna allow us access back into your facilities for some of our meetings or are you guys still on lockdown for that?

00:38:38.410 --> 00:38:41.110

Faircloth, Scott

No, absolutely. So yeah, we are.

00:38:41.900 --> 00:38:56.060

Faircloth, Scott

Slowly getting cleared, we were operating at 50% capacity right now. So we still can't have more than 50% capacity or 25 people in a room at a time. So whichever one is lower.

00:38:57.170 --> 00:39:21.130

Faircloth, Scott

Ummm, but good news. Is it over there in Indian Trail, Union County we just we built a new big building for our operation center. So locally, Tami and anybody else, if we want to do like a 811 or UCC meetings there or something that sporadic we will have a conference room for 75 people and and some other smaller areas too that we can use.

00:39:14.850 --> 00:39:15.200

Ann Rushing

Hey.

00:39:20.530 --> 00:39:22.340

Tami Groves

I'm will call you after this meeting in.

00:39:21.970 --> 00:39:26.920

Ann Rushing

Nice. Yeah, absolutely. We're ready. We're ready to hit the road.

00:39:26.010 --> 00:39:26.310

Faircloth, Scott

Yeah.

00:39:27.560 --> 00:39:38.150

Faircloth, Scott

Yeah, yeah, will be, will be open in the May 1st on the new building. So we're about a month out, a little bit, a little bit over a month out and then it'll be open to to use.

00:39:28.070 --> 00:39:28.680

Ann Rushing

Nice.

00:39:42.010 --> 00:39:42.680

Leo Brooks (Gas Distribution - 5P)

That's awesome.

00:39:43.510 --> 00:39:45.340

Leo Brooks (Gas Distribution - 5P)

Uh, so next I've got William Horne.

00:39:55.050 --> 00:39:55.390

Leo Brooks (Gas Distribution - 5P)

No.

00:39:58.780 --> 00:39:59.830

Leo Brooks (Gas Distribution - 5P)

Jamie huffstetler.

00:40:05.830 --> 00:40:06.740

Jamie Huffstetler

Hey everyone.

00:40:08.250 --> 00:40:12.130

Jamie Huffstetler

Yeah, I got the invitation from Leo just the first time also.

00:40:13.820 --> 00:40:15.670

Jamie Huffstetler

I appreciate the invitation, Leo.

00:40:17.850 --> 00:40:33.450

Jamie Huffstetler

Basically, I've been in the natural gas business on the contracting side for about 7 years now. I'm a general foreman for a pipe gas. I run some work over in the Cabarrus County area, mostly in Concorde.

00:40:34.360 --> 00:40:39.620

Jamie Huffstetler

But also cover other areas from Iredell, Chapel Hill, Raleigh and Durham.

00:40:40.340 --> 00:40:47.380

Jamie Huffstetler

Uh Leo gave me the invitation. Thank you. Know, saying this could be a tool or a great resource, so I wanted to.

00:40:48.320 --> 00:40:58.360

Jamie Huffstetler

Always, always. There's another tool out there or another resource where I can do my job better and be more efficient. I always. I'm always open ears for that.

00:40:59.750 --> 00:41:00.780

Jamie Huffstetler

I also think that.

00:41:02.270 --> 00:41:15.000

Jamie Huffstetler

That this is a good partnership as far as what we do, you know, between the gas company, they have their jobs and the contractors we have ours and then the locating company they have there is but.

00:41:15.670 --> 00:41:28.810

Jamie Huffstetler

If we can communicate better and have a good partnership and work together, I think it makes everybody's lives easier. So I wanted to take the opportunity just to introduce myself and I appreciate the invitation.

00:41:29.960 --> 00:41:38.660

Tami Groves

Glad you're here. Thank you for being here earlier. Thanks for letting me know. We we really appreciate that hope. Hope that you will be back.

00:41:39.440 --> 00:41:39.940

Jamie Huffstetler

Yes, ma'am.

00:41:41.170 --> 00:41:46.200

Leo Brooks (Gas Distribution - 5P)

So he'll he'll definitely be back. So, oh, Jamie. Now to make each others life.

00:41:48.360 --> 00:41:50.200

Leo Brooks (Gas Distribution - 5P)

Complicated on a daily basis so.

