Discussion:

Parrish with NC811 presented the NC811 report. He presented a slide with reminders about locates and communication for everyone. He also discussed trying to reduce excessive update tickets. Overall locate tickets were up 8.5% from last year. Harnett County had a 21.7% increase in locates and Johnston County had a 3.1% increase. There were 15 damages reported in Harnett County and 22 in Johnston County in May. He shared the calendar of events that NC811 will be involved in. 811 day is coming up, more information can be found at nc811.org/811-day.

There was discussion about how everyone handles spotting the lines that are marked, to try to find all lines that are in the excavation area. The representative from PRG said that if there is a mark and you find the line but then there is another one there and you cut it, he thinks you have done your due diligence by spotting the first line but he did say you should probably try to check the depth of the excavation area to make sure there are not more lines.

Andrew reminded everyone to white line and to invite contractors to our meetings, he then adjourned the meeting.

NEXT MEETING:
