

Cabarrus/Rowan/Stanly Co UCC
July 2023

Meeting opened by Chair, Leo Brooks

Self-introductions were made by everyone

Level One Safety given by Trevor

Safety moment given by Leo. Roadway safety/flagging. Be aware of personnel in and around the roadway.

NC811 presentation given by Tami Groves

We want to prep for the damage prevention luncheon next month. Send Leo information about donations. The UCC is the place to build relationships. Awareness is a problem when a utility is struck. There are consequences.

Dominion Energy – Very busy. Lot of work happening.

Cabarrus/Salisbury/Kannapolis. Duke Energy awarded work to Infrotech. They are the prime for Duke.

SEC – Doing work at the Celanese plant.

City of Salisbury – Question from contractor about pins and utilities around property on Spencer Lane. Utilities try to be cognizant of pins and if flagged they do try to work around them.

Piedmont Natural Gas – Energy United line one decommission. Will be a lot of located coming for this project.

City of Concord – Little bit of a lull right now. Just business as usual. Verizon is doing work near the speedway.

Colliers Engineering and Design – David spoke about Project Atlas.
