

Rob Litteral - TRC

Field Supervisor | Damage Prevention Specialist | Project Management Professional

Rob Litteral is a seasoned utility and infrastructure professional with over two decades of experience in telecommunications, utility safety, and project coordination. Originally from Ohio, Rob has proudly called North Carolina home for over 15 years. His strong leadership, in-depth technical knowledge, and commitment to public safety have made him a trusted figure in the industry.

For the past five years, Rob has served as the **Watch and Protect Lead Tech at TRC Companies, Inc.**, where he acts as the primary point of contact for **Piedmont Natural Gas**. In this role, he educates contractors on North Carolina dig-safe laws and **NC 811**, performs locate audits, verifies gas line data against Piedmont Natural Gas prints, and oversees employee routing, hiring, and training. His deep knowledge of **NC 811** and **UCC laws and codes** makes him a critical asset in ensuring excavation safety and regulatory compliance.

Before joining TRC, Rob held quality control and inspection roles with leading organizations such as **Duke Energy, AT&T, Ansco**, and **Time Warner Cable**. Across these roles, he inspected fiber installations, managed residential subdivision projects, and ensured all work met safety, design, and client specifications. As a former **Project Manager and Construction Coordinator** at Time Warner Cable, Rob led multi-phase buildouts and coordinated between engineering, permitting, and construction teams.

Rob studied **Project Management** and **Theology** at **Liberty University**, reflecting his commitment to both professional excellence and personal growth.

Outside of work, Rob is a devoted husband and father who enjoys golf and fishing in his downtime.
