

# Virtual UCC Meetings

- Follow these video instructions to find your virtual meeting link and how to make the most of the meeting in the new MICROSOFT TEAMS platform.  
<https://www.youtube.com/watch?v=GC5zGkdxqb0>
- In the chat section please type your name, company name & email.
- Participant feature – raise hand. The meeting facilitator will acknowledge you.
- Enter the meeting with your microphone on mute and unmute your mic when you need to speak.
- Every meeting will be recorded, and the video will be posted on the [ncucc.org](http://ncucc.org) website. You can watch the meeting by using the video link provided on [ncucc.org](http://ncucc.org). Visit your county UCC page for a listing of past meeting videos.

# SAFETY MOMENT

Share your safety stories from the past month with the committee. Could be from a damage that occurred or just a near miss.

# MARCH 18

## Natural Gas Utility

## Workers' Day

# JOINT SC/NC UTILITY COORDINATING COMMITTEE CONFERENCE 2022

**LOCATION:** Hyatt Regency, 220 North Main St, Greenville, SC

**WHEN:** Wednesday, May 4, 2022 – Friday, May 6, 2022

**COST:** \$125      **Locator Training:** FREE

**CONFERENCE:** The joint UCC conference draws attendees from both states, and typically draws 200-250 attendees from various public and private utilities and service providers. Locating, construction, safety, and design companies will be present. We will have presentations on Protection of Utilities, Work Zone Safety, Design/Build, and Damage Prevention. Vendors will exhibit their products and services and a locator training class will be offered.

at

[www.ncucc.org](http://www.ncucc.org)

If this meeting was virtual, a video of the meeting is available at [ncucc.org](http://ncucc.org). Go to County UCC's. The video will be listed under the month and year the meeting took place.

00:00:00.000 --> 00:00:02.280

James McHouell (Gas Distribution - 5P)  
Projects you may be dealing with at this time.

00:00:05.130 --> 00:00:07.420

Sam Whittington (Gas Distribution - 5P)  
Other services are going good.

00:00:07.470 --> 00:00:07.820

Sam Whittington (Gas Distribution - 5P)  
Uh.

00:00:08.770 --> 00:00:24.060

Sam Whittington (Gas Distribution - 5P)  
Steal a lot of growth going in the area. We continue to do the isolated services. We got another list of inactive services for our DL. So they'll be some more locates code on that.

00:00:25.040 --> 00:00:37.750

Sam Whittington (Gas Distribution - 5P)  
Uh quintons not here. I think he's a on another project, but we did look at the project off off of 150.

00:00:38.560 --> 00:00:40.060

Sam Whittington (Gas Distribution - 5P)  
And we will be.

00:00:40.140 --> 00:00:40.370

Sam Whittington (Gas Distribution - 5P)  
So.

00:00:42.010 --> 00:00:50.150

Sam Whittington (Gas Distribution - 5P)  
Starting that one pure, uh, pretty. So nothing James doing the 1801 fifty and a.

00:00:51.510 --> 00:00:54.340

Sam Whittington (Gas Distribution - 5P)  
Uh, I'll further relocation project.

00:00:56.030 --> 00:01:09.760

Sam Whittington (Gas Distribution - 5P)  
Then we've got shepherds landing down off of Shepard off Shepherd Road and and and go Charlotte Highway. That's a pretty big project, and they're almost completed at the project up at.

00:01:10.390 --> 00:01:11.790

Sam Whittington (Gas Distribution - 5P)  
Up in Alexander County.

00:01:12.570 --> 00:01:15.690

Sam Whittington (Gas Distribution - 5P)  
So has used a little bit of what we got going on in our Dell.

00:01:19.260 --> 00:01:25.160

James McHouell (Gas Distribution - 5P)

Yeah. With regards to NC 150, we have been told by the dot that.

00:01:26.020 --> 00:01:31.530

James McHouell (Gas Distribution - 5P)

The Duke Energy is going to be moving in two crews and getting started the 1st of April.

00:01:32.270 --> 00:01:51.950

James McHouell (Gas Distribution - 5P)

L relocating the power poles, I believe from Williamson Rd to I-77 and once they're out of the way, we will be going in and relocating our gas line in that same stretch of Rd. Between Williamson and I-77.

00:01:53.520 --> 00:02:03.950

James McHouell (Gas Distribution - 5P)

And shepherds landing is that big subdivision off of NC 1:15. We're going to be going into that here within the next couple of days to get that one moving.

00:02:05.000 --> 00:02:05.950

James McHouell (Gas Distribution - 5P)

And.

00:02:06.560 --> 00:02:11.070

James McHouell (Gas Distribution - 5P)

I think that's our two biggest priority projects. We've got at this time.

00:02:14.240 --> 00:02:15.060

James McHouell (Gas Distribution - 5P)

Brian weatherman.

00:02:17.040 --> 00:02:17.500

James McHouell (Gas Distribution - 5P)

Have any?

00:02:17.550 --> 00:02:17.920

James McHouell (Gas Distribution - 5P)

Yeah.

00:02:19.350 --> 00:02:23.680

James McHouell (Gas Distribution - 5P)

Damage concerns or locate issues you want to bring up at this time.

00:02:25.610 --> 00:02:27.940

James McHouell (Gas Distribution - 5P)

Or bronze one phone. You'll have to come back with this.

00:02:28.970 --> 00:02:29.420

James McHouell (Gas Distribution - 5P)

Uh.