00:41:50.890 --> 00:41:51.540

Leo Brooks (Gas Distribution - 5P)

Uhm.

00:41:51.160 --> 00:41:51.660

Jamie Huffstetler

Yeah, we do.

00:41:52.910 --> 00:42:11.430

Leo Brooks (Gas Distribution - 5P)

So yeah, and Jamie, when we when we start meeting in person and the great thing about that is a lot of times you know you calling tickets or whoever calls and tickets and your names on it, their names on it, you actually get to meet this person and see what their face looks like and get their numbers. So it'll be helpful in the future. You come to some of these.

00:42:12.860 --> 00:42:15.760

Leo Brooks (Gas Distribution - 5P)

Next up, we got Jimmy Gray. He's always had some words of wisdom.

00:42:16.370 --> 00:42:17.030

Leo Brooks (Gas Distribution - 5P)

I'm sure.

00:42:19.070 --> 00:42:24.080

Jimmy Gray (Gas Distribution - 5P)

Well, thank you, Leo. I appreciate that. You don't know how much I'll talk to you about it after awhile.

00:42:22.910 --> 00:42:23.340

Leo Brooks (Gas Distribution - 5P)

Yes, Sir.

00:42:26.740 --> 00:42:33.710

Jimmy Gray (Gas Distribution - 5P)

Just a couple things real quick. Number one, I see ronzone here from from the Google Group.

00:42:35.520 --> 00:42:47.710

Jimmy Gray (Gas Distribution - 5P)

Ron, I got got the chance to to have a an email conversation last week with Michael Moran. We are still having some issues with hyper.

00:42:48.670 --> 00:42:57.560

Jimmy Gray (Gas Distribution - 5P)

And Hyper Network they send out, they've they've sent out a set of tickets for like 8 different, eight different times.

00:42:58.260 --> 00:43:28.760

Jimmy Gray (Gas Distribution - 5P)

Uh for a project that they've been working on and we know that I think I talked to you a little bit about it before, it's still reoccurring. I did. I was hoping that that Michael might be on here this this morning. I was going to let him know. He told me that they were going to be canceling those tickets. I I never saw a cancellation on it. It's just really clogging the system up. I know Josh is having the same issue here in Concord with the City of Concord and I'm sure.

00:43:28.860 --> 00:43:42.920

Jimmy Gray (Gas Distribution - 5P)

That, uh, that that John is Lee is doing the same thing it it's just creating some issues and we've had some great. We've had some great open communication on that. It just seems like for some reason.

00:43:43.340 --> 00:43:50.290

Jimmy Gray (Gas Distribution - 5P)

Uh, we're having issues with with hyper on that and and they need to have a they need to have another discussion with those folks.

00:43:50.770 --> 00:43:56.480

Jimmy Gray (Gas Distribution - 5P)

Uh, I I'm open to any suggestions, but is this really really tough?

00:43:57.430 --> 00:44:25.080

Jimmy Gray (Gas Distribution - 5P)

With them calling in that many times and and we don't mind locating whatever they want, but when they're calling in stuff that they've already they've already completed over and over again, it just makes it really hard to to meet the needs of of the other Google projects. Plus there are other customers that we're trying to meet. So it it ran. If you could pass that along to, to Michael about the situation where where they're not there, they didn't cancel those tickets. I I would appreciate that.

00:44:25.890 --> 00:44:26.280

Jimmy Gray (Gas Distribution - 5P)

Uhm.

00:44:27.210 --> 00:44:37.630

Jimmy Gray (Gas Distribution - 5P)

The other thing I have and and I'm gonna bring probably Travis Raymer own for this one too. Is is we've had a couple of issues in the last couple in the last week or so with Compass.

00:44:38.320 --> 00:44:53.870

Jimmy Gray (Gas Distribution - 5P)

Uh, who's doing work for Duke, and I think they're actually a sub for another either Pike or somebody

else. I'm not really sure who they're subbed in for, but they've been calling in emergency tickets that aren't true emergency tickets.