00:02:30.650 --> 00:02:33.420

James McHouell (Gas Distribution - 5P)

They say Jim, Maggie's on the line. Jim, you got anything?

00:02:32.740 --> 00:02:33.220

McKee, Jim

Because.

00:02:34.180 --> 00:02:35.070

McKee, Jim

I got a whole bunch.

00:02:36.770 --> 00:02:43.450

McKee, Jim

You to your point of the the Highway 1 fifty 2307 Bravo Project we are currently.

00:02:44.270 --> 00:02:44.910

McKee, Jim

Building.

00:02:45.980 --> 00:02:48.900

McKee, Jim

From right about urban Rd.

00:02:49.710 --> 00:02:51.330

McKee, Jim

To Dooley in Perth.

00:02:52.260 --> 00:02:57.700

McKee, Jim

We are building inside of the new proposed right away.

00:02:58.980 --> 00:03:06.790

McKee, Jim

So we're gonna be, we're gonna be way back up off the shoulder. The road now. We're gonna be somewhere sometimes 50 foot back of curb in some areas.

00:03:07.710 --> 00:03:08.200

McKee, Jim

Ah.

00:03:09.160 --> 00:03:30.420

McKee, Jim

We've permitted got approval from dot to start our work since we're building all that new, we're going to build out, we're going based basically 7 feet off of the new right away. So to allow Duke set their polls in that 7 foot space. So not Dan Williams and you know not not in that section. User talking about James but but from like I said Urban Rd.

00:03:14.710 --> 00:03:15.120

Marc Worth (Services - 6)

So.

00:03:31.330 --> 00:03:34.080

McKee, Jim

All West. We're gonna do it again. Going out to the lake.

00:03:35.310 --> 00:03:49.990

McKee, Jim

But just as a backup, just know that will be there when the when the relocation actually starts, we're going to be out there. So when you're locators come out, remember it will be out there someplace is 5040 foot off the edge of pavement.

00:03:51.680 --> 00:03:52.630

McKee, Jim

Other debt.

00:03:53.270 --> 00:04:00.700

McKee, Jim

Just my bills continuing in the in that area, we got permits approved for for Mccrary Robinson Rd.

00:04:01.690 --> 00:04:07.260

McKee, Jim

Do some smaller roads around there, so we are continuing to move out 150 to the lake.

00:04:08.790 --> 00:04:15.660

McKee, Jim

I am holding weekly calls with Jeremiah and the rest of the guys. Locators were holding a once weekly meeting.

00:04:16.430 --> 00:04:42.040

McKee, Jim

Because I got one crew in the apartment neighborhood, which is gonna do up and down 21 promotes Rd all the way to the V point and Acronis Rd. When I got another cruise other working out on 150. So we we have weekly calls would they wanted to kind of let them know we're going let us you know just kind of keep everybody online and it just do the scope of my work. Other Nat Bru projects were in down in Brentwood were were.

00:04:42.790 --> 00:04:47.350

McKee, Jim

Pretty much version neighborhood around mortal were in there working right now or going to.

00:04:49.710 --> 00:04:50.970

McKee, Jim

Alright. Nope, that's it.

00:04:52.820 --> 00:05:10.250

James McHouell (Gas Distribution - 5P)

Alright, thanks Jim. I didn't want. I didn't want to bring up also that we have finally gotten a commentary approval from the dot. We are resubmitting the actual encroachment to do the remain replacement between Beatty Ave.

00:04:54.410 --> 00:04:54.910

McKee, Jim  
Yeah, buddy.

00:05:10.880 --> 00:05:11.420

James McHouell (Gas Distribution - 5P)  
And.

00:05:12.720 --> 00:05:15.700

James McHouell (Gas Distribution - 5P)  
Stewart Ave on North Main Street, Morrisville.

00:05:16.370 --> 00:05:23.570

James McHouell (Gas Distribution - 5P)  
152 so as soon as we get that encroachment approved, will be putting it on our list of projects to deal with.

00:05:24.240 --> 00:05:37.030

James McHouell (Gas Distribution - 5P)  
I think we're going to be going across the road and running the main on the east side of 152 simply because every utility out there is on the West side.

00:05:37.650 --> 00:05:39.670

James McHouell (Gas Distribution - 5P)  
And there's just nowhere else for us to go.

00:05:40.400 --> 00:05:42.140

James McHouell (Gas Distribution - 5P)  
But I did want to bring that up as well.

00:05:44.330 --> 00:05:50.320

McKee, Jim  
Have you all been notified or you? I'm sure it might have been notified, but Deoti seems to have opened the floodgates on money this year.

00:05:51.170 --> 00:05:51.790

McKee, Jim  
Brawl there.

00:05:53.150 --> 00:06:03.210

McKee, Jim  
Relocation jobs done in Cornelius in Catawba Ave and I like. I don't know if y'all been getting them, but I've been getting hammered with a pile of emails about we're starting this job back. We're starting this job back kind of deal.

00:06:04.350 --> 00:06:10.820

James McHouell (Gas Distribution - 5P)

Yeah, we're getting those as well. We've got the, we've got that Catawba deal with holiday lane and Statesville.

00:06:06.090 --> 00:06:06.470

McKee, Jim

2.

00:06:11.750 --> 00:06:17.220

James McHouell (Gas Distribution - 5P)

With a roundabout, we've also got Williamson Rd from I-77.

00:06:15.190 --> 00:06:15.620

McKee, Jim

Yep.

00:06:17.950 --> 00:06:18.990

James McHouell (Gas Distribution - 5P)

But they probably school.

00:06:19.330 --> 00:06:21.100

McKee, Jim

Yeah, it's going on with broad school, correct?

00:06:20.030 --> 00:06:26.820

James McHouell (Gas Distribution - 5P)

Yep, Yep. Yeah, we've got that one back on the hot burner again. So, yeah, we're being hit the same way you guys are.

00:06:28.000 --> 00:06:29.270

McKee, Jim

Exactly right this hill.

00:06:30.780 --> 00:06:32.720

James McHouell (Gas Distribution - 5P)

Uhm, brown, are you back now?

00:06:34.190 --> 00:06:35.200

Brian Weatherman (Gas Distribution - 5P)

I am. I'm sorry.

00:06:35.550 --> 00:06:35.940

James McHouell (Gas Distribution - 5P)

OK.

00:06:37.310 --> 00:06:53.040

Brian Weatherman (Gas Distribution - 5P)

We we have had a uptick in damages this week. We had three damages Monday, various situations. I

think it's just because people are just getting back out and working with the weather being so bad they hadn't been working that much. But uh.

00:06:54.050 --> 00:06:56.520

Brian Weatherman (Gas Distribution - 5P)

I only big project we've got coming up.

00:06:57.910 --> 00:06:58.500

Brian Weatherman (Gas Distribution - 5P)

Is.

00:07:00.430 --> 00:07:11.720

Brian Weatherman (Gas Distribution - 5P)

The Brawley School Rd project from Williamson Rd. Down to rescue lane. We're gonna replace that steel in there. That should be coming next few months or so.

00:07:15.590 --> 00:07:16.970

Brian Weatherman (Gas Distribution - 5P)

It does some weird thing I've got.

00:07:17.990 --> 00:07:19.600

James McHouell (Gas Distribution - 5P)

Hi Brian. Thank you.

00:07:20.920 --> 00:07:21.720

James McHouell (Gas Distribution - 5P)

Uhm.

00:07:22.850 --> 00:07:25.600

James McHouell (Gas Distribution - 5P)

Let's say you Mr Worth, do you have anything you need to bring up?

00:07:32.900 --> 00:07:35.310

Brian Weatherman (Gas Distribution - 5P)

Uh, James. Up there, got one more question.

00:07:35.690 --> 00:07:35.940

James McHouell (Gas Distribution - 5P)

OK.

00:07:37.300 --> 00:07:41.950

Brian Weatherman (Gas Distribution - 5P)

I have. I may have missed it. Y'all may have talked about it. I'm sorry. Is on the phone.

00:07:44.600 --> 00:07:47.950

Brian Weatherman (Gas Distribution - 5P)

Or we can start meeting in person again, so maybe we can.

00:07:48.980 --> 00:07:50.460

Brian Weatherman (Gas Distribution - 5P)

A proper dissipation here.

00:07:53.210 --> 00:07:58.490

James McHouell (Gas Distribution - 5P)

Now, with the new change in the COVID policies with our company.

00:07:53.280 --> 00:07:53.760

Brian Weatherman (Gas Distribution - 5P)

Now.

00:08:00.160 --> 00:08:05.850

James McHouell (Gas Distribution - 5P)

I'm not sure, Brian, how does that affect meeting in a group? I know that we're no longer wearing mask and.

00:08:06.500 --> 00:08:09.420

James McHouell (Gas Distribution - 5P)

We don't typically have to separate, but.

00:08:10.240 --> 00:08:12.920

James McHouell (Gas Distribution - 5P)

Are there any restrictions on number of people in a meeting room?

00:08:13.850 --> 00:08:16.160

Brian Weatherman (Gas Distribution - 5P)

Us from what I'm saying, no.

00:08:16.280 --> 00:08:16.560

James McHouell (Gas Distribution - 5P)

No.

00:08:16.760 --> 00:08:21.660

McKee, Jim

Yes, that's us too. They've got a dub dub stout as well. We're not really having any kind of restrictions either.

00:08:17.330 --> 00:08:17.830

Brian Weatherman (Gas Distribution - 5P)

Mark.

00:08:21.210 --> 00:08:25.310

Brian Weatherman (Gas Distribution - 5P)

I mean, they've told us to remove the signs in the office. I mean, it's.

00:08:25.920 --> 00:08:27.570

Brian Weatherman (Gas Distribution - 5P)

It's like it never was here.

00:08:28.470 --> 00:08:28.940

McKee, Jim

There you go.

00:08:28.520 --> 00:08:37.340

James McHouell (Gas Distribution - 5P)

Well, if every if everybody feels comfortable and wants to try to get back on a meeting in person type schedule, we're open to that.

00:08:37.820 --> 00:08:38.320

McKee, Jim

Good.

00:08:40.190 --> 00:08:41.730

McKee, Jim

Big Tami Doolittle Drive it, too.

00:08:43.350 --> 00:08:45.440

Tami Groves

Hey Tammy's been driving, I tell you.

00:08:47.510 --> 00:08:48.880

McKee, Jim

Get her back up instantly.

00:08:48.000 --> 00:08:48.370

Brian Weatherman (Gas Distribution - 5P)

Ah.

00:08:49.370 --> 00:08:55.050

Brian Weatherman (Gas Distribution - 5P)

I'm just thinking that maybe we could and once we start meeting back in person, maybe we could get the little boy participation.