00:44:55.220 --> 00:45:13.490

Jimmy Gray (Gas Distribution - 5P)

They're calling in and and and and Travis. You can speak up and any time on this, but we had a conversation with one of their crew foreman's last week and he told he told us that we he was told to call in emergency tickets even though they weren't going to be going out to for a couple days.

00:45:13.540 --> 00:45:43.970

Jimmy Gray (Gas Distribution - 5P)

Is to get those things in and so it's creating some issues in our area and I just wanted to bring that up to Tami and and also to and and and and I was hoping somebody from Duke was going to be here, but I know they had to leave pretty quick. So we just, we just need to see what we can do to have a conversation with them. That's those are not emergency true emergency tickets and and I know that they're getting the information about.

00:45:44.340 --> 00:45:47.460

Jimmy Gray (Gas Distribution - 5P)

Uh calling in emergency tickets that aren't true emergency tickets.

00:45:47.870 --> 00:46:06.900

Jimmy Gray (Gas Distribution - 5P)

Uh, unless they're doing it remote entry and I don't know how that goes on the remote entry part, but we we definitely need to have a talk with them 'cause if they're not going to be out there and it's not an emergency then then we got a couple days or so to get those done, then they need to, they need to be doing it that way instead of doing it the way they're doing it.

00:46:08.520 --> 00:46:16.320

Jimmy Gray (Gas Distribution - 5P)

Travis, do you have any, Travis, do you have anything you'd like to say about that? I know your own here. I'll see your on here. You wanna? You wanna say anything about that?

00:46:08.580 --> 00:46:09.070

Tami Groves

Yeah.

00:46:17.110 --> 00:46:20.130

Travis Raymer (Gas Distribution - 5P)

Yeah, I'll add another day.

00:46:20.760 --> 00:46:24.800

Travis Raymer (Gas Distribution - 5P)

One of our guys was locate and then he got a rush ticket for Compass.

00:46:25.730 --> 00:46:31.410

Travis Raymer (Gas Distribution - 5P)

And he gets on site and the rush ticket was dumb.

00:46:32.790 --> 00:46:46.950

Travis Raymer (Gas Distribution - 5P)

Destroyed marks he gets on site. All the marks are there. All the marks are visible. Gas, power, telecommunication. Everything was still visible. But when he talked to one of the guys, the guy said he had. They had.

00:46:47.750 --> 00:46:56.850

Travis Raymer (Gas Distribution - 5P)

I believe it was three addresses on that ticket and when he spoke with one of the compass contractors, the guy told him, well, I need this address.

00:46:57.640 --> 00:47:01.930

Travis Raymer (Gas Distribution - 5P)

Well, that address that he needed wasn't on the ticket.

00:47:02.860 --> 00:47:07.710

Travis Raymer (Gas Distribution - 5P)

So that God told him said, well, your ticket don't cover that address.

00:47:08.290 --> 00:47:15.270

Travis Raymer (Gas Distribution - 5P)

Well, there, there was a utility guy out there and he got out. He he kind of got hostile with us and uh.

00:47:16.150 --> 00:47:27.630

Travis Raymer (Gas Distribution - 5P)

He told us that he needed four other addresses, Marc, that were not on the ticket, and we explain to him that his ticket didn't cover. There's four other addresses.

00:47:28.480 --> 00:47:32.080

Travis Raymer (Gas Distribution - 5P)

He's like, well, I'll just call it in as an emergency and I said.

00:47:32.860 --> 00:47:55.800

Travis Raymer (Gas Distribution - 5P)

Technically, isn't an emergency. He's like, yes, they are without power, but they were not without power. They had a jump box on the meter that was not hooked up. They've already ran the service to the house and the service was hooked up to the transformer, so they were wanting to replace the main line on those other four properties.

00:47:56.520 --> 00:47:59.780

Travis Raymer (Gas Distribution - 5P)

And he he ended up calling in an emergency.

00:48:00.580 --> 00:48:05.040

Travis Raymer (Gas Distribution - 5P)

4 There's other four properties that the original ticket didn't cover.

00:48:07.550 --> 00:48:08.380

Travis Raymer (Gas Distribution - 5P)
So it's.

00:48:09.600 --> 00:48:18.710

Travis Raymer (Gas Distribution - 5P)
They're they're still calling in emergencies for tickets that are not emergencies. I've got several update emergencies that complex has called in.