00:08:54.700 --> 00:08:54.970

McKee, Jim

Yes.

00:08:56.530 --> 00:09:01.530

McKee, Jim

Yeah. And I need to make one. One swag. Anyway, so yeah, you need to come on to me. Come on, buddy. Meeting back in place.

00:09:03.480 --> 00:09:04.520

Tami Groves

I can make that happen.

00:09:05.280 --> 00:09:12.490

James McHouell (Gas Distribution - 5P)

Alright, but what we'll do then is we go ahead and plan on next months meeting or being an in person meeting.

00:09:06.090 --> 00:09:06.970

Brian Weatherman (Gas Distribution - 5P)

What would you think?

00:09:13.070 --> 00:09:13.690

James McHouell (Gas Distribution - 5P)

Uhm.

00:09:15.040 --> 00:09:15.580

James McHouell (Gas Distribution - 5P)

Do.

00:09:16.890 --> 00:09:22.160

James McHouell (Gas Distribution - 5P)

Why do we want to go ahead and see if we could get this big meeting room and we want will host the first one or?

00:09:23.450 --> 00:09:24.080

Brian Weatherman (Gas Distribution - 5P)

Ah.

00:09:26.280 --> 00:09:27.080

Brian Weatherman (Gas Distribution - 5P)

I don't know.

00:09:29.250 --> 00:09:32.320

Brian Weatherman (Gas Distribution - 5P)

I'll ask that question, but I mean I I'm not opposed to it.

00:09:32.920 --> 00:09:33.180

James McHouell (Gas Distribution - 5P)

K.

00:09:33.700 --> 00:09:37.410

McKee, Jim

And I'm gonna read it. Yet I'm reach out of my group, see if they have a problem with it either.

00:09:33.800 --> 00:09:34.560

Brian Weatherman (Gas Distribution - 5P)

Specially.

00:09:38.170 --> 00:09:51.350

James McHouell (Gas Distribution - 5P)

Alright. Well what we'll do is we'll see if everybody is good with it and if we can, then we'll discuss and let Tami know where we would host the next meeting and we'll try to get it in person meeting set up for next month.

00:09:51.930 --> 00:09:55.120

Brian Weatherman (Gas Distribution - 5P)

I mean, to me, we could do it. We could do it.

00:09:52.430 --> 00:09:52.890

Tami Groves

Oops.

00:09:56.260 --> 00:10:02.080

Brian Weatherman (Gas Distribution - 5P)

Kind of a hybrid. If people still didn't. If they're companies didn't want to come, I mean, we could do it online then.

00:10:04.360 --> 00:10:05.020

Brian Weatherman (Gas Distribution - 5P)

In person.

00:10:07.250 --> 00:10:08.260

Sam Whittington (Gas Distribution - 5P)

Hey, James.

00:10:10.140 --> 00:10:13.190

Sam Whittington (Gas Distribution - 5P)

April, we usually have our.

00:10:14.090 --> 00:10:20.370

Sam Whittington (Gas Distribution - 5P)

Annual awareness breakfast. But I know with the code, but we haven't had in a couple of years so.

00:10:21.160 --> 00:10:30.950

Sam Whittington (Gas Distribution - 5P)

Uh, probably. In the next meeting we could probably talk about if we wanted to do that maybe around May to have the breakfast also if it was all permissible.

00:10:33.340 --> 00:10:35.450

McKee, Jim

I'm good with that. Yeah. They gotta be great.

00:10:34.750 --> 00:10:37.890

James McHouell (Gas Distribution - 5P)

Yeah, we we could look at that that give us some time to come.

00:10:38.880 --> 00:10:45.860

James McHouell (Gas Distribution - 5P)

Set up a another breakfast, maybe with the Golden Krauss, and they've been open for awhile now.

00:10:46.660 --> 00:10:49.830

James McHouell (Gas Distribution - 5P)

Uh, my freaking. They'll give us a window to work with.

00:10:55.500 --> 00:10:57.790

McKee, Jim

Goodbye to having breakfast at Randy's too. Yeah.

00:10:59.230 --> 00:11:01.270

James McHouell (Gas Distribution - 5P)

Yeah, we do that too, yeah.

00:11:00.820 --> 00:11:09.610

McKee, Jim

Look, I'm all about a breakfast. I'll tell you what. Yeah. Woo. You know, I like him because we've had it. Randy's and whatnot, do we could kind of move around a little bit. It was nice. It was. I enjoyed that.

00:11:10.730 --> 00:11:18.370

Sam Whittington (Gas Distribution - 5P)

Yeah, we could probably get that upper room like we always do, Jim. And that way, you know, they could take their orders and we wouldn't have to move.

00:11:10.940 --> 00:11:11.270

James McHouell (Gas Distribution - 5P)

Yep.

00:11:13.530 --> 00:11:13.880

McKee, Jim

Yep.

00:11:14.920 --> 00:11:15.220

McKee, Jim

Yep.

00:11:18.690 --> 00:11:24.950

McKee, Jim

That's it. That's kind of what I'm thinking. But like I said, you know, I mean, it's just option out there. But yes, I agree hundred with Brian that we need to get this back in person.

00:11:26.180 --> 00:11:26.970

McKee, Jim

Just because.

00:11:28.610 --> 00:11:29.270

McKee, Jim

Is because.

00:11:28.660 --> 00:11:29.120

James McHouell (Gas Distribution - 5P)

OK.

00:11:29.800 --> 00:11:31.920

James McHouell (Gas Distribution - 5P)

And work on that will work on making that happen.

00:11:29.940 --> 00:11:30.370

Brian Weatherman (Gas Distribution - 5P)

Portal.

00:11:32.550 --> 00:11:34.710

McKee, Jim

Outstanding. Outstanding.

00:11:35.800 --> 00:11:38.460

James McHouell (Gas Distribution - 5P)

OK, Tami up.

00:11:39.370 --> 00:11:42.500

James McHouell (Gas Distribution - 5P)

I see two other people are on the call, but I don't know who they are.

00:11:44.400 --> 00:11:47.900

Tami Groves

Jeremiah has joined us with USIC.

00:11:48.810 --> 00:11:52.470

James McHouell (Gas Distribution - 5P)

OK, Jeremiah, do you have any concerns or questions you'd like to bring up?

00:11:54.800 --> 00:12:24.670

Moore, Jeremiah

The only thing that I've had recently that is a concern as we've been getting a lot of tickets from Compass utility who do work for you, took for ULCS I guess and for Duke and a lot of their stuff, they calling is emergencies and they don't show up for three or four days, sometimes even a week later. And I didn't know if that was 'cause, it's kind of my guys are getting aggravated about it having to run out to rush out there and then they call in way more than what they're actually.

00:12:24.950 --> 00:12:27.000

Moore, Jeremiah

Welcome to do and so.

00:12:27.730 --> 00:12:31.310

Moore, Jeremiah

That's been an issue with my guys in my group that's been going on lately is.

00:12:32.230 --> 00:12:37.610

Moore, Jeremiah

If you're gonna call an emergency, it needs to be something that you're actually gonna show up at, you know?

00:12:38.190 --> 00:12:42.270

Moore, Jeremiah

Or something, not just, you know, come 2-3 days later or whatnot.

00:12:44.280 --> 00:12:50.820

Tami Groves

Yeah, if you will, Jeremiah, if you get those, send me some ticket numbers and I will reach out to them.

00:12:52.810 --> 00:12:55.090

Tami Groves

Nicely, but I will reach out to them.

00:12:53.950 --> 00:12:54.250

Moore, Jeremiah

'cause.

00:12:55.370 --> 00:13:10.850

Moore, Jeremiah

I I 'cause I've spoke with and I don't think it's the guys in the field. I think it's the person in the office that's calling the tickets in just pretty much calls everything in as an emergency. But I'll. I'll get you some examples of stuff.

00:13:09.860 --> 00:13:10.120

Tami Groves

K.

00:13:11.270 --> 00:13:12.490

Tami Groves

Thank you, Sir. Appreciate it.

00:13:13.470 --> 00:13:15.740

Sam Whittington (Gas Distribution - 5P)

Hey, Jeremiah, do you cover Art Hill County?

00:13:16.180 --> 00:13:19.090

Moore, Jeremiah

Yes, Sir. I cover Iredell, Davie and Yadkin.

00:13:20.200 --> 00:13:37.910

Sam Whittington (Gas Distribution - 5P)

OK. If you would or if you could, would you put your information in the box there? Uh, we've been having some issues maybe getting some they go locates for our our cruise and had known anybody to call locally. So if you could share that with that would help us out a lot.

00:13:46.940 --> 00:13:58.760

Tami Groves

And James, adult see anybody else in there? I, Richard Walsh was having some computer issues this morning. So he said he was not going to be able to join.

00:14:00.420 --> 00:14:04.330

James McHouell (Gas Distribution - 5P)

OK, a Marc worth, do you have anything you'd like to bring up at this time?

00:14:06.400 --> 00:14:13.910

Marc Worth (Services - 6)

Uh, just that all of sudden tickets have jumped up in volume this week over the rest of the rest of the year.

00:14:14.600 --> 00:14:16.780

Marc Worth (Services - 6)

But that's about all I have.

00:14:19.150 --> 00:14:22.960

James McHouell (Gas Distribution - 5P)

Alright, thank you, Mark. OK, Tami, I'll turn it over to you.

00:14:23.300 --> 00:14:43.370

Tami Groves

Alright, well run with it. I'm not gonna shoot through all that UCC virtual meeting stuff. I would just will say if you will put your contact information, your name, your company and anything you'd like to share in that little chat section. We use that as our roster. So please if you would put that in there.

00:14:44.280 --> 00:15:13.060

Tami Groves

Appreciate y'all having the safety moment already talking about the beautiful weather and and being outside and being aware of your surroundings and aware of the equipment that you're working with. So you were ahead of me on that one this month. We would pop right into that. A message from our executive director, Louis Panzer, the Excavation Safety conference is being held this week in Phoenix, AZ.

00:15:14.020 --> 00:15:31.600

Tami Groves

Several of our team members are out there, so it you get some of y'all have met Brian Morehouse. Brian works in the western part of the state. So Brian is actually out there this week as well. CJ conference is the first week of April. CJ is the common ground alliance.

00:15:32.700 --> 00:16:04.970

Tami Groves

Just a reminder, the 811 is meant for work that will begin after the three full day business window. So you know that that pops back into Jeremiah's discussion about people calling in emergency tickets and then not showing up for several days updates or used for work exceeding the 15 working days we've we've talked about that for a couple years now about making sure that you know that if the work's been completed not updating those tickets.