00:48:20.210 --> 00:48:20.870

Travis Raymer (Gas Distribution - 5P)
Probably.

00:48:23.420 --> 00:48:27.220

Travis Raymer (Gas Distribution - 5P)
Four or five times since the original ticket was called in.

00:48:28.140 --> 00:48:31.740

Tami Groves
Yeah, send. Send those to me. Jimmy and Travis, please.

00:48:32.470 --> 00:48:35.180

Travis Raymer (Gas Distribution - 5P)
OK. And I'm pretty sure compus.

00:48:35.930 --> 00:48:38.330

Travis Raymer (Gas Distribution - 5P)
Contracts under utility.

00:48:41.250 --> 00:48:42.940

Travis Raymer (Gas Distribution - 5P)
So Duke sends out to work.

00:48:43.560 --> 00:48:43.980

Ann Rushing
Yeah.

00:48:43.640 --> 00:48:53.350

Travis Raymer (Gas Distribution - 5P)
Two utility and then, if there's any kind of bores that needs to be done, then utility will contract it out to com. Plus, I'm pretty sure that's how that works.

00:48:53.950 --> 00:49:12.970

Tami Groves
Yeah, Jason Simonds was on here and then come Mekenzie Smith was as well mekenzie. And I've had some conversations over the last couple weeks. She's with Duke as well, but they both had to pop off. But, you know, I can. I've definitely got several folks, so I can reach out to.

00:49:14.150 --> 00:49:15.180
Travis Raymer (Gas Distribution - 5P)
OK. Thank you.

00:49:15.620 --> 00:49:16.260
Tami Groves
Yes, Sir.

00:49:17.440 --> 00:49:19.760
Jimmy Gray (Gas Distribution - 5P)
Thank you guys. That's about all that's about.

00:49:17.620 --> 00:49:26.140
Leo Brooks (Gas Distribution - 5P)
Yeah, and it, Tami, Indiana both. I just sent you that ticket. They had sent me that it was earlier this week and I was going to just bring it up in today's meeting, but.

00:49:22.920 --> 00:49:23.320
Tami Groves
Got it.

00:49:27.320 --> 00:49:31.830
Leo Brooks (Gas Distribution - 5P)
And I I think I have another one I could send as well, but the one need specifically talking about where they.

00:49:32.910 --> 00:49:38.440
Leo Brooks (Gas Distribution - 5P)
Call them back out to get them on site to mark something where they didn't have a ticket. That's the one that I just sent you.

00:49:38.960 --> 00:49:39.960
Tami Groves
Got it. Thank you.

00:49:41.610 --> 00:49:42.420
Leo Brooks (Gas Distribution - 5P)
Uh next?

00:49:43.210 --> 00:49:47.680
Leo Brooks (Gas Distribution - 5P)
I can hardly believe my eyes, but it looks like Josh Yelton his own here. That's hard.

00:49:48.330 --> 00:49:49.010
Leo Brooks (Gas Distribution - 5P)
Co chairman.

00:49:50.980 --> 00:49:51.630

+17*****00

Can you hear me?

00:49:52.490 --> 00:49:53.050

Leo Brooks (Gas Distribution - 5P)

We can hear you.

00:49:52.730 --> 00:49:53.330

Tami Groves

Yes, Sir.

00:49:56.130 --> 00:49:56.840

+17*****00

Here now.

00:49:57.580 --> 00:49:58.320

Tami Groves

Yes, Sir.

00:49:59.110 --> 00:50:02.060

+17*****00

Alright, I don't know. It muted me all automatically.

00:50:03.000 --> 00:50:09.240

+17*****00

Uhm, yeah, everything is good here at Concord. We're just busy having hard time finding help.

00:50:10.140 --> 00:50:14.240

+17*****00

Uh, I'll hit a little bit on the compass thing. We had some ronins within guys.

00:50:15.660 --> 00:50:23.200

+17*****00

Uh last year sometime and it's really not the comp US guys, it's the utility lines guide this over him.

00:50:24.640 --> 00:50:31.580

+17*****00

We had a hostile conversation out there with them about some stuff, so I feel your pain on that Jimmy and Travis.

00:50:32.370 --> 00:50:33.060

+17*****00

So.

00:50:32.500 --> 00:50:36.900

Tami Groves

Hey Josh, who was the utility lines guy that you talked to? Do you remember?

00:50:37.620 --> 00:50:38.990

+17*****00

James Godwin.

00:50:37.640 --> 00:50:38.410

Tami Groves

Or if you wanna.

00:50:39.530 --> 00:50:40.030

Tami Groves

OK.

00:50:41.470 --> 00:50:44.710

+17*****00

Yeah, I used to have his card here in my office, but I don't see it now.

00:50:44.760 --> 00:50:45.150

Tami Groves

OK.

00:50:46.020 --> 00:50:54.970

Travis Raymer (Gas Distribution - 5P)

That's the same guy that I spoke with the other day. I've I've got his card somewhere. I will give it to Leo whenever I find it.

00:50:55.420 --> 00:50:58.530

Tami Groves

OK. Or just take a screenshot and send it to me either way.

00:50:59.510 --> 00:50:59.900

Travis Raymer (Gas Distribution - 5P)

OK.

00:50:59.590 --> 00:51:04.840

+17*****00

Yeah, he's a kind of a hot head. I think something I I should have went about it a little.

00:51:05.600 --> 00:51:09.850

+17*****00

Stringent Moore went up the you know the ladder and went to Duke do about it, but.

00:51:10.710 --> 00:51:11.680

+17*****00

These are.

00:51:13.540 --> 00:51:26.120

+17*****00

I don't know, it's just I can't say a lot of them on phone what he said, but it was rough. So yeah, if you,

Tami, you can help out on that. And I haven't had any run ends with him lately. That was last year, last summer.

00:51:18.890 --> 00:51:19.310

Tami Groves

Got it.

00:51:26.680 --> 00:51:27.100

Tami Groves

K.

00:51:27.040 --> 00:51:27.490

+17*****00

But.

00:51:28.310 --> 00:51:30.160

+17*****00

Past the guy utility lines.

00:51:31.900 --> 00:51:33.910

+17*****00

Haven't do power to look into that and be great.

00:51:34.380 --> 00:51:34.770

Tami Groves

OK.

00:51:35.810 --> 00:51:44.160

+17*****00

And as far as the Google stuff, the updates and oh Jimmy Hill met a little bit. Me and Mike, we have a meeting every Tuesday.

00:51:45.440 --> 00:51:52.260

+17*****00

At 10:00 o'clock, just the city thing with him and I talked to him about those same tickets that Jimmy had and dumb.

00:51:54.180 --> 00:51:59.200

+17*****00

He says those are Hard Rock borders that they need to keep them on. There is what he told me. So.

00:52:00.430 --> 00:52:12.860

+17*****00

Uhm, I know they called him in since, like November it looked like to me so might be want something you might want to give him. We're gonna try to Markham eventually. I know I haven't sitting on the side, so.

00:52:13.800 --> 00:52:16.970

+17*****00

But yeah, we have had some little bit of problem with the hyper stuff.

00:52:19.070 --> 00:52:20.890

+17*****00

I think we've got through most of it, so.

00:52:22.180 --> 00:52:23.390

+17*****00

Just to hit a little bit on that.

00:52:22.620 --> 00:52:22.900

Tami Groves

Like.

00:52:25.020 --> 00:52:25.660

Tami Groves

Thank you, Sir.

00:52:26.740 --> 00:52:27.090

+17*****00

Yep.

00:52:29.990 --> 00:52:33.820

Leo Brooks (Gas Distribution - 5P)

It was. It was good to have you, Josh. And we'll see you next month, hopefully.

00:52:34.930 --> 00:52:36.130

+17*****00

Yeah, yeah, sure enough.

00:52:34.980 --> 00:52:39.140

Leo Brooks (Gas Distribution - 5P)

So we're gonna move on. We got a lot of people on here. We've not had this many people on here in awhile, so.

00:52:39.770 --> 00:52:42.730

Leo Brooks (Gas Distribution - 5P)

Uh, Marc worth, you still with us? And we put you to sleep yet?