00:16:05.390 --> 00:16:22.140

Tami Groves

And what I'm finding as well is that a lot of times people will enter a ticket and then because of the supply chain concerns or supply chain issues that supplies materials aren't on site and they might be.

00:16:23.700 --> 00:16:32.520

Tami Groves

Six weeks out and still those tickets are being updated. If you don't update those tickets, they kind of go into sort of a.

00:16:34.210 --> 00:16:47.970

Tami Groves

They're still out there, but they sort of just go into silent mode and you can actually go back up to 89 days later and pick those up and still put those in there so.

00:16:49.160 --> 00:17:18.790

Tami Groves

You know, we're just reminding everybody to know, not update those tickets if you're not actively working. And then last but not least, knowing the extent of the project before calling 811 to make sure that you aren't requesting more work for the utility company than is actually necessary. So you know, making that actual job site and looking to see what you have out there.

00:17:13.070 --> 00:17:13.360

Moore, Jeremiah

Right.

00:17:16.890 --> 00:17:17.260

Moore, Jeremiah

Looking.

00:17:19.150 --> 00:17:35.820

Tami Groves

And not requesting more, you know, go out, walk the site white line if necessary. But you know if you know you're just going to be working on one side of the property requesting that whole property really.

00:17:36.520 --> 00:17:40.880

Tami Groves

Uh hum, throws the utility and their locator behind.

00:17:42.270 --> 00:17:55.600

Tami Groves

You know, obviously if you know that project, if there's a chance you might go the other way, then you're gonna request what's necessary. But, you know, not asking for more than you actually need.

00:17:57.710 --> 00:18:17.760

Tami Groves

Uh will go into NC 811 data and thanks Richard for joining us. I'm glad you got your computer issue taken care of. Locate requests for the month of February 100 and 84,426.

00:18:18.880 --> 00:18:33.940

Tami Groves

That is a non and a half percent increase over February of 2021. We're talking about that increase in tickets and we're seeing it transmissions up as well, 5.6%.

00:18:34.530 --> 00:19:04.840

Tami Groves

Tickets year to date, we're already at 300,300 and 58,344. Yeah, that's pretty much an 8% increase over year to date last year and transmissions or up as well, transmissions at 1,985,009, sixty seven, a four point, 7% increase in those transmissions.

00:19:06.550 --> 00:19:37.050

Tami Groves

For Iredale County, tickets per day for the month of February were up 2.9 percent, 24166 new tickets. Total tickets for Iredell total tickets include retransmits and updates. Total tickets were up 13% Mark there's there's part of that increase your seeing as well 41161 average locates per day for Iredell County.

00:19:37.100 --> 00:19:40.950

Tami Groves

For the month of February were 198.

00:19:43.840 --> 00:20:12.850

Tami Groves

Year to date for Iredell County. New tickets here to date 5136. So a 5.8% increase total tickets year to date. That's January and February for Iredell 8578 y'all. That's a 19.2% increase over last year. Update tickets were up almost 50 percent 47.9.

00:20:15.620 --> 00:20:20.220

Tami Groves

Ticket distribution for iredell of those 4400 tickets.

00:20:20.880 --> 00:20:33.850

Tami Groves

2500 of those 25166 to to bring it to a fine point where in Mooresville, Statesville, 1088, Troutman 5507.

00:20:37.730 --> 00:20:46.390

Tami Groves

Upcoming events. The calendar of events. Just a reminder that April is national safe digging month. If you do any.

00:20:46.450 --> 00:20:56.780

Tami Groves

Come on social media posts, please use that hashtag in SDM and there's a tool kit on our website. You can go out and actually pull up.

00:20:57.950 --> 00:21:27.300

Tami Groves

Speaking points and and other information if you'd like to share, but April is national safe digging month at rolls around this time every year. Don't forget the North Carolina 811 treasure hunt is in effect from

now until April 29th. Enter for your chance to win 811 dollars. Go out to the website you're going to watch some video and ask some questions and enter for that chance to win. That's a.

00:21:27.680 --> 00:21:33.280

Tami Groves

A good chunk of change towards those spring projects or a little summer vacation.

00:21:34.350 --> 00:22:05.080

Tami Groves

The call 811 before you dig250poweredbycall811.com the for those of you that are racing enthusiasts April the 8th, 2022 at 7:30 in Ridgeway, VA. If anyone is interested, that will be the call 811 before you dig 250 March the 18th is natural gas utility Workers day. So we wanna say thanks y'all 'cause.

00:22:05.380 --> 00:22:10.040

Tami Groves

Most everybody here is from the national natural gas industry.

00:22:11.390 --> 00:22:17.540

Tami Groves

Jim and Jeremiah, I'm not leaving you out, but just saying thanks to those those folks in natural gas.

00:22:19.200 --> 00:22:50.280

Tami Groves

The joint North Carolina, South Carolina UCC, the Joint Utility Coordinating Committee Conference will be at the Hyatt Regency in Greenville, May the 4th through May the 6th. That's coming up. The cost of registration is \$125.00 and there will be some locator training for free. I'm not sure who else been to that joint UCC conference before, but it obviously it gets people from both States and.

00:22:50.620 --> 00:23:20.830

Tami Groves

Anywhere from 200 plus attendees from different utilities, public and private service providers, locating construction, safety and design companies will be present. There will be presentations on protection of utilities, work zone safety, design build and damage prevention. And then obviously there will be vendors there exhibiting products and services and that free locator training class. I know that we'll be there.