00:52:48.950 --> 00:52:49.620

Leo Brooks (Gas Distribution - 5P)

There he is.

00:52:51.450 --> 00:52:51.940

+17*****00

Video.

00:52:53.160 --> 00:52:53.880

Leo Brooks (Gas Distribution - 5P)

Marc worth.

00:52:55.740 --> 00:52:56.130

Tami Groves

Out.

00:52:57.190 --> 00:52:57.810

Tami Groves

He's.

00:52:58.930 --> 00:53:03.690

Tami Groves

I think he's having some troubles again. He was there. He might be back in now.

00:53:05.590 --> 00:53:06.370

Tami Groves

Go ahead, mark.

00:53:08.500 --> 00:53:09.120

Marc Worth (Guest)

The problem?

00:53:11.130 --> 00:53:11.760

Marc Worth (Guest)

You guys hear me?

00:53:12.320 --> 00:53:12.960

Tami Groves

Yes, Sir.

00:53:13.680 --> 00:53:16.860

Marc Worth (Guest)

Yeah, I hear myself too. I don't know. I think I'm logged in twice now.

00:53:17.450 --> 00:53:20.300

Marc Worth (Guest)

Uh, and the whole thing is I don't have any news.

00:53:21.590 --> 00:53:22.020

Leo Brooks (Gas Distribution - 5P)

OK.

00:53:22.320 --> 00:53:25.200

Marc Worth (Guest)

Just start taking counts are going up a little bit and uh.

00:53:25.860 --> 00:53:29.700

Marc Worth (Guest)

Dammit, Valerie February. Over January. So things are looking good then.

00:53:35.210 --> 00:53:37.880

Leo Brooks (Gas Distribution - 5P)

OK. Yeah. Now. So you're on there twice, so you're.

00:53:38.720 --> 00:53:40.750

Leo Brooks (Gas Distribution - 5P)

You reverberating off yourself, but.

00:53:42.530 --> 00:53:45.340

Leo Brooks (Gas Distribution - 5P)

We tried to make it as hard as possible for you to get home so.

00:53:46.520 --> 00:53:49.440

Marc Worth (Guest)

But Richard couldn't get on at all your way.

00:53:50.410 --> 00:53:57.300

Leo Brooks (Gas Distribution - 5P)

Yeah. So he was trying to get on earlier. So at the very beginning and wait for whatever reason, we had some trouble with four or five people.

00:53:58.280 --> 00:53:58.600

Leo Brooks (Gas Distribution - 5P)

So.

00:54:00.060 --> 00:54:03.560

Leo Brooks (Gas Distribution - 5P)

All right. We'll move on. We got William Radford.

00:54:15.360 --> 00:54:16.510

Leo Brooks (Gas Distribution - 5P)

Going once.

00:54:17.750 --> 00:54:18.820

Leo Brooks (Gas Distribution - 5P)

Alright, Ron Griffin.

00:54:20.820 --> 00:54:32.840

Ron Griffin (Guest)

Good morning, Sir. I really don't have anything for the group, but Jimmy out, I do have a meeting with Mike Moran this afternoon and I will pass that information on to him. I'm sorry, that keeps happening.

00:54:35.210 --> 00:54:37.670

Jimmy Gray (Gas Distribution - 5P)

Thank you. Ron, I I do appreciate that very much.

00:54:39.020 --> 00:54:39.850

Ron Griffin (Guest)

No problem, Sir.

00:54:44.130 --> 00:54:48.340

Leo Brooks (Gas Distribution - 5P)

Right. Uh. Moving on down, Travis Raymer, do you have anything else?

00:54:51.140 --> 00:54:53.200

Travis Raymer (Gas Distribution - 5P)

No, Sir, that was it. Thank you.

00:54:54.880 --> 00:54:59.550

Leo Brooks (Gas Distribution - 5P)

Travis Raymer, the future chairman of various Roman to Stanley County.

00:55:00.030 --> 00:55:01.150

Travis Raymer (Gas Distribution - 5P)

Hey, watch it now.

00:55:01.870 --> 00:55:02.770

Leo Brooks (Gas Distribution - 5P)

Question mark.