00:23:20.880 --> 00:23:32.830

Tami Groves

Probably perched right next to South Carolina 811. If you go to the NCUCC website, just follow that link to the Joint North Carolina, South Carolina UCC.

00:23:33.970 --> 00:24:06.070

Tami Groves

The first North Carolina 811 board meeting of the year, the first quarter board meeting will be Friday, April 22nd from 8:30 to 10:30 at the four points by Sheraton and Asheville. Please contact Stephanie at our office if you're interested in attending [stephanie@nc811.org](mailto:stephanie@nc811.org). And if you don't get any of this information, please let me know and I'll I'll get that to you. The next North Carolina underground Damage Prevention Review Board meeting is Tuesday, April 19th.

00:24:06.120 --> 00:24:14.650

Tami Groves

That will be a hybrid meeting that will be at the North Carolina 811 events center starting at 10:00 AM.

00:24:15.950 --> 00:24:27.860

Tami Groves

The next state UCC meeting is next Tuesday, beginning at 10:00 AM again hybrid meeting that will be held at the North Carolina 811 Event Center.

00:24:28.890 --> 00:24:35.870

Tami Groves

If you want to attend in person again at the Event Center in Greensboro or join online.

00:24:36.870 --> 00:24:42.820

Tami Groves

I believe that last invite will go out Monday and a copy of the agenda is attached.

00:24:43.970 --> 00:25:13.600

Tami Groves

The next locate Resolution Partnership Committee meeting is March 17th. I'm sure y'all are going to be surprised to hear me say hybrid meeting at the 811 Event Center for beloved into one. A couple of things on the agenda is talking about project coordination and update tickets that LRPC we've really worked on those update tickets for the last couple years, so we're going to start focusing some on project coordination, but.

00:25:13.710 --> 00:25:20.310

Tami Groves

Really will still, you know, talk about update tickets and reminding folks about those update tickets?

00:25:21.200 --> 00:25:52.250

Tami Groves

For information on North Carolina 811 and NCUCC events, please visit the calendar section of North Carolina 811.org or the NC 811 app. And that app is a free download. It it's a free download for Apple and Android users. Just go out and type in NC 811 in your App Store. Thanks Jim y'all, it is a free download and it is a handy little tool to have. That's the education.

00:25:52.300 --> 00:25:57.030

Tami Groves

Team, I'm not gonna go through and introduce everybody. This isn't the first time you've seen this.

00:25:57.890 --> 00:26:27.840

Tami Groves

And appreciate your time and attention. A PDF copy of this presentation will be available at NC ucc.org and the video will be available as well. This video and the the roster will be used the where we signed him that will be used as part of our roster. With that, I'm going to stop presenting if no one has any questions and turn that back over to.

00:26:27.900 --> 00:26:29.550

Tami Groves  
James and Sam.

00:26:30.310 --> 00:26:30.820

Tami Groves  
Uhm.

00:26:31.800 --> 00:26:36.780

Tami Groves  
Adding that Richard glad you're able to join and see if you have anything to share.

00:26:39.740 --> 00:26:47.710

Richard Walsh (Gas Distribution - 5P)  
Uh, yeah, maybe I've got a sorry about being late. I had technical difficulties. I had to call help desk.

00:26:49.690 --> 00:27:19.580

Richard Walsh (Gas Distribution - 5P)  
I was on a contractor visit yesterday and and it's just a rumor, it's not been confirmed. I might go higher up the food chain, but the guy that was kind of over the fiber project there told me he said. Are you ready for this summer? And I said, yeah, I reckon. Wow. Well, you got. And he said we've got 5,000,000 feet of fiber on the next phase starting in a couple of weeks.

00:27:20.070 --> 00:27:29.270

Richard Walsh (Gas Distribution - 5P)  
That's gonna be basically from Concorde to Bryson City, and I think that's like 947 miles of fiber. They're gonna be putting in.

00:27:30.790 --> 00:27:31.350

Tami Groves  
Wow.

00:27:33.210 --> 00:27:33.630

Richard Walsh (Gas Distribution - 5P)  
So.

00:27:35.030 --> 00:27:36.430

Richard Walsh (Gas Distribution - 5P)  
Ready for a long, hot summer?

00:27:45.060 --> 00:27:49.300

Richard Walsh (Gas Distribution - 5P)  
I think my math right on that Marc Worth could check it, but it's 5,000,000 feet.

00:27:53.360 --> 00:27:55.090

Tami Groves  
That's a that's a lot of fiber.

00:27:55.340 --> 00:27:56.520

Marc Worth (Services - 6)

5,000,000 feet.

00:27:57.500 --> 00:28:01.020

Marc Worth (Services - 6)

1000 miles, I mean, no, that's about five hours.

00:27:57.830 --> 00:27:58.260

Richard Walsh (Gas Distribution - 5P)

Having.

00:28:03.710 --> 00:28:05.310

Moore, Jeremiah

What? What? Companies putting that in?

00:28:06.020 --> 00:28:10.180

Richard Walsh (Gas Distribution - 5P)

Uh, that will be the part of the AT&T fiber overbuild project.

00:28:17.620 --> 00:28:20.020

Tami Groves

Jeremiah, do you have to grab the smelling salts?

00:28:23.570 --> 00:28:24.070

Moore, Jeremiah

No.

00:28:23.910 --> 00:28:24.340

Richard Walsh (Gas Distribution - 5P)

Like a.