00:55:01.950 --> 00:55:02.450

Travis Raymer (Gas Distribution - 5P)

Watch it.

00:55:03.430 --> 00:55:03.970

Travis Raymer (Gas Distribution - 5P)

Watch it.

00:55:04.050 --> 00:55:04.590

Leo Brooks (Gas Distribution - 5P)

We'll see.

00:55:05.440 --> 00:55:06.390

Leo Brooks (Gas Distribution - 5P)

If you play your cards right.

00:55:07.200 --> 00:55:09.920

Leo Brooks (Gas Distribution - 5P)

Uh BCI Eddleman city is older.

00:55:19.760 --> 00:55:20.310

Leo Brooks (Gas Distribution - 5P)

Vicki.

00:55:23.030 --> 00:55:24.530

Tami Groves

Miss Vickie still out there?

00:55:30.820 --> 00:55:32.920

Vickie Eddleman, City of Salisbury, NC (Guest)

Yes, took me MC computers really slow.

00:55:35.300 --> 00:55:45.000

Vickie Eddleman, City of Salisbury, NC (Guest)

I don't have anything for the group. We will try to do at the feed them cows. We will try to do and 811 announcement for April.

00:55:46.230 --> 00:55:54.620

Vickie Eddleman, City of Salisbury, NC (Guest)

So just kinda keep our heads up for something funny coming up and like I said, go ahead and check out that Facebook page for the women in construction.

00:55:59.850 --> 00:56:00.330

Leo Brooks (Gas Distribution - 5P)

Alright.

00:56:00.390 --> 00:56:03.450

Leo Brooks (Gas Distribution - 5P)

Will do that and wait, Morrison.

00:56:05.710 --> 00:56:12.860

Wade Morrison

Uh, yes, Sir. Thank you for the time. I just wanted to get in front of her body and present or at least provide some type of notification.

00:56:13.480 --> 00:56:43.660

Wade Morrison

If need be for our project, we have coming up, we will be building roughly 160 miles in North Carolina this year for a customer bars Duke putting some underground utilities fibering specifically, there'll be 450,000 feet in Cabarrus, Rowan and Mecklenburg County, and they want to build that this year. Obviously, we know permitting and other issues may block that amount of production, but I know with the amount of drills that we will have active at one.

00:56:43.710 --> 00:56:54.210

Wade Morrison

Time as we start receiving those permits, I would like to coordinate it as as much as possible with any of the existing utility owners to make sure that it's a smooth process as possible.

00:56:58.970 --> 00:56:59.570

Leo Brooks (Gas Distribution - 5P)

Alright.

00:57:02.940 --> 00:57:10.410

Leo Brooks (Gas Distribution - 5P)

We appreciate that 'cause everybody doesn't give advance notice when they wanna come through. It's usually when they call in tickets when we know about it so.

00:57:07.580 --> 00:57:08.120

Wade Morrison

Yes.

00:57:10.310 --> 00:57:29.330

Wade Morrison

So I I will be continuing to be on these these calls monthly and making sure I make myself available so that I can share KMZ's and and information back and forth with those providers over those locators. So if you guys have anybody approaching you asking questions about this project, please feel free to send it my way.

00:57:30.830 --> 00:57:46.210

Tami Groves

Y'all Wade's been I I'm not. I'm not telling tales on him, but he's he's been around for at least 15 minutes, so this is not the first come. First contact I've had with them, so we appreciate him in being back around.

00:57:31.410 --> 00:57:32.790

Jimmy Gray (Gas Distribution - 5P)

It's, it's.

00:57:48.420 --> 00:58:17.650

Jimmy Gray (Gas Distribution - 5P)

I weighed in. Just, just so you'll know. This is Jimmy Gray. I I have no issues at all. Way when you when you get your plan sort of laid out. If you'd like to meet here in our office to go with it over. What you guys will be doing and we can invite will definitely be able to invite all the other companies USIC. And of course our group. And and Duke's folks and anybody else who wants to come to be a part of that.

00:58:18.310 --> 00:58:36.090

Jimmy Gray (Gas Distribution - 5P)

That worked really well and it has worked really well with the the Google stuff that's going on right now. So I'll I'll make my office available for that if if you'd like to, to sit down with all of us and and just be able to share notes and names and all that kind of stuff. Well, we'll make that available for you.

00:58:37.400 --> 00:58:51.160

Wade Morrison

Thank you very much. So I appreciate that. Yes, I will. I'll reach out here in the next. Uh, I would say within the next month, so we can get something like that scheduled on the books because we looked to be under construction and in Salisbury, in Kannapolis, probably by May 1st.

00:58:53.390 --> 00:58:58.150

Jimmy Gray (Gas Distribution - 5P)

German at my name and stuff is in the is in all the chat stuff, so feel free to give me a shout.

00:58:58.820 --> 00:58:59.720

Wade Morrison

Yes, Sir. Thank you.

00:59:00.730 --> 00:59:25.460

Ann Rushing

Hey Wade, I would like to also invite you to the locate Resolution Partnership Committee 'cause certainly with you guys doing that work for Duke, it's probably going to, you know, add a lot of updates at some point within the system. So I'm going to send you that information for the meeting on the 17th as well, if you might can make that.

00:59:26.160 --> 00:59:27.360

Wade Morrison

Yes, ma'am. Thank you for that.

00:59:27.580 --> 00:59:28.110

Ann Rushing

Super.

00:59:31.670 --> 00:59:33.370

Leo Brooks (Gas Distribution - 5P)

Allison, that's exactly what this.

00:59:31.990 --> 00:59:33.440

Wade Morrison

Well, that's all I had. Thanks for the time.

00:59:35.010 --> 01:00:04.500

Leo Brooks (Gas Distribution - 5P)

Sorry, I mean talk over there, but yeah, that's awesome. That's exactly how this is supposed to work. I wish everybody would would do this. And you don't are meetings. Let us know. They're gonna be what they're going to be doing and then we can all meet back and forth. That's certainly appreciated from I can tell you from Jimmy's perspective, we locate our own gas lines here and we're always short handed. So it's always good to know what's coming up in the future. So I from from my list, I think I've got everybody.

01:00:04.550 --> 01:00:07.300

Leo Brooks (Gas Distribution - 5P)

Have I missed anybody? Anybody had anything else to say?

01:00:10.210 --> 01:00:11.820

Leo Brooks (Gas Distribution - 5P)

I'll take that as a no.

01:00:12.700 --> 01:00:28.000

Leo Brooks (Gas Distribution - 5P)

Uh, so the the only other thing that I have, I was talking about a little bit earlier. We hadn't quite started

and well, I guess I did at the very beginning the meeting, but just a reminder we will be able to start meeting back in person here at our local office in Concord.

01:00:29.250 --> 01:00:40.760

Leo Brooks (Gas Distribution - 5P)

We Tami sends that email out. It'll have our address on it where 1801 Trinity Church Road, right here in in Concord beside the ruin, Cabarrus Community College.

01:00:41.390 --> 01:00:43.280

Leo Brooks (Gas Distribution - 5P)

Come April 14th.

01:00:44.080 --> 01:00:55.700

Leo Brooks (Gas Distribution - 5P)

Which would be we meet on the 2nd Thursday of every month at 10:00 AM. And so our next meeting would be April 14th at 10:00 AM right here and hopefully by the end will.

01:00:56.780 --> 01:01:06.900

Leo Brooks (Gas Distribution - 5P)

Be able to see whether not Piedmont will will be able to do that, so those that aren't familiar with it 'cause it's been so long since we've done it. We alternate between here and Piedmont Natural Gas and Salisbury.

01:01:07.490 --> 01:01:20.760

Leo Brooks (Gas Distribution - 5P)

So it's one month on, one month off. So we'll we'll see where we're going from there. But if if they're not ready to do it, that's totally fine. We can, we can host it here for as long as we need to, I'm sure. So with that being said.

01:01:21.510 --> 01:01:23.320

Leo Brooks (Gas Distribution - 5P)

You guys don't have anything else.

01:01:25.010 --> 01:01:28.370

Leo Brooks (Gas Distribution - 5P)

Then we will conclude our meeting.

01:01:29.780 --> 01:01:31.090

Leo Brooks (Gas Distribution - 5P)

At 11:07 AM.