00:28:25.430 --> 00:28:30.390

Richard Walsh (Gas Distribution - 5P)

Like I said, at this time and is an unconfirmed rumor, but I have no reason to doubt him.

00:28:31.660 --> 00:28:36.340

Richard Walsh (Gas Distribution - 5P)

But I'll go higher up the food chain so if I can get a more definite answer on that.

00:28:37.220 --> 00:28:39.720

Moore, Jeremiah

'cause, they're gonna have much of that is going to be in Iredell.

00:28:41.590 --> 00:28:47.950

Richard Walsh (Gas Distribution - 5P)

No, that's the stuff I've gotta work out. And I'd like to know exactly where all this is going.

00:28:49.290 --> 00:28:54.530

Richard Walsh (Gas Distribution - 5P)

But I know it's in the West, so the West is anything pretty much West of Charlotte, I assume.

00:28:56.790 --> 00:28:57.830

Marc Worth (Services - 6)

Hopefully it's Murphy.

00:29:02.350 --> 00:29:03.990

Tami Groves

I appreciate that that's a.

00:29:05.120 --> 00:29:09.680

Tami Groves

And not that everybody wasn't busy enough already, but you know.

00:29:10.380 --> 00:29:12.070

Tami Groves

Job security are wrecking.

00:29:11.000 --> 00:29:11.320

Richard Walsh (Gas Distribution - 5P)

Yeah.

00:29:12.700 --> 00:29:22.000

Richard Walsh (Gas Distribution - 5P)

Yeah, yeah. If there's putting that much cable and Murphy, they could, they could circumvent Murphy, like, 4.9 million feet times.

00:29:26.710 --> 00:29:27.520

James McHouell (Gas Distribution - 5P)

Alright then.

00:29:28.300 --> 00:29:29.300

James McHouell (Gas Distribution - 5P)

Alright, well.

00:29:30.740 --> 00:29:38.410

James McHouell (Gas Distribution - 5P)

And let's anyone has anything else they wanna bring up will look at doing in in person meeting next month.

00:29:40.030 --> 00:29:46.970

James McHouell (Gas Distribution - 5P)

We will get some more information on that and I will be sure and let Tami note where that location will be once we nail that down.

00:29:48.130 --> 00:29:52.050

James McHouell (Gas Distribution - 5P)

But if no one has any other questions, will go ahead and wrap this meeting up then.

00:29:53.390 --> 00:29:54.500

James McHouell (Gas Distribution - 5P)

And thanks for your time.

00:29:56.080 --> 00:29:56.630

Moore, Jeremiah

Hey, I.

00:29:56.090 --> 00:29:57.870

Tami Groves

Thanks everyone. Go ahead, germa.

00:29:58.200 --> 00:30:06.360

Moore, Jeremiah

I'm sorry, I my computer shut off while somebody was asking me a question earlier and I didn't get to hear the question. That or.

00:30:06.940 --> 00:30:11.910

Moore, Jeremiah

Uh answer whatever he was asking me when he was asking me where I was. Supervisor over.

00:30:12.600 --> 00:30:17.150

Sam Whittington (Gas Distribution - 5P)

Yeah, I was asking if you could send me your information now. We've had some.

00:30:12.780 --> 00:30:13.620

Tami Groves

Oh.

00:30:18.210 --> 00:30:24.700

Sam Whittington (Gas Distribution - 5P)

Had some little issues with USIC and I was wanting to see if you could send that information and in the chat box.

00:30:25.300 --> 00:30:27.570

Moore, Jeremiah

Yes, Sir, I will. I'll add that in right now.

00:30:28.180 --> 00:30:28.910

Sam Whittington (Gas Distribution - 5P)

OK. Thank you.

00:30:29.540 --> 00:30:29.960

Moore, Jeremiah

Thank you.

00:30:36.580 --> 00:30:37.130

Tami Groves  
Gentlemen.

00:30:37.190 --> 00:30:54.190

Tami Groves  
Appreciate it. I'll be looking forward. The invite to come out. I will copy you on it and we'll see where the next meeting will be held forward to actually seeing you in person. That'll be a quite a change.

00:30:57.280 --> 00:30:58.430

Sam Whittington (Gas Distribution - 5P)  
Thank you much, Tami.

00:30:57.960 --> 00:30:58.930

Marc Worth (Services - 6)  
It'll be nice.

00:30:59.240 --> 00:31:00.090

James McHouell (Gas Distribution - 5P)  
That's what Tami.

00:30:59.290 --> 00:31:00.760

Tami Groves  
Thank you. Appreciate it.

00:31:01.560 --> 00:31:02.800

Tami Groves  
See y'all soon.

00:31:03.020 --> 00:31:03.570

James McHouell (Gas Distribution - 5P)  
Alright.

00:31:04.170 --> 00:31:04.870

Richard Walsh (Gas Distribution - 5P)  
So you, Tami.

00:31:05.570 --> 00:31:06.650

Tami Groves  
Bye. Thank you.

00:31:07.140 --> 00:31:07.580

Richard Walsh (Gas Distribution - 5P)  
You're welcome.

00:31:31.050 --> 00:31:33.890

Marc Worth (Services - 6)  
You get rid of that record button and I've got a comment.

Meeting Summary

Total Numt 8

Meeting Title Iredell County UCC TEAMS Meeting

Meeting Start 3/3/2022, 8:51:36 AM

Meeting End 3/3/2022, 9:38:51 AM

Meeting Id ada85509-29e1-446d-94e0-f56819bfc41a
